For further information on our Company's financial information, see "*Restated Consolidated Financial Information*" on page 244.

Unless indicated otherwise, all references to a year in this Red Herring Prospectus are to a calendar year. Our Company's financial year commences on April 1 and ends on March 31 of the next calendar year. Accordingly, all references to a particular financial year or fiscal, unless stated otherwise, are to the 12 months period ended on March 31 of that calendar year. Reference in this Red Herring Prospectus to the terms Fiscal or Fiscal Year or Financial Year is to the 12 months ended on March 31 of such year, unless otherwise specified.

The degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting policies and practices, Ind AS, the Companies Act and SEBI ICDR Regulations. Any reliance by persons not familiar with the aforementioned policies and laws on the financial disclosures presented in this Red Herring Prospectus should be limited. There are significant differences between Ind AS, U.S. GAAP and IFRS. Our Company does not provide a reconciliation of its financial statements with Ind AS, IFRS or U.S. GAAP requirements. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data.

For further details in connection with risks involving differences between Ind AS and other accounting principles, see "*Risk Factors – Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and*

IFRS, which may be material to the Restated Consolidated Financial Information prepared and presented in accordance with SEBI ICDR Regulations contained in this Red Herring Prospectus." on page 57.

Unless the context otherwise requires or indicates, any percentage or amounts (excluding certain operational metrics), with respect to financial information of our Company, as set forth in "*Risk Factors*", "*Our Business*", "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" on pages 20, 185 and 304, respectively, and elsewhere in this Red Herring Prospectus have been calculated on the basis of figures derived from the Restated Consolidated Financial Information.

In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. Except as otherwise stated, all figures derived from our Restated Consolidated Financial Information in decimals have been rounded off to the second decimal and all the percentage figures have been rounded off to one decimal place. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. Further, any figures sourced from third-party industry sources may be rounded off to other than two decimal points to conform to their respective sources.

Non-Generally Accepted Accounting Principles Financial Measures ("Non-GAAP Measures")

In evaluating our business, we consider and use non-GAAP financial measures and key performance indicators, including such as, EBITDA, EBITDA Margin, PAT Margin, ROE, ROCE and Debt-Equity Ratio which have been included in this Red Herring Prospectus. The presentation of these non-GAAP financial measures and key performance indicators is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with Ind AS. We present these non-GAAP financial measures and key performance indicators because they are used by our management to evaluate our operating performance and formulate business plans.

These non-GAAP financial measures are not defined under Ind AS and are not presented in accordance with Ind AS. The non-GAAP financial measures and key performance indicators have limitations as analytical tools. Further, these non-GAAP financial measures and key performance indicators may differ from the similar information used by other companies, including peer companies, and therefore their comparability may be limited. Therefore, these metrics should not be considered in isolation or construed as an alternative to profit before tax, net earned premiums, gross earned premiums or any other measure of performance or as an indicator of our operating performance, liquidity or profitability or results of operations. In addition, these Non-GAAP Measures are not a standardized term, hence a direct comparison of similarly titled Non-GAAP Measures and other operating matrices between companies may not be possible. Although the Non-GAAP Measures and other operating matrices are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it is useful to an investor in evaluating us because it is a widely used measure to evaluate a company's operating performance. For further details, see "*Risk Factors – Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance such as EBITDA and EBITDA margin have been included in this Red Herring Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable."* on page 53.

Figures sourced from third-party industry sources may be expressed in denominations other than millions or may be rounded off to other than two decimal points in the respective sources, and such figures have been expressed in this Red Herring Prospectus in such denominations or rounded-off to such number of decimal points as provided in such respective sources.

The Industry Report has been commissioned and paid for by our Company exclusively for the purposes of the Issue, pursuant to an engagement letter dated October 14, 2025 and is available on our Company's website at www.cordeliacruises.com. Further, CRISIL Intelligence *vide* their letter dated June 12, 2026 ("**Letter**") has accorded their no objection and consent to use the Industry Report, in full or in part, in relation to the Issue. Further, CRISIL Intelligence, *vide* their Letter has confirmed that they are an independent agency, and confirmed that it is not related to our Company, our Directors, our Promoters our KMP, Senior Management and the BRLM. The extent to which the industry and market data presented in this Red Herring Prospectus is meaningful depends upon the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business and methodologies and assumptions may vary widely among different market and industry sources.

In accordance with the SEBI ICDR Regulations, the section "*Basis for Issue Price*" on page 109 includes information relating to our peer group companies, which has been derived from publicly available sources. Accordingly, no investment decision should be made solely on the basis of such information.

Although the industry and market data used in this Red Herring Prospectus is reliable, the data used in these sources may have been re-classified by us for the purposes of presentation. Data from these sources may also not be comparable. FORWARD-LOOKING STATEMENTS

This Red Herring Prospectus contains certain statements which are not statements of historical fact and may be described as "forward-looking statements". These forward-looking statements include statements which can generally be identified by words or phrases such as "aim", "anticipate", "are likely", "believe", "continue", "can", "could", "expect", "estimate", "intend", "may", "likely", "objective", "plan", "propose", "will continue", "seek to", "will achieve", "will likely", "will pursue" or other words or phrases of similar import. Similarly, statements that describe the strategies, objectives, plans or goals of our Company are also forward-looking statements. All statements regarding our expected financial conditions, results of operations, business plans and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, plans, revenue and profitability (including, without limitation, any financial or operating projections or forecasts) and other matters discussed in this Red Herring Prospectus that are not historical facts. However, these are not the exclusive means of identifying forward-looking statements.

These forward-looking statements are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

Actual results may differ materially from those suggested by the forward-looking statements due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to the industry in which our Company operates and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and globally which have an impact on our business activities, investments, or the industry in which we operate, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in the industry in which we operate and incidents of any natural calamities and/or acts of violence.

Certain important factors that could cause actual results to differ materially from our Company's expectations include, but are not limited to, the following:

- We currently undertake our operations through a single cruise vessel, the 'MV Empress'. Any disruption to our cruise vessel could lead to operational disruptions and adversely impact our business, results of operations, financial condition and cash flows.
- A significant portion of our revenue is derived from our cruise ticket sales, which accounted for 91.22%, 89.53% and 87.45% of our revenue from operations in Fiscals 2026, 2025 and 2024, respectively. A decline in our cruise ticket sales may adversely impact our business, financial condition, results of operations, cash flows and prospects.
- Our Company operates as the vessel operating entity, while the vessel owning entity is Bay Cruise Investment Inc. Any legal, financial, or regulatory issues faced by Bay Cruise Investment Inc. could indirectly impact our business and results of operations.
- Our growth strategy relies on the acquisition of new vessels to expand our operations. Our inability to expand our operations by acquiring new vessels could significantly impact our business, financial condition, and results of operations.
- Our Statutory Auditors have included certain adverse remarks, emphasis of matters and qualifications in their auditor's report. In particular, our Statutory Auditors included a remark in the audit report for Fiscal 2024 pertaining to the material uncertainty related to going concern.
- An increase in cruise capacity without a corresponding increase in demand and infrastructure could adversely affect our business, results of operations, financial condition and cash flows.
- Our cruise operations depend on limited third-party service providers for critical services and amenities, including technical and crew management, hospitality management, general purchasing and logistics management and entertainment. Any disruption in the services offered by these third-party service providers may adversely impact our business, results of operations, financial condition and cash flows.
- We have a limited operating history and our historical performance may not be indicative of our future

growth or financial results.

- Our inability to ensure high cruise occupancy rates could result in significant financial losses and adversely impact our business, results of operations, financial condition and cash flows.
- We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.

For further discussion of factors that could cause our actual results to differ from our estimates and expectations, see "*Risk Factors*", "*Our Business*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" on pages 20, 185 and 304, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

We cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of our future performance.

Forward-looking statements reflect the current views of our Company as of the date of this Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management's beliefs, assumptions, current plans, estimates and expectations, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect.

Neither our Company, our Directors, our Promoters, the Book Running Lead Manager, the Syndicate Member nor any of their respective affiliates or advisors have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with the SEBI ICDR Regulations, our Company will ensure that Bidders in India are informed of material developments pertaining to our Company and the Equity Share forming part of the Issue from the date of this Red Herring Prospectus until the time of the grant of listing and trading permission by the Stock Exchanges.

1. ***We currently undertake our operations through a single cruise vessel, the 'MV Empress'. Any disruption to our cruise vessel could lead to operational disruptions and adversely impact our business, results of operations, financial condition and cash flows.***

We currently conduct our operations through a single cruise vessel, the "MV Empress", which exposes us to significant operational risks. Any disruption to the operations of this cruise vessel, whether due to mechanical failure, accidents, or other unforeseen events, could lead to operational disruptions that could have an adverse impact on our business, results of operations, and financial condition and cash flows. For example, if our cruise vessel were to experience a mechanical breakdown, it could result in delays or cancellations of cruises, leading to lost revenue and potential customer dissatisfaction. Similarly, accidents involving the vessel, such as collisions, groundings, or onboard incidents, could cause significant damage to the vessel, injury to passengers or crew, and potential loss of life. These events could lead to substantial repair costs, legal liabilities, including third-party claims, and negative publicity, all of which could severely impact our business operations, results of operations, financial condition and cash flows.

Given our reliance on a single vessel as of the date of this Red Herring Prospectus, we do not have the operational flexibility to mitigate these risks through alternative vessels or operational strategies. While we have not experienced any mechanical breakdown or accidents in relation to our cruise vessel in the last three Fiscals which had an adverse impact on our business, results of operations, financial condition and cash flows, we cannot assure you such instances will not arise in the future. See also, *"13 - Adverse incidents involving the operation of our cruise vessel, including adverse weather conditions or other natural disasters, may require us to alter our itineraries or cancel existing cruises which could have an adverse impact on our business, results of operations, financial condition and cash flows." and "15 - Any significant malfunction or breakdown of our cruise vessel may cause interruptions to our cruise operations and may involve high repair and maintenance costs, both of which could have an adverse impact on our business, financial condition, results of operations and cash flows."* on pages 39 and 40, respectively.

2. ***A significant portion of our revenue is derived from our cruise ticket sales, which accounted for 91.22%, 89.53% and 87.45% of our revenue from operations in Fiscals 2026, 2025 and 2024, respectively. A decline in our cruise ticket sales may adversely impact our business, financial condition, results of operations, cash flows and prospects.***

We derive a significant portion of our revenues from our cruise ticket sales. Cruise ticket revenue primarily includes income from accommodations, meals at select onboard restaurants, and certain onboard entertainment. It also encompasses revenue from service charges, provided these services are purchased by guests through us. While these offerings represent our core revenue streams, we also provide ancillary services such as shore excursions, which are charged separately as revenue from commission income. A decline in our cruise ticket sales or any downward correction in ticket prices on account of economic downturns, competition, changing consumer preferences, health and safety concerns, pandemics and geopolitical uncertainties could individually or collectively adversely impact our business, results of financial condition, results of operations, cash flows, and prospects. Further, if we are unable to increase our cruise ticket sales or fail in competitively pricing our tickets, we may be unable to grow our sales and profitability. The table below sets forth the breakdown of our revenue from operations for the periods indicated:

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)
Cruise ticket sales*	5,288.56	91.22%	5,287.93	89.53%	3,883.29	87.45%
Onboard revenue**	505.76	8.72%	533.73	9.04 %	510.43	11.49%
Income from lease of vessel	-	-	75.06	1.27%	19.50	0.44%

Commission income***	3.13	0.05%	9.33	0.16%	27.38	0.62%
Total	**5,797.45**	**100.00%**	**5,906.05**	**100.00%**	**4,440.60**	**100.00%**

Notes:
**Cruise ticket sales include the cabin price, complimentary meals and beverages at the food court and 'Starlight' restaurant, access to the swimming pool and fitness center, access to all public areas and lounges, live band performances, and entertainment shows.*
***Onboard revenue include revenue from services such as dining at specialty restaurants, 'Chopstix' and 'International Grill', paid entertainment shows, shore excursions, Wi-Fi packages, spa and salon services, bridge tours, rock climbing wall adventures, and video gaming arcade activities for children.*
****Commission income is the income earned on shore excursion services provided in Sri Lanka where we acted as collecting agent on behalf of operators.*

Economic downturns could reduce disposable income, leading to decreased spending on luxury travel. During periods of economic uncertainty, customers may prioritize essential expenditures over discretionary spending, resulting in lower demand for cruise vacations which could have an impact on our ticket sales and overall revenue. Moreover, changes in customer preferences can significantly affect demand for cruises. If our cruise offerings do not align with these evolving preferences, we may face challenges in attracting and retaining customers. Further, increased competition from other travel and leisure options can also impact our ticket sales. The rise of alternative vacation choices, such as all-inclusive resorts, adventure tourism, and budget airlines, provides consumers with a wide range of options. If these alternatives are perceived as more attractive or cost-effective, it could lead to a decline in our cruise ticket sales. Further, political unrest, conflicts, or changes in government policies and visa restrictions could lead to travel advisories or restrictions, discouraging tourists from visiting affected areas. This could result in itinerary changes, cancellations, and a decline in cruise bookings. While we have not experienced the aforesaid instances in the past three Fiscals, we cannot assure you that these factors, individually or collectively, will not occur in the future and adversely affect our cruise ticket sales, results of operations, financial condition, and cash flow.

