

KEAT Pro X

Installation Guide

Step 1: Downloading KEAT Pro X

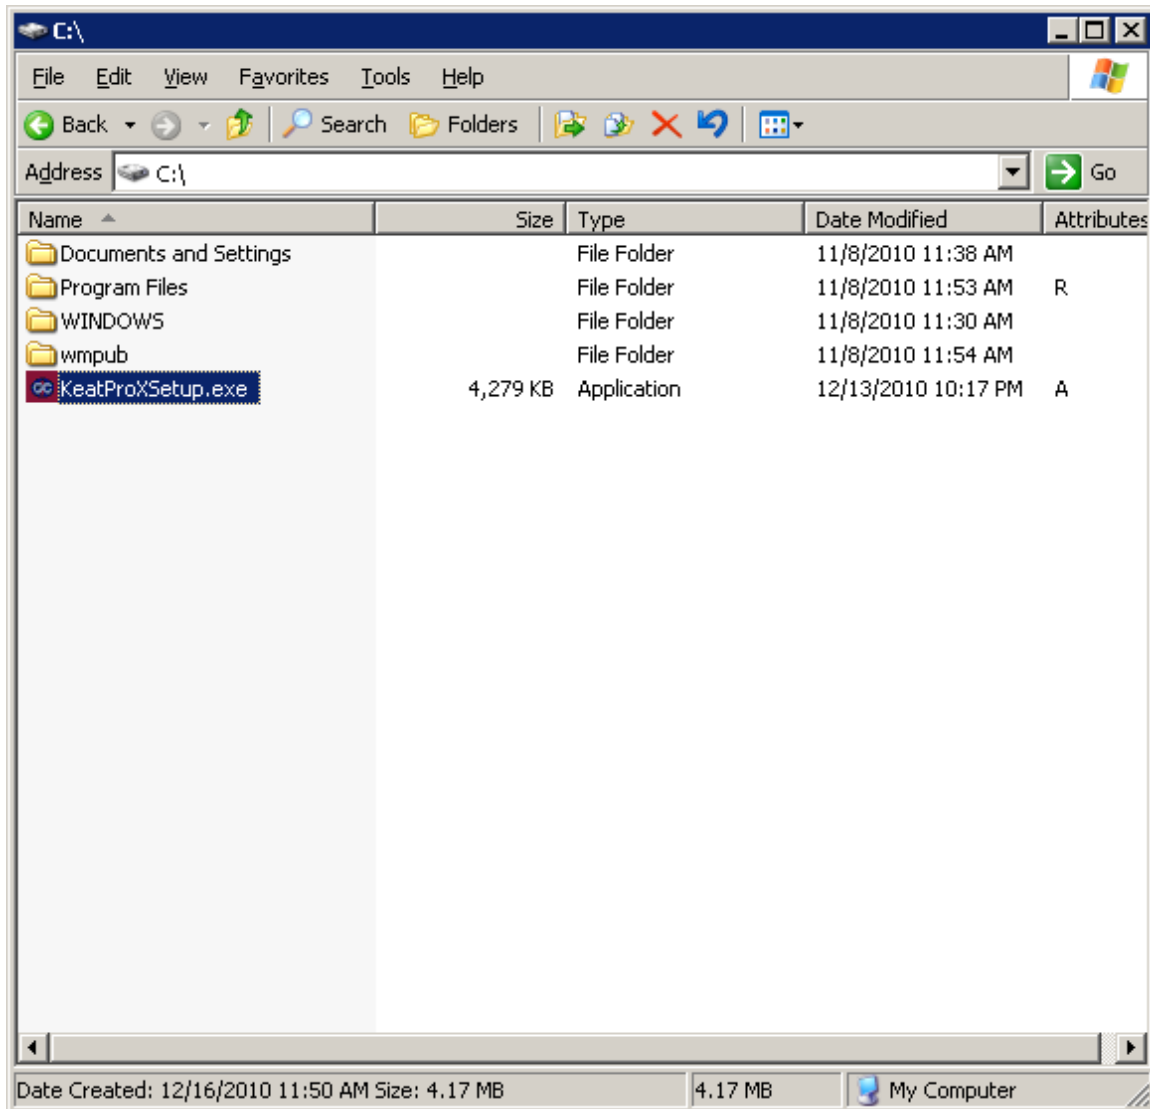

Once you click on the download link of KEAT Pro X, a 'File Download' window will open. Save the zipped file by clicking on 'Save Button'. The location for saving the file will be asked. Select the appropriate location like 'Desktop' or 'My Documents' & save the zipped file.