3. ***Our Company operates as the vessel operating entity, while the vessel owning entity is Bay Cruise Investment Inc. Any legal, financial, or regulatory issues faced by Bay Cruise Investment Inc. could indirectly impact our business and results of operations.***

Our Company operates as the vessel operating entity, while the vessel owning entity is Bay Cruise Investment Inc. ("**Bay Cruise**"), our wholly-owned Subsidiary which is incorporated in the British Virgin Islands ("**BVI**"). The "MV Empress", was acquired by Bay Cruise in the terms of the Memorandum of Agreement for Ship Sale and Purchase dated December 12, 2023. Our Company has entered into a Time Charter Party Agreement dated February 12, 2025, the addendum dated March 19, 2025, addendum dated September 22, 2025, and the addendum dated December 15, 2025 to the Time Charter Party Agreement with Bay Cruise for operation of the vessel. For further details, see section titled "***History and Certain Corporate Matters***" on page 213. This structure may expose us to risks associated with the separation of ownership and operation. For example, any legal, financial, or regulatory issues faced by Bay Cruise could indirectly impact our business and results of operations. Additionally, any changes in the regulatory environment or tax policies affecting BVI entities could have adverse effects on our financial condition and operational stability.

4. ***Our growth strategy relies on the acquisition of new vessels to expand our operations. Our inability to expand our operations by acquiring new vessels could significantly impact our business, financial condition, and results of operations.***

On April 11 2025, we have entered into two time charter agreements to lease two new cruise vessels, i.e. 'Norwegian Sky' and 'Norwegian Sun', from Baycruise Shipping and Leasing (IFSC) Private Limited ("**Baycruise IFSC**"), each with a passenger capacity of up to 2,004 and 1,936 guests respectively, which we intend to introduce and commercialize by Fiscal 2027 and Fiscal 2028, respectively to meet the growing demand. the termination of agreements which could have an adverse impact on our business, results of operations, financial condition and cash flows" beginning on page 102 and 38 respectively.

Our ability to successfully execute this expansion depends on several factors, including our ability to pay lease rentals in a timely manner towards charter hire charges, accurately anticipate and respond to evolving customer preferences, maintain our established service standards across a larger number of vessels, and ensure a consistent cruise quality experience.

The overnight ocean and coastal cruise industry in India is a growing market, with an increasing number of travellers seeking unique and luxurious experiences. (*Source: CRISIL Report*) If we fail to anticipate these changes and invest in vessels or itineraries that are not aligned with market demand, we may experience lower occupancy rates and reduced profitability. Moreover, as we introduce new vessels, maintaining our established standards of service and onboard experience across a larger and more diverse range of vessels will be crucial. Any actual or perceived decline in service quality or inconsistency in the onboard experience could damage our brand reputation and negatively impact customer loyalty. Furthermore, ensuring consistent cruise quality experience across several vessels presents a significant challenge. We are dependent on third party agencies for outsourcing our hospitality and management services. There can be no assurance that such agencies shall be able to identify and retain the relevant talent and quality workforce to ensure adherence to international standards of service. Further, new vessels must meet our stringent quality standards and seamlessly integrate with our existing operations. For further information, see "*Our Business – Strategies*" on page 193. Any delays in the delivery or quality issues with new vessels could disrupt our cruise schedules, lead to increased maintenance costs, and potentially impact passenger satisfaction.

Further, we cannot assure you that our future growth strategy will be successful or that we will be able to continue to expand further, or at the same rate or within the estimated timelines or budget. Our ability to manage our future growth will depend on our ability to continue to implement and improve operational, financial and management systems on a timely basis and to expand, train, motivate and manage our personnel. Moreover, we cannot assure you that our personnel, systems, procedures and controls will be adequate to support our future growth. Failure to effectively manage our expansion may lead to increased costs and reduced profitability and may adversely affect our growth prospects.

(ii) (a) The Company are having consumable inventory of food, fuel and others which are managed by hospitality management service provider as per the agreement. Fiscal 2023	Report on other legal and regulatory requirements 1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure A, statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.	(iii) (b) The loans granted and the terms and conditions of the grant of loans during the year are, prima facie, prejudicial to the interest of the Company. (xvii) The Company has incurred cash losses of Rs.46.18 lakhs during the financial year covered by our audit and in the immediately preceding financial year of Rs. 3,619.14 lakhs.	(iii) (b) The loan granted is towards general corporate purposes and in accordance with the terms and conditions agreed between parties. There was a typo error in the audit report. (xvii) The Company was incorporated on 02nd Nov 2020. However, our maiden sailing commenced from 16th Sept21. Due to Covid restrictions imposed our effective operating period was approx 4 months. Hence, cash losses.	In respect of (iii) (b) no impact and for (xvii) is only a statement of fact computed based on the financial statements.

While the current emphasis of matter does not have any impact on our business, financial condition and results of operations, there can be no assurance that other emphasis of matters in future will not impact our financial condition and results of operations. Further, there can be no assurance that any similar emphasis of matters will not form part of our financial statements for the future fiscal periods, which could subject us to additional liabilities due to which our reputation and financial condition may be adversely affected.

6. ***An increase in cruise capacity without a corresponding increase in demand and infrastructure could adversely affect our business, results of operations, financial condition and cash flows.***

We are currently operating a single cruise vessel, the "MV Empress", with a passenger capacity of 2,005 guests and we have acquired two new cruise vessels on lease, namely 'Norwegian Sky' and 'Norwegian Sun', each with a capacity of up to 2,004 and 1,936 guests respectively, and intend to introduce cruises aboard the 'Norwegian Sky' by Fiscal 2027 and 'Norwegian Sun' by Fiscal 2028 to meet the growing demand. These increases in capacity may cause us to experience reduced occupancy and engage in discounted pricing, which could adversely affect our business, results of operations, financial condition and cash flows. We can give no assurance that future guest demand will be as expected and various factors, including factors outside of our control, could negatively affect demand for our cruises.

We cannot assure you that there will be sufficient infrastructure to support an increase in cruise capacity. As the size of the cruise industry increases, the availability of docking space and ports of call on routes on which we operate could become scarce. If we are unable to secure sufficient docking space or ports of call that are convenient to the cultural attractions and excursions we offer, our guests' experiences and our operations could be adversely affected. Similarly, an increasing supply of cruises could adversely affect our ability to attract and train qualified cruise personnel. Additionally, increased cruise capacity may lead to higher shipboard employee costs to maintain a high standard of service and ensure the safety and satisfaction of our guests. In order to be competitive, we may not be able to offset any such cost escalations to our customers by increasing our ticket prices, in a timely manner or at all. Any of these factors could lead to a limitation of our future growth and adversely affect our ability to grow our business, results of operations, financial condition and cash flows.

7. ***Our cruise operations depend on limited third-party service providers for critical services and amenities, including technical and crew management, hospitality management, general purchasing and logistics management and entertainment. Any disruption in the services offered by these third-party service providers may adversely impact our business, results of operations, financial condition and cash flows.***

The maintenance, operations and management services on our cruise vessel are outsourced to third-party service providers with which we have established operational agreements. For example, technical and crew management services are provided by Campbell Cruise & Yacht Management Limited which is responsible for overseeing maintenance, dry dockings, repairs, and routine inspections of our vessel, as well as managing crew selection, payroll, medical fitness, and training; hospitality management services are managed by SA Cruise Services Limited, which covers administrative operations, cabin services, bar management and housekeeping, food operations including serving of meals, snacks and food services for passengers as per passenger menus, custom clearances; general purchasing and logistics are handled by Apollo Export Warehouse LLC, which manages the purchasing of goods and services, logistics, customs clearance, warehousing, inventory management, insurance, and risk management, and entertainment services are provided by Wizcraft Entertainment Agency Private Limited, offering onboard entertainment, live shows, and event management. For further details, see "*Our Business –Maintenance, Operations and Management*" on page 199.

The table sets forth below the expenses incurred towards certain major third-party service providers for the period/ years indicated:

Third Party Service Provider	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount (₹ in million)	Percentage of total expenses	Amount (₹ in million)	Percentage of total expenses	Amount (₹ in million)	Percentage of total expenses
SA Cruise Services Limited	499.30	9.81%	456.17	9.43%	448.83	8.01%
*Apollo Export Warehouse LLC (₹ in million)**	499.48	9.82%	460.56	9.52%	432.37	7.72%
Wizcraft Entertainment Agency Private Limited (₹ in million)	210.24	4.13%	192.48	3.98%	264.56	4.72%
Total	**1,209.03**	**23.76%**	**1,109.21**	**23.93%**	**1,145.76**	**20.45%**

**Also includes the amount paid to Asturias Ship Chandlers Private Limited which is an Indian arm of Apollo Export Warehouse LLC.*

Note: Since February 12, 2025, the responsibility for managing the technical operations of the cruise vessel has been handled by a Subsidiary of our Company. Prior to this date, our Corporate Promoter, Global Shipping and Leisure Limited, was responsible for these operations, which included payments to technical managers, insurance, and maintenance costs. To manage these functions, the Corporate Promoter had appointed a third-party service provider, Campbell Cruise & Yacht Management Limited. The related charges were included in the lease rentals or time charter fees billed to our Company by the Corporate Promoter.

In addition to critical services, the majority of amenities on our cruise vessel, such as the gaming arcade, spa, and casino, are provided by third-party vendors. Additionally, we also outsource services such as shore-excursions in India and internationally through third-party vendors and service providers. Any breach of the terms of agreement by these vendors may have adverse impact and could significantly disrupt ship operations. This reliance on external providers introduces potential risks, as any failure on their part to meet contractual obligations can lead to service interruptions, negatively impacting the overall guest experience and operational efficiency of our cruise vessel.

While we monitor the performance of third-party service providers, the efficiency, timeliness and quality of contract performance by third-party service providers are often beyond our control, and any failure by our service providers to perform their contracts may have an adverse impact on our business and operations. For example, under our agreement with Campbell Cruise & Yacht Management Limited, they are responsible for ensuring that our vessel complies with the laws of the flag state and international conventions. Any such failure of our third party service providers to ensure compliance with the requirements of the law may be detrimental to us.

Any disruptions or inefficiencies in the services offered by our third-party service providers could negatively impact our business, results of operations, financial condition and cash flows. For example, a decline in the quality of hospitality services could lead to customer dissatisfaction as well as damage our brand reputation and disruptions to entertainment services could diminish the overall passenger experience.

While we have not had instances where we experienced disruptions to the services provided by our third-parties in the past three Fiscals which had an impact on our business, results of operations, financial condition and cash flows, there can be no assurance that such disruptions would not occur in the future and lead to an adverse impact to our business and results of operations.

Further, if any third-party that is currently providing services to us is unable to provide its services to us for any reason during the course of our contract with it, our business and results of operations may be adversely affected. Further, in the event our agreements with the third-party service providers are terminated, we may not have access to their services and if we are unable to execute agreements with third-party service providers of similar or higher positioning than the existing third-party service providers in a timely manner or at all, our business, results of operations, financial condition and cash flows may be adversely affected.

8. We have a limited operating history and our historical performance may not be indicative of our future growth or financial results.

Our Company was incorporated on November 2, 2020 and our cruise vessel commenced sailing only from September 16, 2021, and we, therefore, have limited operating history. Our limited operating history at this scale may make it difficult to evaluate our prospects as well as the risks and uncertainties associated with our business. The table below sets forth details of our revenue from operations, EBITDA and EBITDA margin in the period/ years indicated:

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025	For the year ended March 31, 2024
Revenue from operations[(1)] (₹ million)	5,797.45	5,906.05	4,440.60
EBITDA (₹ million) [(2)]	1,174.80	2,154.59	1,111.45
EBITDA Margin[(3)] (times)	0.20	0.36	0.25
Profit/(loss) for the period/year (₹ million)[(4)]	521.43	1,681.85	(1,227.33)
PAT Margin[(4)] (times)	0.09	0.28	(0.27)

Notes:

(1) Revenue from operations as per Restated Consolidated Financial Information

(2) EBITDA is calculated as profit/(loss) before exceptional items and tax plus depreciation and amortisation and finance cost.

(3) EBITDA margin is calculated as EBITDA divided by revenue from operations.

(4) Profit/(loss) for the period/year as per Restated Consolidated Financial Information

(5) PAT Margin is calculated as Profit/(loss) for the period/year divided by total income as per Restated Consolidated Financial Information

We may experience a decline in our revenue growth rate, EBITDA margin or profitability as a result of a number of factors, including slowing demand for our offerings, increasing competition, a decrease in the growth of our overall market, our failure to continue to capitalize on growth opportunities, change in our strategy among others, all of which would have an adverse impact on our business, results of operations, financial condition and cash flows. Moreover, as a result of our relatively shorter operating history, the limited historical data that is available may not be indicative of our financial position or results of operations for any future periods. Further, while are one of the domestic ocean cruise operators in India *(Source: CRISIL Report)*, any increase in the competitive landscape may adversely impact us and our business operations. Further, we offer certain international destinations which exposes us to various risks, including political instability in certain regions, fluctuations in international relations, potential increases in duties and taxes, and changes in laws and policies affecting the cruise industry, which could have an adverse impact on our operations and profitability.

9. Our inability to ensure high cruise occupancy rates could result in significant financial losses and adversely impact our business, results of operations, financial condition and cash flows.

Our ability to ensure high occupancy rates on our cruises is critical to our financial performance. There is a risk that we may not effectively increase our ticket sales, leading to cruises that are not fully or highly occupied which would result in significant financial losses. Low occupancy rates can adversely impact our revenue and profitability, as the fixed costs associated with operating a cruise remain constant regardless of the number of passengers. Additionally, underoccupied cruises may lead to a diminished onboard experience for our guests, potentially affecting customer satisfaction. Several factors can contribute to low occupancy rates, including seasonal demand fluctuations, less-popular destinations, inadequate cruise amenities, ineffective marketing strategies, competition from other travel options, economic downturns, geopolitical events such as terrorism, civil

unrest and insurrection, or health concerns such as pandemics or disease outbreaks. Further, if there is an industry-wide increase in capacity without a corresponding increase in public demand, we, as well as the cruise industry, could experience reduced occupancy/load factor rates or be forced to discount our prices. The table below sets forth details of load factors for the period/ years indicated:

Particulars	As of/ for year ended March 31, 2026	As of/ for the year ended March 31, 2025	As of/ for the year ended March 31, 2024
Passenger Load factor* (%)	84.99%	91.63%	78.54%

**Passenger load factor refers to the actual number of passengers carried to the total passenger capacity of the cruise vessel over a year.*

We cannot assure you that we will be able to maintain our historical occupancy rates or increase our occupancy rates. Failure to increase our occupancy rates could result in reduced revenue and financial losses, ultimately impacting our overall business performance.

10. We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.

We have entered into transactions with related parties in the past. These transactions principally include employee benefits expense, reimbursement of expenses and time charter charges. While all such transactions have been conducted on an arm's length basis, in accordance with the Companies Act and other applicable regulations pertaining to the evaluation and approval of such transactions, we cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties. All related party transactions that we may enter into post-listing, will be subject to Board or Shareholder approval, as applicable, and in compliance with the applicable accounting standards, provisions of Companies Act, 2013, as amended, provisions of the SEBI Listing Regulations and other applicable law, in the interest of the Company and its minority Shareholders. Further, it is likely that we may enter into additional related party transactions in the future and such future related party transactions may potentially involve conflicts of interest. The table below sets forth details of absolute sum of all related party transactions and the percentage of such related party transactions to our revenue from operations in the periods indicated:

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Aggregate sum of related party transactions (₹ million)	137.26	847.97	875.69
Revenue from operations (₹ million)	5,797.45	5,906.05	4,440.60
Aggregate amount of related party transactions as a percentage of revenue from operations (%)	2.37%	14.36 %	19.72%

For further information on our related party transactions, see "*Summary of Related Party Transactions*" and "*Restated Consolidated Financial Information – Note 36 – Related party disclosures*" on pages 72 and 290, respectively.

11. Our business and results of operations are significantly dependent on our "Cordelia" brand and any dilution or damage to our brand in any manner may adversely affect our business reputation, results of operations, financial condition and cash flows.

Our ability to maintain and enhance our 'Cordelia' brand, our registered trademark, is critical to our business. For further information on our registered trademarks, see "*Government and Other Approvals*" on page 336. Our brand's success depends on our ability to consistently deliver cruise experiences that meet customer expectations. Any decline in service quality, negative customer reviews, or incidents affecting passenger safety could damage our brand reputation and erode customer trust. Several factors, some of which may be beyond our control, that are essential for maintaining and enhancing our brand, include our ability to effectively address any customer grievances, increase brand awareness among existing and potential customers, and adapt to market trends and customer preferences. Any inability to continue using our trademark will harm our brand image, as it is a key component of our identity and marketing efforts. Losing the rights to our trademark could lead to confusion among customers, weaken our market position, and negatively impact our competitive advantage. See also *"33 - Any failure to protect our intellectual property rights could adversely affect our competitive position, business, financial condition and results of operations.*" on page 48.

We have invested in brand-building initiatives to enhance our brand awareness. This involves launching brand campaigns, such as our collaboration with a creative agency, which highlights the different experiences available on board. Our marketing strategy includes usage of digital and traditional tools including social media platforms, emailers, influencer collaborations, performance marketing, public relations, events, travel trade partnerships, and CRM tools to attract a diverse range of customers. Our brand-building efforts require substantial financial investment, and there is no guarantee that these investments will yield the desired results. The table below sets forth our sales and marketing expenses as a percentage of our revenue from operations for the periods indicated:

Particulars	As of/ for the year ended March 31, 2026	As of/ for the year ended March 31, 2025	As of/ for the year ended March 31, 2024
Sales and marketing expenses (₹ million)	198.81	214.35	185.00

Percentage of our revenue from operations (%)	3.43%	3.63 %	4.17%

Further, our brand-building strategy relies on our ability to adapt to changing market trends and consumer preferences. Failure to accurately anticipate or respond to these changes could result in our brand becoming less relevant or appealing to our target audience, limiting the effectiveness of our brand-building efforts and impact our ability to attract and retain customers. Additionally, any misalignment between our brand messaging and customer perceptions could weaken our brand equity. If we are unable to maintain or enhance our brand image, our results of operations may suffer, and our business, results of operations, financial condition and cash flows could be affected.

Also, see "*19 - Our business is susceptible to negative publicity and reputational damage, which can impact consumer confidence and the demand for our cruises and adversely affect our results of operations and financial performance.*" on page 41.

12. We have acquired two new cruise vessels on lease and our inability to adhere to the terms of the lease agreements (including our inability to pay the lease rentals) could lead to the termination of agreements which could have an adverse impact on our business, results of operations, financial condition and cash flows.

We have acquired two new cruise vessels on lease, namely 'Norwegian Sky' and 'Norwegian Sun' (collectively hereinafter referred to as "**Vessels**") and intend to introduce the 'Norwegian Sky' by Fiscal 2027 and 'Norwegian Sun' by Fiscal 2028. The Vessels have been taken on lease by our Subsidiary, Bay Cruise Investments Inc. ("**BCII**") by way of two separate Bareboat Charter Agreements, each dated April 4, 2025 (collectively referred to as "**Bareboat Charter Agreements**") from Norwegian Sky Limited and Norwegian Sun Limited (collectively referred to as "**Vessel Owners**"), respectively. Pursuant to the Bareboat Charter Agreements, the charter hire amount for the Vessels is required to be paid by BCII, over a period of 10 years, as stipulated in the Bareboat Charter Agreement.

Our Subsidiaries, namely BCII and Baycruise IFSC, and the Vessel Owners have entered into two separate Novation Agreements, each dated April 11, 2025 ("**Novation Agreements**") by way of which BCII has transferred by novation the rights and obligations of the Vessels to our Subsidiary, Baycruise IFSC. Thereafter, pursuant to the Novation Agreements, our Company and our Subsidiary, Baycruise IFSC have entered into two separate Time Charter Agreements, each dated April 11, 2025 (collectively referred to as "**Time Charter Agreements**") for the purposes of chartering each of the Vessels and making advance lease rentals required to be paid for the Vessels as per the Time Charter Agreements, which in turn will have to be paid to the Vessel Owners, in accordance with the Bareboat Charter Agreements.

The lease rentals required to be paid for the Vessels as per the Time Charter Agreements are as follows:

Name of the Vessel	Date of delivery	Charter hire for the first two years*	Charter hire for the remaining years**
Norwegian Sky	September 30, 2026	USD 16,160,000 (approximately ₹ 1,539.08 million) per year from the date of delivery (24 monthly payments of USD 1,346,666.67 (approximately ₹ 128.27 million) each month)	USD 14,160,000 (approximately ₹ 1,348.89 million) per year 96 monthly payments of USD 1,180,000 (approximately ₹ 112.38 million) each)
Norwegian Sun	November 2027	USD 16,160,000 (approximately ₹ 1,539.08 million) per year from the date of delivery (24 monthly payments of USD 1,346,666.67 (approximately ₹ 128.27 million) each month)	USD 14,160,000 (approximately ₹ 1,348.89 million) per year (96 monthly payments of USD 1,180,000 (approximately ₹ 112.38 million) each)

** First monthly charter hire shall be paid in advance 30 days prior to the date of delivery. All subsequent charter hires to be paid in advance on 30th of each month for the following month.*

***The advanced lease rentals shall be adjusted from third year onwards till tenth year of the Charter (in ninety-six equal instalments) as per the Time Charter Agreements.*

Foreign exchange reference rate as on April 30, 2026 as available on www.fbil.org.in. is ₹ 95.24.

Our Company proposes to invest a portion of the Net Proceeds, in form of payment of monthly/ yearly lease rentals, in Baycruise IFSC, post the delivery date of the Vessels, in the following manner:

i. Norwegian Sky: Payment of two years lease rentals post the delivery date, for an amount aggregating to USD 32.32 million (approximately ₹ 3,077.10 million), to be paid monthly from August 2026 to July 2028; and

ii. Norwegian Sun: Payment of six months lease rent post the delivery date, amounting to USD 8.08 million (approximately ₹ 769.24 million*), to be paid monthly from October 2027 to March 2028.

**Foreign exchange reference rate as on April 30, 2026 as available on www.fbil.org.in. is ₹ 95.24.*

For further details, see "*Objects of the Issue - Payment towards deposit/ advanced lease rental and monthly lease payments to our step-down subsidiary, Baycruise Shipping and Leasing (IFSC) Private Limited ("Baycruise IFSC").*" on page 103.

Our failure to make lease payments in a timely manner could result in the termination of the lease agreements. If our lease agreements are terminated, we may lose access to the Vessels, which are critical to our operations. This would have a significant adverse impact on our business, results of operations, financial condition, and cash flows. Further, the loss of a vessel, whether due to an accident, natural disaster, or other unforeseen events, could lead to the termination of the lease agreement. In such cases, we may be required to indemnify the owners for the loss of the vessel. However, we may not have sufficient financial resources to fulfill this indemnification obligation. The inability to indemnify the owners could result in legal actions against us, further exacerbating our financial and operational challenges.

13. Adverse incidents involving the operation of our cruise vessel, including adverse weather conditions or other natural disasters, may require us to alter our itineraries or cancel existing cruises which could have an adverse impact on our business, results of operations, financial condition and cash flows.

The operation of cruise vessel carries an inherent risk of loss caused by adverse weather conditions, maritime disaster, including, but not limited to, oil spills and other environmental mishaps, fire, mechanical failure, collisions, human error, war, terrorism, piracy, political action, civil unrest and insurrection in various countries and other circumstances or events. Any such event may result in loss of life or property, loss of revenue or increased costs. The operation of cruise vessel also involves the risk of other incidents at sea or while in port, including missing guests, inappropriate crew or passenger behaviour and onboard crimes, that may bring into question passenger safety, may adversely affect future industry performance and may lead to litigation against us. While we have not experienced such adverse incidents involving our cruise vessel in the past three Fiscals which had an adverse impact on our business, results of operations, financial condition and cash flows, and there can be no assurance that similar events will not occur in the future. It is possible that we could be forced to cancel a cruise or a series of cruises due to these factors or incur increased port related and other costs resulting from such adverse events. Any such event involving our cruise vessels may adversely affect guests' perceptions of safety or result in increased governmental or other regulatory oversight. For information on our insurance coverage, see "*Our Business – Insurance*" on page 203.

In particular, our cruise operations are susceptible to disruptions caused by adverse weather events, such as cyclones, storms, heavy rainfall, and fog. These events can create unsafe sailing conditions, impact port accessibility, and necessitate changes to our planned itineraries. In addition to weather-related disruptions, natural disasters such as earthquakes, tsunamis, or floods can also impact our operations. These events can damage port infrastructure, disrupt transportation networks, and create safety concerns for passengers and crew. In such situations, we may be required to cancel cruises or make significant itinerary changes to ensure the safety and well-being of our guests.

Any alterations or cancellations to our planned itineraries can result in passenger dissatisfaction and lost revenue. While we have had instances in the past where we made refunds due to cancellation of our itineraries particularly on account of Covid-19, however such instances did not have any material impact on our business, results of operations, financial condition and cash flows. Furthermore, repeated disruptions due to adverse weather or natural disasters can damage our brand reputation and discourage future bookings. For instance, we faced an incident during a sailing to Lakshadweep where passengers were not permitted to disembark at the destination due to adverse weather conditions. Subsequently, a complaint was filed by one of the passengers before the District Consumer's Disputes Redressal Commission, at Bangalore alleging, negligence and deficiency in service in failing to return the amount incurred by the passenger. Our Company has received a summons notice by Bangalore Urban 4th Additional District Consumer Disputes Redressal Commission at Bangalore, dated September 15, 2025 and appear to give version on October 14, 2025. The date of hearing for orders on the application is May 21, 2026.The matter is currently pending. We cannot assure you that such events will not occur in the future.

Reports, whether true or not, of cruise accidents and other incidents at sea, even if such accidents are not directly related to our operations, can result in negative publicity or the perception that cruising is more dangerous than other vacation alternatives. The considerable expansion in the use of social media over recent years has compounded the potential scope of the negative publicity that could be generated by those incidents. Anything that damages our reputation, whether or not justified, including adverse publicity about the safety and guest satisfaction of cruising, even if such publicity is not directly related to our operations, could have an adverse impact on demand, which could lead to price discounting and a reduction in our sales and could adversely affect our business, financial condition and results of operations.

14. We have incurred losses in the past and we may continue to incur losses in the future. We reported a profit of ₹ 1,681.85 million for Fiscal 2025 which is significantly higher than the profits reported during the preceding three Fiscals, primarily due to the recognition of exceptional items during the period. As such exceptional items are non-recurring in nature and do not arise from our core operating activities, such financial performance may not be indicative of our historical operating performance or future results of operations.

We have, in the past, incurred losses in our operations and we may continue to incur losses in the future. The table below sets forth profit/ loss for the years indicated below:

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025	For the year ended March 31, 2024
Profit/(loss) for the period/year (₹ million)	521.43	1,681.85	(1,227.33)

The loss in Fiscal 2024 was primarily due to depreciation charged on right of use assets created following the first time adoption of Ind AS, as well as the impairment of a trademark which was recorded under exceptional items. For more details, see "*Management's Discussion and Analysis of Financial Condition and Results of Operations – Results of Operations – Fiscal 2026 compared to Fiscal 2025 and Fiscal 2025 compared to Fiscal 2024*" on pages 319 and 321, respectively.