Step 2: Unzipping the file

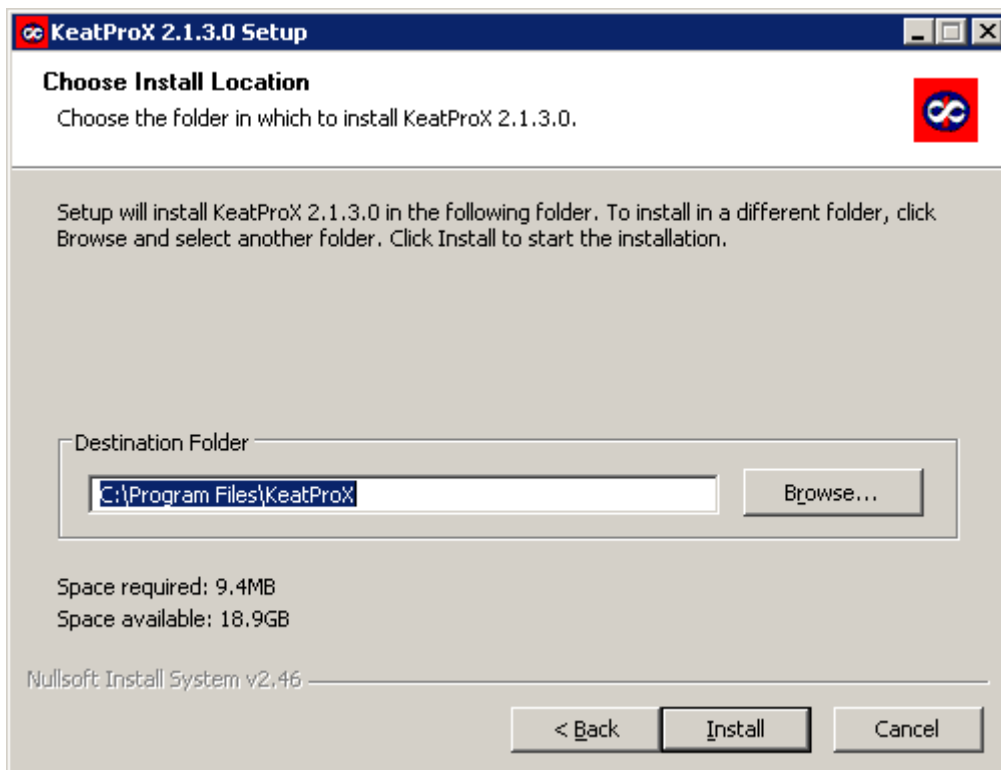

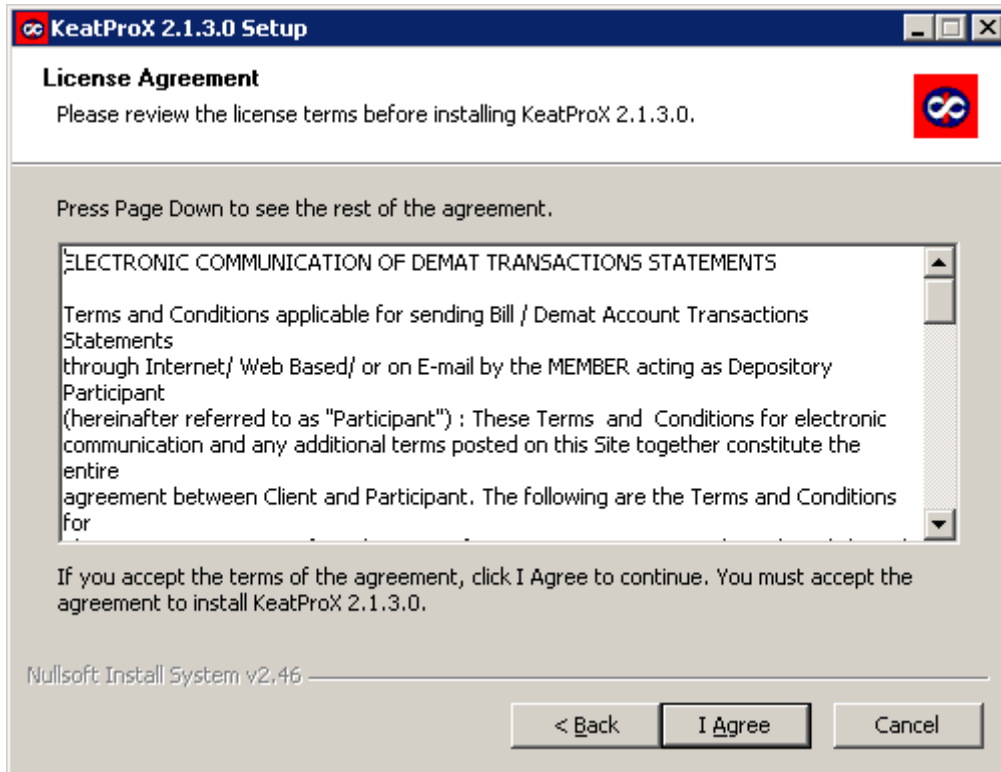

Use 'Win Zip' or 'Win Rar' software to unzip the file. A KEAT Pro X Setup file will appear. Double click on it to start the installation.

Step3: Start the installation

Follow the installation process.

Step 4: Starting KEAT Pro X

After the successful installation, a KEAT Pro X icon will appear on. Double click on it & the application will start with login window.

Enter your User ID, Password & Security Key (if provided) & start trading.