Further, our profit for the year has decreased from ₹ 1,681.85 million in Fiscal 2025 to ₹ 521.43 million in Fiscal 2026. This was primarily due to a decline in revenue from ₹ 5,906.05 million in Fiscal 2025 to ₹ 5,797.45 million in Fiscal 2026 along with an increase in total expenses from ₹ 4,836.97 million in Fiscal 2025 to ₹ 5,087.43 million in Fiscal 2026. The increase in expenses was mainly driven by an increase in legal and professional fees from ₹ 87.19 million in Fiscal 2025 to ₹ 212.90 million in Fiscal 2026 and IT cost from ₹ 48.13 million in Fiscal 2025 to ₹ 133.66 million in Fiscal 2026. If we are unable to increase our revenue and reduce our expenses, we may continue to incur significant losses in the future. These continued losses could have an adverse effect on our business, the price of our Equity Shares in the future and the overall market perception of our Company.

Further, our profit for the year in Fiscal 2025 was significantly higher due to exceptional items (gain) of ₹ 755.89 million primarily arising from the derecognition of the lease impact on ROU and lease liabilities and derecognition of the lease impact on security deposit. For further details on these exceptional items, see "*Restated Consolidated Financial Information – Note 45 – Exceptional Items*" on page 300. Accordingly, our results for Fiscal 2025 may not be representative of, or comparable to, our historical financial performance for earlier periods, nor should they be relied upon as an indicator of our future operating results. There can be no assurance that we will continue to benefit from similar exceptional items in future periods, and in the absence of such exceptional gains, our profitability may be lower, which could materially and adversely affect our results of operations, cash flows, and financial condition.

15. Any significant malfunction or breakdown of our cruise vessel may cause interruptions to our cruise operations and may involve high repair and maintenance costs, both of which could have an adverse impact on our business, financial condition, results of operations and cash flows.

As of March 31, 2026, we operate a single cruise vessel. Our cruise vessel relies on a multitude of systems and equipment to operate safely and efficiently, including the Electronic Chart Display and Information System for navigation, the Global Maritime Distress and Safety System (GMDSS) for distress alerting and communication, the Voyage Data Recorder (VDR) for recording voyage data, and Radar for detecting and locating objects. Additionally, our vessel is equipped with four main engines connected to two gearboxes through clutches, four auxiliary engines with alternators for electricity production, two steam boilers, two steering gears, two bow thrusters and one stern thruster for maneuvering, and two reverse osmosis units for fresh water production. Malfunctions or breakdowns can occur due to a variety of reasons, including mechanical failures, human error, or unforeseen events such as adverse weather conditions. Any significant malfunction of equipment on our cruise vessel could slowdown or cause interruption in the operations of our cruise vessel which could adversely impact our business, results of operations, financial condition, and cash flows. We have faced an incident during our sailing to Lakshadweep in April 2025 where the air conditioning system in a few cabins on the vessel malfunctioned which was addressed by issuing refunds to the affected guests. Such technical issues can disrupt guests. We cannot assure you that such instances will not arise in the future. Additionally, planned shutdowns of our cruise vessel for maintenance, statutory inspections, and testing, or for capacity expansion and equipment upgrades, may be required. These shutdowns could also disrupt our operations and negatively affect our financial performance. Further, any future significant malfunction or breakdown of our cruise vessel may involve high repair and maintenance costs. High repair and maintenance costs may lead to increased operational expenses, which could adversely impact our business, results of operations, financial condition and cash flows.

16. Our operating costs may increase as our cruise vessel ages and we may have to make unexpected capital expenditures in order to maintain our fleet or comply with evolving regulatory requirements.

Our cruise vessel, the "MV Empress", has completed 35 years since its build. Additionally, in April 2025, we have entered into two time charter agreements to acquire two new cruise vessels on lease, "Norwegian Sky" (built in 1999) and "Norwegian Sun" (built in 2001) In general, expenditures necessary for maintaining a vessel in good operating condition increase with the age of the vessel, but are difficult to predict with precision. Older vessels are typically costlier to maintain than more recently constructed vessels and could be subject to lower utilisation rates due to their higher maintenance requirements. The table below sets forth our repairs and maintenance expenses in the years indicated:

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Repairs and maintenance expenses (₹ million)	151.49	136.86	111.39
Percentage of revenue from operations (%)	2.61%	2.32%	2.51%

Further, governmental regulations or safety or other equipment standards related to the age of vessels may require expenditures for alterations, or the addition of new equipment, to our cruise vessels and may restrict the type of activities in which the vessels may engage. Additionally, unanticipated changes in governmental regulations may require scrapping of vessels that are above a certain age. As a consequence, we may need to take our cruise vessels out of service for longer periods of time or more often than planned in order to perform necessary repairs or modify the vessels in order to meet such regulations or scrap them altogether. While we have not had any instances where our vessel was out of service for an extended period due to repairs or

maintenance in the last three Fiscals, we cannot assure you that such instances will not arise in the nature. Moreover, we cannot guarantee that as our cruise vessels age, market conditions will support the necessary expenditures or allow us to operate our cruise vessels profitably for the remainder of their useful lives.

There can be no assurance that our cruise vessels will not require a one-off or repeated extensive repair work which would result in significant expense and extended periods of time during which these vessels would be out of service. Such an occurrence could have a material adverse effect on our business, results of operations or financial condition.

17. Our cruises rely on access to ports of call in India. The availability and suitability of these ports can be affected by a variety of factors, which may negatively impact our operations and guest experience. A significant majority of our passenger bookings and port calls originate from or depend on Mumbai, Maharashtra. Any prolonged disruption that specifically affects Mumbai would disproportionately reduce our occupancy rates which in turn would impact our business, results of operations, financial condition and cash flows.

Our cruise operations depend significantly on the availability of ports of call as part of our itineraries. Any unavailability of these ports can adversely affect our business, financial condition, and results of operations. Ports of call may become unavailable due to various reasons, including adverse weather conditions, natural disasters, geopolitical events, civil unrest, or local regulations or our inability to obtain specific government clearances and permits required for port usage.

In particular, a significant majority of our passenger bookings and port calls originate from or depend on Mumbai, Maharashtra. Any prolonged disruption that specifically affects Mumbai such as regional political unrest, localised public-health emergencies, cyclones, red-alerts on beaches, changes in state-level taxation or port policies, or negative publicity relating to safety on the western coastline would disproportionately reduce our occupancy rates which in turn would impact our business, results of operations, financial condition and cash flows. A sustained fall in demand in Mumbai alone could therefore have a material adverse effect on our business, financial condition and results of operations. The table below sets forth details of the number of passengers onboarded at Mumbai for the years indicated:

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Number of passengers onboarded at Mumbai	1,18,269	1,22,790	96,417
Total passengers onboarded	1,76,815	1,72,730	1,45,023
Percentage of total passengers onboarded	67%	71%	66%

Additionally, infrastructure issues at ports, such as construction accidents or damage to docking facilities, can prevent our ships from accessing these destinations. The unavailability of ports of call can lead to itinerary changes, which may result in customer dissatisfaction, increased cancellations, and reduced bookings. Such disruptions can also lead to additional operational costs as we may need to arrange alternative destinations. Furthermore, the inability to visit certain ports can impact our revenue from shore excursions and other onshore activities, further affecting our financial performance. Passengers rely on commercial airlines and railway services to reach ports of call. Any increase in prices or reduction in the availability of these transportation options could make it more difficult for passengers to access these ports. Accordingly, any prolonged or frequent unavailability of these ports could have a significant negative impact on our business and financial stability. While we have not experienced any instances where the relevant ports of call for our itineraries were denied or unavailable subsequent to the sale of tickets to customers due to factors such as adverse weather conditions, natural disasters, geopolitical events, civil unrest, local regulations, or our inability to obtain specific government clearances and permits required for port usage in the past three Fiscals which had an adverse impact on our business, results of operations, financial condition or cash flows, we cannot assure you that such instances will not occur in the future.

18. We have experienced negative cash flows from operating activities in Fiscal 2026. We may continue to have negative cash flows in the future.

We have had negative cash flows from operating activities in Fiscal 2026. The negative cash flows in Fiscal 2026 was primarily due to payment of advance release rental for one of the new cruise vessel, namely 'Norwegian Sky' amounting to USD 10 million (*equivalent to ₹ 863.79 million*). The table below sets forth net cash flow from operating activities for the years indicated:

Particulars	Fiscal		
	2026	2025	2024
	(in ₹ million)		
Net cash flow from operating activities	(964.35)	1,296.69	2,300.67

We cannot assure you that we will be able to generate positive cash flow from operating activities in the future. Any negative cash flows in the future could adversely affect our results of operations and financial condition. For further details, see "*Management's Discussion and Analysis of Financial Condition and Results of Operations – Cash Flows*" on page 322.

19. Our business is susceptible to negative publicity and reputational damage, which can impact consumer confidence and the demand for our cruises and adversely affect our results of operations and financial performance.

The cruise industry is sensitive to public perception, and even isolated incidents, including false and unsubstantiated reports, can quickly spread through social media and news outlets, potentially leading to reputational damage. Future incidents, whether related to safety concerns, service quality issues, or other unforeseen events, could result in negative publicity, impacting booking rates and passenger confidence. Additionally, increased regulatory scrutiny following any adverse event could lead to stricter operational requirements and higher compliance costs. The potential for reputational damage and increased regulatory burdens highlights the risks associated with our business which may not be quantifiable and could negatively affect our financial performance. We may be forced to cancel a cruise or a series of cruises due to factors such as severe weather, mechanical failures, unforeseen maintenance requirements, or regulatory issues, or incur increased port-related and other costs resulting from such events. Any such event involving our cruise ships or other passenger cruise ships may affect guests' perceptions of safety or result in increased regulatory oversight. An adverse judgment or settlement in respect of any ongoing claims against us may also lead to negative publicity. In the past, we have encountered instances of negative publicity. For example, on October 2, 2021, the Narcotics Control Bureau ("**NCB**") conducted a raid at the port terminal checkpoint and seized various illegal drugs and arrested several individuals, including a high-profile celebrity who were to board our cruise vessel en route to Goa from Mumbai. Neither our Company nor our directors were parties to the proceedings initiated in connection with this incident.

Anything that damages our reputation, including adverse publicity about passenger safety, could impact demand, leading to cancellations or price discounting and a reduction in our sales. While we have not experienced such instances of negative publicity in the past three Fiscals, except as stated above, we cannot assure you that such instances will not arise in the future and interrupt our cruises and our ability to meet our customers' expectations, adversely impacting our business operations and financial condition.

20. Our Registered and Corporate Office and all our branches are leased. If we fail to renew these leases on competitive terms or if we are unable to manage our rental costs, our business and results of operations would be materially and adversely affected.

We have six offices, including our Registered and Corporate Office, all of which are currently held under lease. Our Company has entered into a leave and license agreement dated August 22, 2024, for a total license fees of ₹ 6.75 million per month with M/s. Digital Subscriber Management and Consultancy Services Private Limited for our Registered and Corporate Office. Pursuant to the terms of the agreement, the monthly license fee stands revised to ₹ 7.44 million with effect from April 1, 2026. For details, see "*Our Business - Properties*" on page 207. If there is any deficiency in the title document of the owner from whom we leased or licensed any of these properties, or if we are unable to renew a lease or license agreement on commercially acceptable terms, we would be required to vacate the premises and find alternative premises. Such alternative premises may not be located as favourably as the current premises and may be at a higher rent and we would have to incur additional expenses toward civil works, the moving of furniture, fittings and fixtures, installing necessary security systems and other related expenses. This could have an adverse effect on our results of operations, cash flows and financial condition.

21. We require certain licenses, permits and approvals in the ordinary course of business, and the failure to obtain or retain them in a timely manner may materially adversely affect our operations.

We are required to obtain certain approvals, registrations, permissions and licenses under various regulations, guidelines, circulars and statutes regulated by authorities such as the Government of India and certain other regulatory and government authorities, for operating our business such as charter permission/license under section 406 of the Merchant Shipping Act, 2025,license issued by the Food Safety and Standards Authority of India. Further we are also required to maintain various shops and establishments registrations under the applicable provisions of the shops and establishments legislation of relevant states where we have our operations. For further information on the nature of approvals and licenses required for our business and for information on the material approvals applied for, see "*Government and Other Approvals*" on page 336. For detailed information in relation to the rules and regulations applicable to us, see "*Key Regulations and Policies*" on page 209. A majority of these approvals are granted for a limited duration and require renewal from time to time. These approvals, licenses, registrations and permissions may be subject to numerous conditions. In addition, we have and may need to in the future apply for certain additional approvals as required for our business. We cannot assure you that such approvals and licenses will be granted, remain valid or be renewed in a timely manner or at all by the relevant governmental or regulatory authorities. Our Company has applied for certificate of registration under the Contract Labour (Regulation and Abolition) Act, 1970 issued by Ministry of Labour & Employment but has not received the same. If we fail to obtain such approvals or licenses, or renewals thereof, in a timely manner or at all, or if we fail to comply with applicable conditions or it is claimed that we have breached any such conditions, our license or permission for carrying on a particular activity may be suspended or cancelled and we may not be able to carry on such activity, which could adversely affect our business, results of operations, cash flows and financial condition. For example, on October 7, 2021, we received a show-cause notice from the Director General of Shipping for operating without a license under the Merchant Shipping Act, 2025. On October 8, 2021, we were ordered to stop our operations. We had already applied for the license on September 27, 2021, submitted the required insurance certificates on September 30, 2021, and paid the license fees on October 1, 2021. We responded to the notice, explaining our belief that the license requirement did not apply to us. After reviewing our response, the Director General granted us the required license effective October 15, 2021. Except for the aforesaid, there have been no instance where we have failed to obtain regulatory approvals in the last three Fiscals which had an adverse impact on our operations, we cannot assure you that such instance will not arise in the future.

22. We depend on our senior management and employees, and if we are unable to recruit and retain such personnel, our business, results of operations, financial condition and cash flows may be adversely affected.

Our experienced senior management has significantly contributed to the growth of our business, and our future success is dependent on their continued services. For instance, Our Chairman of the Board, Executive Director and Chief Executive Officer, Jurgen Bailom. He is the founding member of the Indian Cruise Line Association. He has experience in cruise line and shipping, hospitality, resort and tourism industry and he was previously associated with Zen Cruises Private Limited, Vidanta Grupo, RCL Geo LLP, Celebrity Cruises, Tui Cruises, Skyseas and Pullmantur Cruceros, Maho Group, Royal Carribbean International and with Island Cruises PLC. He has been associated with the Company since 2020. In addition, our Senior Management and Key Managerial Personnel have significant experience in operations and has contributed to the growth of our business. For further details, see "*Our Management*" on page 222. For changes in our Senior Management or Key Managerial Personnel in the last three years, see "*Our Management - Changes in the Key Managerial Personnel and Senior Management during the last three years*" on page 237. While there has been no instance in the last three Fiscals where the resignation of any Senior Management or Key Managerial Personnel had an adverse impact on our business, results of operations, cash flows or financial conditions, we cannot assure you that such instances will not arise in the future.

Our success also depends on our ability to attract, hire, train and retain skilled personnel, including specialized roles specific to cruise ship operations such as marine engineers, navigational officers, hospitality staff, and maintenance technicians. Additionally, to remain competitive in attracting skilled personnel, we may need to increase employee compensation and benefits, which could further strain our financial resources. Our inability to recruit, train and retain suitably qualified and skilled personnel could adversely impact our business, results of operations, financial condition and cash flows. As at March 31, 2026, we were supported by 245 employees. The following table sets forth the details regarding rate of attrition of our employees in the periods indicated:

Particulars	As of/ for the year ended March 31, 2026	As of/ for the year ended March 31, 2025	As of/ for the year ended March 31, 2024
Number of employees	245	271	163
Number of employees resigned	111	109	53
Attrition rate (%)[(1)]	43.02%	40.22%	32.52%

(1) Attrition rate is calculated as the number of employees resigned divided by the number of employees in the relevant period/Fiscal.

Our employee attrition has increased over the years, primarily due to a post-pandemic hiring surge across the travel, tourism and hospitality sectors that has intensified competition for talent, and an increase in remuneration for customer-facing and sales roles. While we strive to counter this through exit interviews to understand the cause of exit reasons, stay interviews to understand and retain key talent, and a periodic happiness-index survey to capture feedback from employees, we cannot assure you that such measures shall be effective in part or at all. Further, while the increased attrition has not impaired our key business functions and cruise operations over the last three fiscal years, we cannot guarantee that sustained high turnover will remain without consequence.

23. Our Company, Subsidiaries, Promoters, Directors, Key Managerial Personnel and Senior Management are involved in certain legal and regulatory proceedings. Any adverse decision in such proceedings may have an adverse effect on our business, financial condition, cash flows and results of operations.

There are outstanding legal and regulatory proceedings involving our Company, our Subsidiaries, our Promoters, Directors, Key Managerial Personnel and Senior Management which are pending at different levels of adjudication before various courts, tribunals and other authorities. Such proceedings could divert the management's time and attention and consume financial resources in their defence or prosecution. The amounts claimed in these proceedings have been disclosed to the extent that such amounts are ascertainable and quantifiable and include amounts claimed jointly and severally, as applicable. Any unfavourable decision in connection with such proceedings, individually or in the aggregate, could adversely affect our reputation, continuity of our management, business, cash flows, financial condition and results of operations.

The summary of such outstanding legal and regulatory proceedings is set out below:

Name of Entity	Criminal Proceedings	Tax Proceedings (direct and indirect tax)	Statutory or Regulatory Proceedings	Disciplinary actions by SEBI or Stock Exchanges against our Promoters in the last five Fiscals	Material civil litigation	Aggregate amount involved (₹ in million)*

We cannot assure you that any of these matters will be settled in favour of our Company, our Subsidiaries, Promoters, or Directors, respectively, or that no additional liability will arise out of these proceedings. An adverse outcome in any of these proceedings may have an adverse effect on our business, financial position, prospects, cash flows, results of operations and our reputation. For further information, see "*Outstanding Litigation and Material Developments*" on page 331.

24. Disease outbreaks or pandemics have had, and in the future could have, a significant impact on the cruise industry generally and on our business and results of operations.

Disease outbreaks or pandemics have had, and could continue to have, a significant impact on the cruise industry, and consequently our business operations. In the event of such an outbreak, we may face several adverse effects, including:

- Negative publicity regarding cruising, stemming from initial responses and measures taken by us or other cruise lines, and public perceptions of cruising safety influenced by govern-mental guidance;
- Governmental restrictions or shutdowns, such as border closures or port congestion, which may vary due to the evolving nature of a pandemic;
- Reduced demand or increased guest cancellations, leading to lower booking rates, future revenues, and cash flow;
- Increased costs from measures taken to ensure the safety of our guests and crew, including investments in medical testing equipment, health screenings, enhanced cleaning protocols, and compliance with regulations on occupancy and social distancing; and
- Supply chain disruptions caused by movement restrictions, affecting our ability to provide essential items such as food, linens, and toiletries to our guests.

The extent of the impact of a disease outbreak or pandemic on our business, financial condition, and results of operations depends on various factors, including the duration, spread, and severity of the outbreak, any resurgence or new variants, the duration and geographic scope of travel advisories and restrictions, the overall demand for travel, the impact on unemployment rates and consumer discretionary spending, and our ability to reduce expenses and conserve cash as needed. All these factors are highly uncertain and could significantly affect our business, financial condition, and results of operations. For instance, our cruise vessel was non-operational in January 2021 and operated with a reduced capacity in February 2022, in accordance with the directives from the Director General of Shipping due to the COVID-19 pandemic. Other than COVID-19 pandemic which affected our operations, we have not experienced any significant disruptions on account of any disease outbreak or pandemic in the last three Fiscals which impacted our results of operations, financial condition and cash flows, we cannot assure you that such occurrences will not arise in the future.

25. Changes in fuel prices would affect the cost of our cruise operations, which could have an adverse impact on our business, results of operations, financial condition and cash flows. Further, we depend on a limited number of suppliers for our fuel requirements. Any interruption in the availability of fuel could adversely affect our business, results of operations, cash flows and financial condition.

Our cruise operations are influenced by the cost of fuel, which constitutes a significant component of our total expenses. The table below sets forth our fuel expense in the periods indicated:

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Fuel (₹ million)	838.98	933.32	924.93
Percentage of total expenses (%)	16.49%	19.30%	16.50%

The price of fuel is subject to fluctuations due to a variety of factors beyond our control, including global supply and demand dynamics, geopolitical events, and changes in regulatory policies. Global geopolitical developments and trade policies, including the imposition of tariffs by the United States on crude oil and refined petroleum products, could adversely affect global fuel prices. Further, any significant upward movement in global fuel prices due to US tariffs or retaliatory trade actions could have an adverse effect on our cost structure, business, financial condition, cash flows and results of operations. An increase in fuel prices leads to higher operating expenses, which may not be fully offset by adjustments in ticket prices, increased sales or other cost-saving measures. Furthermore, timely availability of fuel in required quantities at various ports can influence our itinerary planning and operational efficiency. This could adversely affect our business, results of operations, financial condition, and cash flows. Further, any interruption in the continuous supply of fuel may negatively impact our operations, which may result in delays or cancellations in a cruise, resulting in loss of revenue and damage to our reputation and business. While we have not experienced instances where increases in fuel prices materially impacted our operations in the last three Fiscals, we cannot assure you that such instances will not occur in the future.

Although there may be many suppliers that provide fuel we need for our operations, in order to maintain consistency in quality and quantity of supplies, we source fuel from a limited number of suppliers, primarily from major Indian state-owned oil refining and marketing companies. If we fail to (i) receive the quality of fuel that we require; (ii) negotiate appropriate financial terms; (iii) obtain adequate supply of fuel in a timely manner, or if our primary suppliers discontinue the supply of such fuel, or were to experience business disruptions or become insolvent, we cannot assure you that we will be able to find alternate sources for the procurement of fuel in a timely manner. Moreover, in the event that either our demand increases, or our suppliers experience a scarcity of resources, our suppliers may be unable to meet our demand for fuel. While we have not experienced any interruption in the supply of fuel in the last three Fiscals which had an adverse impact on our business, results of operations, financial conditions and cash flows, any interruptions in the supply of fuel may have an adverse effect on our business, results of operations, financial conditions and cash flows.

Further, recent geopolitical tensions in the Middle East have resulted in significant volatility in global oil markets, including substantial increases in crude oil prices driven by supply disruptions and restricted shipping activity in the region. Any significant upward movement in global fuel prices due to such geopolitical developments, tariff actions or retaliatory trade measures could have an adverse effect on our cost structure, business, financial condition, cash flows and results of operations.

26. A portion of our cabin bookings originate from travel agents (37.75%, 37.02% and 40.04% of our total cabins sold in Fiscal 2026, Fiscal 2025 and Fiscal 2024 was through travel agents). In the event such companies continue to gain market share compared to direct booking channels, we may be required to incur higher commission charges due to which our business and results of operations may be adversely affected.

A portion of bookings for our cabins originate from travel agents. The table below sets forth the number of cabins sold directly by us and through travel agents for the period/ years indicated:

Particulars	For the year ended March 31, 2026		For the year ended March 31, 2025		For the year ended March 31, 2024	
	Number of cabins sold	Percentage of total cabins	Number of cabins sold	Percentage of total cabins	Number of cabins sold	Percentage of total cabins
Cabins sold directly by us	47,895	62.25%	47,195	62.98%	36,769	59.96%
Cabins sold by third-party travel agents	29,041	37.75%	27,739	37.02%	24,556	40.04%
Total cabins sold	76,936	100.00%	74,934	100.00%	61,325	100.00%

These travel agents offer a wide breadth of services, often across multiple brands, have growing booking and review capabilities, and may create the perception that they offer the lowest prices when compared to our direct booking channels. In the event these companies continue to gain market share, they may impact our profitability, undermine direct booking channels and online web presence and may be able to increase commission rates and negotiate other favourable contract terms. Negative reviews and feedback on online travel portals may impact our cabin bookings from these channels, which in turn may adversely affect our business and results of operations.

27. Security threats, regional conflicts, and terrorist activities and piracy in or around India could disrupt our cruise operations and adversely affect the demand for cruises.

Our business is susceptible to security threats, regional conflicts, terrorist activities, and piracy in or around India, which could disrupt our cruise operations and reduce demand by impacting consumer confidence. Although our cruise operations are primarily concentrated on domestic Indian destinations, we remain susceptible to broader geopolitical risks that can influence the travel and tourism industry. Security threats, regional conflicts, terrorist activities, and piracy, whether occurring within India or its surrounding regions, can foster an environment of uncertainty and apprehension, significantly impacting consumer confidence and the demand for cruises.

Terrorist attacks or heightened security alerts in popular tourist destinations can lead to a sharp decline in travel demand, as potential passengers may perceive these areas as unsafe. Regional conflicts or political instability can also disrupt travel routes, restrict access to certain destinations, or lead to increased security measures that make travel less appealing. Piracy, particularly in the Indian Ocean, poses a significant threat to maritime security and can disrupt cruise operations by causing delays, rerouting, or cancellations. *(Source: CRISIL Report)* Even if our cruise itineraries are not directly affected by these events, the overall perception of risk associated with traveling within India can negatively impact our business.

Such events can lead to increased travel advisories or warnings from governments, discouraging citizens from visiting certain regions or countries. This can further dampen demand for our cruises and lead to cancellations or re-bookings. In addition to the direct impact on passenger bookings, security threats, regional conflicts, terrorist activities, and piracy can also result in increased insurance premiums, heightened security costs, and operational disruptions, adding to our overall expenses. The unpredictable nature of these events and their potential impact on consumer behavior makes it challenging to accurately forecast demand and manage our operations effectively. Any significant disruption to travel patterns or a prolonged period of instability in the region could materially and adversely affect our business, financial condition, and results of operations. While we have not had instances of security threats to our cruise operations in the past three Fiscals which had an impact on our business, results of operations, financial condition and cash flows, we cannot assure you that such events will not occur in the future.

28. We are subject to various laws and regulations, including environmental laws and regulations, which could adversely affect our operations and any changes in the current laws and regulations could adversely impact our business.

We are subject to various regulations and policies governing the cruise industry in India. These include regulations related to port operations, passenger safety, environmental compliance, and taxation. In addition, the cruise industry is subject to international treaties such as the International Convention for the Safety of Life at Sea ("**SOLAS**"), an international safety regulation, the International Convention for the Prevention of Pollution from Ships ("**MARPOL**"), an international environmental regulation, the Standard of Training Certification and Watchkeeping for Seafarers ("**STCW**"), a maritime safety and security regulation, and the United Nations Convention on the Law of the Sea ("**UNCLOS**"), an international treaty. For details on key regulations and policies applicable to our business, see "*Our Business – Key Conventions Applicable to our Cruise Vessel*" and "*Key Regulations and Policies*" on pages 201 and 209, respectively.

While we endeavour to remain informed and compliant with all applicable regulations, any substantial changes in government policies or regulations could adversely affect our business, results of operations, financial condition, and cash flows. For example, new environmental regulations might necessitate the adoption of cleaner, more expensive fuel options, further escalating our operational expenses. Similarly, changes in labour laws could impact crew hiring practices and costs. Moreover, evolving health and safety standards could require additional investments in onboard facilities and training programs. Despite the Government of India's plans and initiatives to support the cruise industry in India, the absence of a comprehensive regulatory framework and the lack of clarity regarding cruise operations may pose significant risks to our Company in the future. While we have not had such instances where regulatory changes have had a material impact on our results of operations in the past three Fiscals, we cannot assure you in the future that these regulatory changes, individually or collectively, will not impact to our operational efficiency and adversely impact our results of operations and financial condition.

29. Any strike, work stoppage or increased wage demand by our employees or any other kind of disputes with our employees could adversely affect our business, financial condition, results of operations and cash flows.

As of March 31, 2026, we had 245 permanent employees. Work stoppages due to strikes, shortage of workforce or disruptions caused by disagreements with workforce could have an adverse effect on our business, results of operations, financial condition and cash flows. While we have not experienced any discord with our employees in the last three Fiscals, we cannot assure you that we will not experience such disruptions in our operations due to disputes, strikes, work stoppages or other problems, which may adversely affect our ability to continue our business operations. Any labour unrest could directly or indirectly prevent or hinder our normal operating activities, and, if not resolved in a timely manner, could lead to disruptions in our operations.

We are subject to stringent labour laws, and any violation of these laws may lead regulators or other authorities to order a suspension of certain or all of our operations. We may need to increase compensation and other benefits either to attract and retain key personnel or due to increased wage demands by our employees, or an increase in minimum wages and that may adversely affect our business, results of operations, financial condition and cash flows. The following table sets forth the details regarding our employee benefits expense in the periods indicated:

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Employee benefits expense (₹ million)	387.29	290.72	172.68
Percentage of the total expenses (%)	7.61%	6.01%	3.08%

We are also subject to a number of stringent labour laws that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes financial obligations on employers upon retrenchment. If labour laws become more stringent, it may become more difficult for us to maintain flexible human resource policies, discharge employees or downsize, any of which could have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.

30. Intensifying competition from new domestic entrants and established international cruise lines could erode our market share, pricing power and profitability.

Although we are one of domestic ocean cruise operators in India (*Source: CRISIL Report*), the Government of India's initiatives policy for cruise tourism through the Cruise Bharat Mission, may encourage and attract Indian and foreign cruise operators to launch competing domestic cruises. Entry of new domestic or international players would intensify fare discounting and raise marketing costs, any of which could adversely affect our business, results of operations, financial condition and cash flows. Simultaneously, large international cruise operators (with global distribution systems and strong loyalty programmes) could home-port vessels in India seasonally or year-round. Their presence would expose us to competition on itinerary breadth, on-board amenities, pricing and marketing spend. If we are forced to match discounted fares, upgrade product features or increase advertising outlays, our profitability could decline. Loss of a material portion of our passenger base to either domestic newcomers or established international players would adversely affect our revenues and cash-flow generation, and could therefore have a material adverse effect on our business, financial condition and results of operations.

31. Our business is subject to fluctuations in the Indian economy, including factors such as economic downturns, increased competition, changes in consumer preferences, health and safety concerns, geopolitical instability, and environmental regulations, all of which can significantly impact consumer spending, cruise ticket sales, and our overall financial performance.

Our business is susceptible to fluctuations in the Indian economy and related factors that impact consumer spending. As a provider of leisure travel experiences, our financial performance is closely tied to the health of the Indian economy and the discretionary spending power of consumers. An economic downturn in India could reduce demand for our cruises, impacting our revenues and profitability. Factors contributing to an economic downturn include rising unemployment, which reduces household income and consumer confidence, and increased fuel prices, which lead to higher transportation costs and decreased disposable income. Declines in the Indian securities and real estate markets can also negatively impact household wealth and consumer sentiment.

In an economic downturn, consumers may prioritize essential spending and cut back on discretionary expenses, such as vacations and leisure activities. This could lead to fewer cruise bookings, shorter booking windows, and increased price sensitivity among customers. Economic uncertainty can make consumers hesitant to commit to future travel plans, impacting advance bookings and our ability to forecast demand. The adverse impact of the worldwide economic downturn and related factors could have an adverse effect on consumer confidence and discretionary income, resulting in decreased demand and price discounting. Although we strive to offer attractive and competitively priced cruise packages, our business remains vulnerable to macroeconomic factors beyond our control. A significant or prolonged economic downturn in India could materially and adversely affect our business, financial condition, and results of operations.

Factors that could cause a decline in our cruise ticket sales include economic downturns, increased competition, changes in consumer preferences, health and safety concerns, geopolitical instability, and environmental regulations. Economic downturns reduce disposable income, leading to decreased spending on luxury travel. Increased competition from other travel and leisure options can also impact our sales. Changes in consumer preferences towards personalized and immersive travel experiences may reduce demand for traditional cruises. Health and safety concerns, particularly post-pandemic, can deter bookings. Geopolitical instability can affect travel plans and reduce demand. Environmental regulations may increase operational costs, leading to higher ticket prices and potentially lower demand. These factors, individually or collectively, could materially and adversely affect our cruise ticket sales, results of operations, financial condition, and cash flow.

32. The cruise tourism in India is still nascent. Any shortfall in consumer uptake, infrastructure delivery or regulatory support could adversely impact our business, results of operations, financial condition and cash flows.

The cruise tourism in India is still at a nascent stage and, although supported by the government's Cruise Bharat Mission and Maritime India Vision 2030 (*Source: CRISIL Report*), it faces significant growth uncertainties. For example, development of cruise terminals and supporting infrastructure is essential for the sector's growth, however, any shortfall in these facilities will directly hamper the growth. (*Source: CRISIL Report*) Further, regulatory framework and tax structure for the cruise industry in India like the current GST rate may prove to be an impediment. (*Source: CRISIL Report*) Further, limited number of skilled professionals may pose a significant challenge for the cruising industry. (*Source: CRISIL Report*) Beyond the ports, under-development of last-mile connectivity, quality accommodation and organised shore excursions may result in limiting itinerary diversity and dampening guest satisfaction. Consumer demand, still in the early adoption phase, is highly sensitive to macro-economic conditions, airfare volatility, adverse media coverage or safety incidents, leading to fluctuation in bookings. Further, established global cruise lines, leveraging larger fleets and deeper marketing budgets, may deploy capacity in Indian waters, intensifying price competition and pressuring occupancy and yields. Further, cruise operations require high capital expenditure on fit-outs, maintenance and regulatory compliance. If passenger volumes or ticket prices do not scale proportionately, our margins and cash flows would be compressed. Competition from alternative vacation options such as air travel, resorts and hotels—products with higher consumer awareness and wider infrastructure—could divert potential guests, while more mature cruise destinations like Singapore and Thailand may attract Indian passengers away from our itineraries. Any shortfall in government-led infrastructure investment, regulatory clarity or consumer uptake could therefore result in lower-than-anticipated passenger volumes and reduced ticket prices, all of which could adversely affect our business, results of operations, financial condition and cash flows.

33. Any failure to protect our intellectual property rights could adversely affect our competitive position, business, financial condition and results of operations.

As of the date of this Red Herring Prospectus, we have 26 registered trademarks including trademarks for classes 12, 35, 37, 39, 41, 43 and 44. For further information, see "*Our Business – Intellectual Property*" on page 204 and "*Government and Other Approvals – Intellectual Property Rights*" on page 339. The use of our registered trademarks or logos by third parties could adversely affect our reputation, which could in turn adversely affect our business and results of operations. The measures we take to protect our registered trademarks may not be adequate to prevent unauthorized use of our registered trademarks by third parties.

As of the date of this Red Herring Prospectus, we have filed (i) 18 applications under the classes 9,12, 35, 37, 39, 41, 43 and 44 of the Trademarks Act, 1999, for the registration of logo and word mark 'Cordelia' and 'Cordelia Cruises'; and (ii) an application dated May 22, 2025 for copyright of "COMPUTER SOFTWARE WORKS" under the Copyright Act, 1957. We cannot assure you that such registration of our logo, wordmarks and copyrights will be granted to us in a timely manner, or at all. The registration of intellectual property including trademarks is a time-consuming process and there can be no assurance that any registration applications we may pursue will be successful and that such registration will be granted to us. If we fail to register the appropriate intellectual property, or our efforts to protect relevant intellectual property prove to be inadequate, the value attached to our brand and proprietary property could deteriorate, which could have a material adverse effect on our business growth and prospects, financial condition, results of operations, and cash flows. For instance, in 2024, we had filed a trademark infringement suit before the High Court of Delhi, seeking a permanent injunction and damages against certain persons ("**Respondents**") who were operating through a cloned website using our registered trademark 'Cordelia Cruises' and logo. On June 28, 2024, the High Court of Delhi passed an ex-parte interim injunction restraining the Respondents from representing any association with Cordelia Cruises in any media. The High Court of Delhi also directed Facebook to remove the infringing marketing page. The case has been re-notified for hearing on July 22, 2026. The matter is currently pending. We cannot assure you that such instances will not arise in the future and we will always be able to prevent infringement of our trademarks in the future.

34. If we inadvertently infringe on the intellectual property rights of others, our business and results of operations may be adversely affected.

While we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty as to whether we are infringing on any existing third-party intellectual property rights, which may force us to obtain licences or cease some of our operations. We may also be susceptible to claims from third parties asserting infringement and other related claims. If claims or actions are asserted against us, we may be subject to costly litigation or may be required to obtain a licence, which can be extremely costly, or cease the use of such third-party intellectual property rights. In addition, we may decide to settle a claim or action against us, which settlement could be costly. Any of the foregoing could adversely affect our business, results of operations and financial condition.

For instance, we received two cease and desist legal notices from Shemaroo Entertainment ("**Shemaroo**") dated September 20, 2024 and December 13, 2024. These notices were related to the upload of still photos from the movie "Phir Hera Pheri" on our social media accounts. Shemaroo had also filed a complaint at the Worli Police station alleging copyright infringement. We resolved this matter by compensating ₹ 10 lakhs plus GST and providing five cabins for five-night sailings on the MV Empress. Subsequently, the complaint was withdrawn from the police station and the matter is now closed. Another instance occurred in 2022 when a celebrity sailed onboard our cruise vessel and created a video with attached music, which was uploaded on our Instagram page as per an understanding with the celebrity. Subsequently, the copyright owner, ROBA Music Verlag ("**ROBA**") from Germany, sent us a legal notice on May 31, 2022, demanding an explanation for the use of their music. They followed up with another legal notice on October 13, 2022, claiming € 31,261.50 as compensation. After several responses from us, ROBA reduced their claim to €10,000 through a letter dated March 14, 2024, and sent a reminder letter on December 2, 2024. There has been no further communication between us and ROBA and the claim amount remains pending. Accordingly, we cannot assure you that such instances will not occur in the future and that we will not be in breach of or misused intellectual property rights of others.

35. Our operations could be impaired by breaches in data security or other disturbances to our information technology systems and networks, which could adversely affect our business, financial condition and results of operations.

The integrity and reliability of our information technology ("**IT**") systems and other networks are crucial to our business operations. Our business could be significantly impacted if there are failures in our IT systems. Any prolonged failure or disruption in our IT systems could impact critical operational functions such as procurement, financial reporting, and booking management, potentially affecting our ability to manage cruise schedules and fulfill customer bookings. While we have not had any instances of disruptions to our IT systems in the last three Fiscals which impacted our business, results of operations, cash flows and financials, we cannot assure you such instances will not arise in the future.

Further, we rely on certain software and applications provided by third-party service providers in our cruise operations for certain critical services, including recipe management, menu management, HR module, time and attendance module and

warehouse management. Any disruption to software, whether due to technical failures, cyberattacks, or issues with the service provider, could lead to significant operational challenges. Such disruptions could affect our ability to manage recipes, menus, human resources, time and attendance efficiently.

Any unauthorized use of our information systems to gain access to sensitive information, corrupt data, or create disturbances in our operations could impair our ability to conduct business and damage our reputation. Although we have IT security and recovery plans in place, we cannot completely insulate ourselves from cyber-related risks. Any risk posed to our data security framework may significantly impact our operations. We cannot assure you that the precautions we have taken to avoid unauthorized incursions are adequate or properly implemented to prevent, immediately detect, or promptly address a data breach. Our servers remain susceptible to computer viruses, hacking, and unauthorized tampering, which could result in the unauthorized dissemination of sensitive information, materially and adversely affecting our reputation. Any breach of our confidentiality obligations, including data leaks or improper use of customer information and company data, could expose us to fines, liabilities, and legal proceedings, adversely impacting our reputation and financial condition. Our Company filed a police criminal complaint dated May 27, 2024 against Abhishek Sen Sharma, Ram Kapoor, Sanaullah Shaikh and other unidentified accomplice ("**Defendants**") among whom Sanaullah Shaikh was an employee of our Company on contractual basis. The Defendants were conspiring with a travel agency named Princess Cruises and Hotels ("**Princess Cruises**"), with an intention to divert the business of our Company to Princess Cruises by misrepresenting itself as our Company's authorized travel agency and committing fraud by sale of fake cruise tickets and cruise bookings. Our Company registered a first information report dated June 20, 2024. The Judicial Magistrate (First) Class, Mumbai issued a chargesheet dated October 23, 2024 against one of the previously unidentified accomplices, Viresh Banwarilal Sharma for offence punishable under sections 419, 465, 467, 468 and 471 of the Indian Penal Code, 1860 and sections 66(C) and 66(D) of the Information Technology Act, 2000 for forgery and cheating. The matter is currently pending. For further details see section titled "*Outstanding Litigation and Material Developments*" on page 331. Accordingly, we cannot assure you that such similar instances will not occur in the future.

36. We are one of the domestic ocean cruise operators in India, however, there are no direct Indian listed industry peers of our Company. Prospective investors must undertake their own independent assessment of our Company without the benefit of direct Indian listed peer comparisons typically available in other sectors.

We are one of the domestic ocean cruise operators in India (*Source: CRISIL Report*), offering luxurious and inherent Indian experiences. At present, there is no direct Indian-listed peer of our Company. This absence of domestic comparable may impede the ability to benchmark revenue growth, profitability and valuation multiples against an established domestic peer set and may create uncertainty in valuation because reference metrics may have to be drawn from non-Indian or non-pure-play cruise operators whose market dynamics, cost structures and regulatory environments differ materially. Accordingly, any assessment of our Company must be undertaken independently, without the benefit of direct Indian listed peer comparisons typically available in other sectors.

37. We are subject to various safety, health, environmental, labour, workplace and related laws and regulations which may increase our compliance costs and as such adversely affect our business, results of operations and financial condition.

We are subject to a broad range of safety, health, environmental, labour, workplace and related laws and regulations, which impose controls on the disposal and storage of raw materials, noise emissions, air and water discharges on the storage, handling, discharge, storage and disposal of chemicals and fuel, employee exposure to hazardous substances and other related aspects of our operations. For example, the laws in India limit the amount of hazardous and pollutant discharge that our cruise vessel may release into the air and water. The discharge of substances that are chemical in nature or of other hazardous substances into the air, soil or water beyond these limits may cause us to be liable to regulatory bodies and incur costs to remedy the damage caused by such discharges. Any of the foregoing could subject us to litigation, which may increase our expenses in the event we are found liable, and could adversely affect our reputation. We are also required to obtain and comply with environmental permits for certain of our operations. For instance, we require approvals under The Major Port Authorities Act, 2021, Merchant Shipping Act, 2025, Indian Port Health Rules, 1955, The Hong Kong International Convention for the Safe and Environmentally Sound Recycling of Ships, 2009, Marine Pollution ("**MARPOL**") Convention, Recycling of Ships Act, 2019, the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981 and the Hazardous and Other Waste (Management and Transboundary Movement) Rules, 2016, in order to establish and operate our cruise vessel in India and are subject to inspections from the relevant authorities in order to maintain such approvals. While we have not been fined or otherwise sanctioned for non-compliances with such laws in the past three Fiscals, there can be no assurance that we will not face fines or sanctions in the future that could adversely affect our business, reputation, financial condition or results of operations.

We are also subject to the laws and regulations governing employees, including in relation to minimum wage and maximum working hours, overtime, working conditions, maternity leave, hiring and termination of employees, contract labour and work permits. We have incurred and expect to continue incurring costs for compliance with such laws and regulations. These laws and regulations have, however, become increasingly stringent and it is possible that they will become significantly more stringent in the future. If we are unable to remain in compliance with all applicable safety and labour laws, or are subjected to any regulatory actions or penalties, our business, results of operations and financial condition may be adversely affected.

For instance, the GoI has recently notified the Code on Social Security, 2020 ("**Social Security Code**"); the Occupational Safety, Health and Working Conditions Code, 2020; the Industrial Relations Code, 2020 and the Code on Wages, 2019, which consolidate, subsume and replace numerous existing central labor legislations (collectively, the "**Labour Codes**"). Pursuant to notifications issued by the Ministry of Labour and Employment, GoI dated November 21, 2025, the Industrial Relations Code, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020 have been made fully effective and certain provisions of the Code on Wages, 2019 and Social Security Code have been made effective, each as of November 21, 2025. The remainder of these codes shall come into force on the day that the Government shall notify for this purpose. Further, rules under all these labour codes are yet to be notified by the GoI and the state governments. We are yet to determine the impact of all or some such laws on our business and operations, including requirement of any additional approvals and licenses pursuant to such laws, which may restrict our ability to grow our business in the future and increase our expenses. The enforcement of these laws could lead to higher employee and labor costs, which in turn could have a detrimental effect on our results of operations, financial condition and cash flows.

38. Our Company does not have any direct comparable Indian listed peers and therefore, it may be difficult to benchmark and evaluate our key performance indicators against other listed companies.

Our Company operates in a unique industry which blends luxury accommodation and experiences combined with extended ship voyages. Accordingly, there are no direct Indian listed industry peers of our Company. Our Company has listed peers which operate in one of these industries but not a combination of them. Accordingly, we have considered a blend of peers in the hotel and entertainment industry. Additionally, our Company has also considered the peers in the same line of business in international markets.

In the absence of direct comparable Indian listed peers, it may be difficult to benchmark and evaluate our financial performance against other Indian or global companies. Further, certain key performance indicators of our peers as included in this Red Herring Prospectus are better as compared to our Company. For our key performance indicators as compared to our peers, see "*Basis for the Issue Price - Comparison of our KPIs with our listed industry peers*" on page 114. Accordingly, investors must rely on their own examination of key performance indicators of our Company for the purposes of investment in this Issue.

39. Internal or external fraud or misconduct or misrepresentation or mis-selling by our employees could adversely affect our reputation and our results of operations.

Our business may expose us to the risk of fraud, misappropriation or misrepresentation or unauthorized transactions by our representatives and employees which could result in binding us to transactions that exceed authorised limits or present unacceptable risks. Further, we may be subject to regulatory or other proceedings in connection with any unauthorized transaction, fraud or misappropriation or misrepresentation or mis-selling by our representatives and employees, which could adversely affect our goodwill. Employee misconduct or mis-selling or misrepresentation could also involve the improper use or disclosure of confidential information, breach of any applicable confidentiality agreement, misappropriation or misuse of any third-party intellectual property rights which could result in regulatory sanctions, penalties and serious reputational or financial harm. In addition, employees may utilize our confidential information and technology to start their own businesses and become our competitors. Although we have systems in place to prevent and deter fraudulent activities by our employees such as prohibiting the removal of laptops from the premises, implementing stringent access controls, installing surveillance cameras, and banning the use of personal mobile phones, there can be no assurance that such systems will be effective in all cases. Any instances of such fraud or misconduct or mis-selling could adversely affect our reputation, business, results of operations, cash flows and financial condition. In 2024, we had an incident involving a former employee engaged by our Company on contractual basis who conspired with other individuals to redirect leads from our Company to a fraudulent website claiming to provide bookings for our Company's cruise line, and the travel agent subsequently siphoned money from innocent members of the public under the pretext of selling them as 'Cordelia Cruises' tickets. We have registered a First Information Report at the Worli police station, and the matter is currently *sub judice*. For further information, see "*Outstanding Litigation and Material Developments – Litigation involving our Company - Outstanding criminal litigation by our Company*" on page 332. There have been instances of forged invoices bearing our Company's logo and trademark being issued by an individual in South India. Despite filing applications with the N.M. Joshi Police Station, no action has been taken as of the date of this Red Herring Prospectus. We are also in the process of filing an appropriate legal proceeding to seek disclosure of the identity of the individual involved. The next date of hearing is July 7, 2026. Except for the aforesaid, there have been no instances of fraud, theft or employee negligence which we have experienced in the last three Fiscals which had an adverse effect on our business operations, we cannot assure you that we will not experience any fraud, theft, employee negligence or similar incidents in the future, which could adversely affect our reputation and results of operations.

40. We have incurred indebtedness and are required to comply with certain restrictive covenants under our financing agreements. Any non-compliance under such agreements and an inability to comply with repayment and other covenants in our financing agreements could adversely affect our business, results of operations, cash flows and financial condition.

We have entered into various financing arrangements with various lenders for short-term borrowings. As of March 31, 2026, our short term borrowings amounted to ₹ 496.51 million on a consolidated basis. Our ability to pay interest and repay the principal for our indebtedness is dependent upon our ability to generate sufficient cash flows to service such debt. The table

below sets forth short term borrowings and interest on borrowings as of/ for the years:

Particulars	As at/for the year ended March 31, 2026	As at/for the year ended March 31, 2025	As at/for the year ended March 31, 2024
Short term borrowings (₹ million)	496.51	304.40	51.76
Interest on borrowings (₹ million)	25.90	6.89	4.21

We may also incur additional indebtedness in the future. Any additional indebtedness we incur may have significant consequences, including, requiring us to use a significant portion of our cash flow from operations and other available cash to service our indebtedness, thereby reducing the funds available for other purposes, including capital expenditure and reducing our flexibility in planning for or reacting to changes in our business, competition pressures and market conditions.

Further, while there has been no breach of covenants stipulated in the financial arrangements in the past three Fiscals, we cannot assure you that we will be able to comply with these financial or other covenants at all times or that we will be able to obtain the consent necessary to take the actions that we believe are required to operate and grow our business.

In addition, our cost and availability of funds may be dependent on our credit ratings. The following table sets forth our details of credit rating received from April 1, 2023 until the date of this Red Herring Prospectus:

Rating Agency	Instruments	Credit Rating	Date
CRISIL	Bank loan facilities (overdraft facility and proposed working capital loan)	BBB+/Stable	November 26, 2025
CRISIL	Bank loan facilities (overdraft facility, proposed fund-based bank limits and proposed working capital loan)	BBB+/Stable	November 26, 2025
CRISIL	Bank loan facilities (overdraft facility and proposed working capital loan)	BBB/Stable	August 1, 2024
CRISIL	Bank loan facilities (overdraft facility, proposed fund-based bank limits and proposed working capital loan)	BBB/Stable	August 29, 2024

Credit ratings typically reflect, amongst other things, the rating agency's opinion of the financial strength, operating performance, strategic position, and ability to meet obligations of a company. While we have not experienced downgrading in our credit ratings received in the three Fiscals, any downgrade in our credit ratings or our inability to obtain such credit rating in a timely manner or any non-availability of credit ratings, or poor ratings, could increase borrowing costs, increase the possibility of additional terms and conditions being added to any new or replacement financing arrangements, will give the right to our lenders to review the facilities availed by us under our financing arrangements and adversely affect our access to capital and debt markets, which could in turn adversely affect our interest margins, our business, results of operations, financial condition and cash flows.

41. Exchange rate fluctuations may adversely affect our business, results of operations, financial conditions and cash flows.

Our financial statements are presented in Indian Rupees. However, we undertake certain transactions such as advancement of security deposits against time charters, payment of time charter charges, payment towards hospitality and procurement services and other expenses as and when required in foreign currency, particularly in USD. Our foreign currency exposures, exchange rate fluctuations between the Indian Rupee and USD, may have an adverse impact on our business, results of operations, financial condition and cash flows. The table below sets forth details of foreign currency exposure as of the dates indicated:

Particulars	As of March 31, 2026	As of March 31, 2025	As of March 31, 2024
Unhedged foreign currency exposure receivables (₹ million)	473.27	427.91	416.60
Unhedged foreign currency exposure trade payables (₹ million)	-	-	181.31

Failure to hedge effectively against exchange rate fluctuations may adversely affect our business operations, financial conditions, results of operations and cash flows. While there has not been any instance in the last three Fiscals wherein our failure to hedge foreign exchange exposure had an impact on our business, results of operations, financial condition and cash flows, we cannot assure you that such instances will not arise in the future.

42. Our insurance coverage may not adequately protect us against all losses or the insurance cover may not be available for all the losses as per the insurance policy, which could adversely affect business, results of operations and financial condition.

Our insurance coverage includes protection and indemnity insurance, which covers third-party liabilities, including fuel spill risks; hull and machinery insurance, as well as war risk insurance, which includes coverage for terrorist risks, passenger travel insurance; insurance for cash in transit and cash in safe; and employee insurance policy (group mediclaim and group personal accident policy); and director and officer insurance policy. For further details of insurance, see "*Our Business*" on page 185.

The following table sets forth our total insurance coverage and such coverage as a percentage of our total assets for the periods indicated:

Particulars	Amount of Insurance Obtained (₹ million)	Amount of Tangible Assets* (₹ million)	% of Total Tangible Assets* (%)	Percentage of Insurance Coverage (%)
As at March 31, 2026				
Insured Tangible Assets*	550.00	550.00	95.28%	100.00%
Uninsured Tangible Assets*	Nil	27.25	4.72%	Nil
Total Tangible Assets*	**550.00**	**577.25**	**100.00%**	**100.00%**
As at March 31, 2025				
Insured Tangible Assets*	632.29	632.29	95.21%	100.00%
Uninsured Tangible Assets*	Nil	31.83	4.79%	Nil
Total Tangible Assets*	**632.29**	**664.12**	**100.00%**	**100.00%**
As at March 31, 2024				
Insured Tangible Assets*	697.78	697.78	96.49%	100%
Uninsured Tangible Assets*	Nil	25.42	3.51%	Nil
Total Tangible Assets*	**697.78**	**723.20**	**100.00%**	**100.00%**

**Net book value of property, capital work-in-progress and investment property of the Company as at the end of the relevant financial year, with the details computed for March 31, 2026, March 31, 2025 and March 31, 2024 from the Restated Consolidated Financial Information.*

We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner at acceptable costs or at all. To the extent that we suffer any loss or damage that is not covered by insurance or exceeds our insurance coverage, our business, cash flows, financial condition and results of operations could be adversely affected. Any damage suffered by us in excess of such limited coverage amounts, or in respect of uninsured events, not covered by such insurance policies will have to be borne by us. We have had instances in the past where we claimed insurance. For example, in January 2022, while our cruise vessel was en route to Goa from Mumbai, a crew member tested positive for COVID-19. This incident required us to conduct testing of guests and crew on board. We also had to manage the accommodation of guests who were already on the ship, as well as those who were in Mumbai preparing for the next trip. For this incident, we claimed a total of ₹ 363.81 million, which included losses due to business opportunities. However, we received a total insurance amount of ₹ 14.78 million. In another incident, one of our crew members passed away due to a heart attack. We paid an amount of ₹ 7.55 million to his family and subsequently received an insurance payout of ₹ 5.27 million.

43. Our funding requirements and proposed deployment of the Net Proceeds are not appraised by any independent agency and are based on management estimates and may be subject to change based on various factors, some of which are beyond our control.

We propose to utilize the Net Proceeds towards towards deposit/ advanced lease rental and monthly lease payments to our step-down subsidiary, Baycruise Shipping and Leasing (IFSC) Private Limited and General corporate purposes in the manner specified in "*Objects of the Issue*" on page 102. The Objects of the Issue have not been appraised by any bank or financial institution, and our funding requirement is based on current conditions, internal estimates, estimates received from the third party agencies and are subject to changes in external circumstances or costs, or in other financial condition, business or strategy. We may have to revise our business plan and/ or management estimates from time to time and consequently our funding requirements may also change. Such internal estimates may differ from the value that would have been determined by third party appraisals, which may require us to reschedule or reallocate our expenditure, subject to applicable laws. In case of increase in actual expenses or shortfall in requisite funds, additional funds for a particular activity will be met by any means available to us, including internal accruals and additional equity and/or debt arrangements, and may have an adverse impact on our business, results of operations, financial condition and cash flows. Accordingly, investors in the Equity Shares will be relying on the judgment of our management regarding the application of the Net Proceeds. In accordance with Sections 13(8) and 27 of the Companies Act, 2013, and Regulation 59 of the SEBI ICDR Regulations, we cannot undertake any variation in the utilization of the Net Proceeds without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders' approval may adversely affect our business or operations.

Further, pursuant to Section 27 of the Companies Act, any variation in the Objects of the Issue would require a special resolution of the shareholders and the promoter or controlling shareholders will be required to provide an exit opportunity to the shareholders who do not agree to such proposal to vary the Objects of the Issue, at such price and in such manner in accordance with applicable law.

In light of these factors, we cannot assure you that the Objects of the Issue will be achieved within the timeframe expected or at all, or that the deployment of the Net Proceeds in the manner intended by us will result in any increase in the value of your investments. Further, we may not be able to undertake variation of the Objects of the Issue to use any unutilized proceeds of the Issue, if any, or vary the terms of any contract referred to in this Red Herring Prospectus, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition

by re-deploying the unutilized portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

44. Certain sections of this Red Herring Prospectus disclose information from the CRISIL Report which is a paid report and commissioned and paid for by us exclusively in connection with the Issue and any reliance on such information for making an investment decision in the Issue is subject to inherent risks.

We have availed the services of an independent third-party research agency, CRISIL, appointed by us pursuant to an engagement letter dated October 14, 2025, to prepare an industry report titled "*Assessment of overnight ocean and coastal cruise industry in India*" dated May 2026, for the purposes of inclusion of such information in this Red Herring Prospectus to understand the industry in which we operate. Our Company, our Promoters, our Directors, our Key Managerial Personnel, members of Senior Management and the Book Running Lead Manager are not related to CRISIL Limited. The CRISIL Report has been commissioned by our Company exclusively in connection with the Issue for a fee. The CRISIL Report is subject to various limitations and based upon certain assumptions that are subjective in nature. Further the commissioned report is not a recommendation to invest or divest in our Company. Prospective investors are advised not to unduly rely on the commissioned report or extracts thereof as included in this Red Herring Prospectus, when making their investment decisions.

45. Our Promoters will continue to hold a significant equity stake in our Company after the Issue and their interests may differ from those of the other shareholders.

As on the date of this Red Herring Prospectus, our Promoters collectively hold 99.27% of the paid-up equity share capital of our Company on a fully diluted basis. For further information on their shareholding pre and post-Issue, see "*Capital Structure*" on page 83. After the completion of the Issue, our Promoters will continue to collectively hold significant shareholding in our Company and will continue to exercise significant influence over our business policies and affairs and all matters requiring Shareholders' approval, including the composition of our Board, the adoption of amendments to our certificate of incorporation, the approval of mergers, strategic acquisitions or joint ventures or the sales of substantially all of our assets, and the policies for dividends, lending, investments and capital expenditure or any other matter requiring special resolution. This concentration of ownership also may delay, defer or even prevent a change in control of our Company and may make some transactions more difficult or impossible without the support of these stockholders. The interests of the Promoters as our controlling shareholders could conflict with our interests or the interests of our other shareholders. We cannot assure you that the Promoters will act to resolve any conflicts of interest in our favour and any such conflict may adversely affect our ability to execute our business strategy or to operate our business. For further information in relation to the interests of our Promoters in the Company, see "*Our Promoters and Promoter Group*" and "*Our Management*" on pages 239 and 222, respectively.

46. Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance such as EBITDA and EBITDA margin have been included in this Red Herring Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable.

We have, in this Red Herring Prospectus, included various operational and financial performance indicators and certain non-GAAP measures. Some of these measures may not be derived from our Restated Consolidated Financial Information and may not have been subjected to an audit or review by our Statutory Auditor, and each of which is a supplemental measure of our performance and liquidity and not required by, or presented in accordance with Ind AS, IFRS or U.S. GAAP. Further, such measures and indicators are not defined under Ind AS, IFRS, U.S. GAAP or other accounting standards, and, therefore, should not be viewed as substitutes for performance, liquidity or profitability measures under such accounting standards. The manner in which such operational and financial performance indicators including industry-related statistical information are calculated and presented, and the assumptions and estimates underlying or used in such calculation, may vary from that used by other similarly placed companies in India and other jurisdictions.

In addition, such measures are not standardised terms, hence a direct comparison between companies may not be possible. Other companies may calculate such measures differently from us, limiting the usefulness of such Non-GAAP measures as a comparative metric. Further, these measures should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the periods or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS. Investors are accordingly cautioned against placing undue reliance on such information in making an investment decision and are cautioned that they should consult their own advisors and evaluate such information in the context of the Restated Consolidated Financial Information and other information relating to our business and operations included in this Red Herring Prospectus.

We cannot assure you that we will generate sufficient revenues to cover our operating expenses and, as such, have profits to pay dividends to our Company's shareholders in future. We may decide to retain all of our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. We cannot assure you that we will be able to pay dividends at any point in the future. We have not declared any dividends on the Equity Shares during the last three Fiscals and from April 1, 2026, until the date of this Red Herring Prospectus. We have, in the 12 months preceding the filing of this Red Herring Prospectus, issued Equity Shares at prices that may be lower than the Issue Price. See "*Capital Structure – Notes to Capital Structure*" on page 83. The price at which our Company has issued the Equity Shares in the past is not indicative of the price at which they will be issued or traded.

49. Some of our Promoters and Directors, could have interest in us other than normal remuneration benefits or reimbursements of expenses incurred.

In addition to payment of remuneration, we have entered into related party transactions with our Directors and Key Managerial Personnel in relation to availment of consultancy services, management consultancy services, employment benefits expenses, etc. For details, see Note 36 to our Restated Consolidated Financial Information included in "*Restated Consolidated Financial Information*" and "- *10. The relevant financial parameters based on which the Price Band will be determined shall be disclosed in the advertisement that will be issued for the publication of the Price Band. Further, the Issue Price of the Equity Shares is proposed to be determined on the basis of assessment of market demand for the Equity Shares offered through the book-building process prescribed under the SEBI ICDR Regulations, and certain quantitative and qualitative factors as set out in the section "*Basis for the Issue Price*" on page 109 and the Issue Price, multiples and ratios may not be indicative of the market price of the Company on listing or thereafter.

Prior to the Issue, there has been no public market for our Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the medical device industry we operate in, developments relating to India,

announcements by third parties or governmental entities of significant claims or proceedings against us, volatility in the securities markets in India and other jurisdictions, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. Further, the market price of the Equity Shares may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price.

52. We have certain contingent liabilities that have been disclosed in the Restated Consolidated Financial Information, which if they materialize, may adversely affect our business, cash flows, financial condition and results of operations.

As of March 31, 2026, our contingent liabilities that have been disclosed in our Restated Consolidated Financial Information, were as follows:

(i) During the year on April 5, 2025, the holding company received a legal notice from Tariff Authority of Major Ports ("**TAMP**") through Ballard Pier Private Limited (the concessionaire of the Mumbai International Cruise Terminal) for payment of Passenger Facilitation Charges over and above the passenger head tax. The holding company has disputed the above claim by making an appeal on April 9, 2025 with TAMP on the above matter which is pending for hearing. The holding company believes that they have a good case based on merits in the above matter. However, on a conservative basis the holding Company has deposited the entire amount raised till March 31, 2026 (i.e., ₹ 120.96 million) with the authority (till March 31, 2025, the holding company recorded provision of ₹ 9.6 million in this regard).

(ii) Direct and Indirect taxes:

(Amounts in ₹ million)

Particulars	As at March 31, 2026
a) Income Tax[#]	252.03
b) Goods and Services Tax (GST)[$]	3.43

[#]1. During the year on 24 March 2026 an assessment order under Section 143(3) of the Income-tax Act, 1961 was passed by the Assessing Officer ("AO") raising the tax liability of ₹ 146.53 for FY 2022-23 (AY 2023-24) on account of disallowances of expenses amounting to ₹ 582.20 million claimed as exceptional items by the holding company in the Statement of Profit and Loss for the year ended 31 March 2023. The management believes that the aforesaid expenses are revenue in nature and were incurred wholly and exclusively for the purposes of the business, and are therefore allowable under Section 37(1) of the Income-tax Act, 1961. Based on legal advice, the holding Company is of the view that it has strong grounds to substantiate its claim. Accordingly, the holding Company is in the process of filing an appeal before the Commissioner of Income-tax (Appeals) [CIT(A)] against the said assessment order and no provision is recorded in the consolidated financial statements.
2. During the year on 31 March 2026 demand order of ₹. 105.50 million under Section 201 of the Income-tax Act has been received by the holding Company for non-deduction of TDS on payments for hospitality management services for FY 2020-21 (AY 2021-22). The holding Company based on legal advice maintains that no TDS obligation arises as services were rendered entirely outside India. Accordingly, no provisions has been recognised in these consolidated financial statements and the holding Company is in the process of filing an appeal before the CIT(A).

[$] The holding Company received a demand order dated 18 December 2025 for ₹ 3.12 million along with a penalty of ₹ 0.31 million relating to excess availment of ITC for FY 2021–22. The holding Company has filed replies during the proceedings and belives that they have good case based on the merits in the said matter. Accordingly, no provisions has been recognised in these consolidated financial statements in respect of this matter. Further, the holding Company is in the process of filing an appeal against the said order.

For further details of our contingent liabilities as at March 31, 2026, see "*Restated Consolidated Financial Information – Note 39 – Contingent Liabilities and Commitments*" on page 291. If a significant portion of these liabilities materialize, it could have an adverse effect on our business, cash flows, financial condition and results of operations.

EXTERNAL RISK FACTORS

53. Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.

The Indian economy and capital markets are influenced by economic, political and market conditions in India and globally. Our results of operations, financial condition and cash flows are significantly affected by factors influencing the Indian economy.

Factors that may adversely affect the Indian economy and, consequently, our results of operations, may include:

- high rates of inflation in India could increase our costs without proportionately increasing our revenue, and as such decrease our operating margins;
- high rates of interest could result in an increase in the cost of funds for us as well as our clients;
- any slowdown in economic growth or financial instability in India;
- any exchange rate fluctuations;
- any scarcity of credit or other financing, resulting in an adverse impact on economic conditions;
- prevailing income conditions among clients;
- volatility in, and actual or perceived trends in trading activity on, the relevant market's principal stock exchanges;
- changes in existing laws and regulations in India;
- epidemics, pandemics or any other public health concerns in India or in countries in the region or globally, including in India's various neighbouring countries, such as the pathogenic strains of influenza in birds and swine, the M-pox virus and the COVID-19 pandemic;

- political instability, terrorism or military conflict in the region or globally, including in various neighbouring countries;
- occurrence of natural or man-made disasters;
- any downgrading of debt rating of India by a domestic or international rating agency; and
- instability in financial markets.

54. A slowdown in economic growth in India could adversely affect our business.

The structure of the Indian economy has undergone considerable changes in the last decade. These include the increasing importance of external trade and of external capital flows. Any slowdown in the growth of the Indian or global economy or the financial services industry or any future volatility in securities or commodities market could adversely affect our business, financial condition and results of operations. India's economy could be adversely affected by a general rise in interest rates, fluctuations in currency exchange rates, adverse conditions affecting commodity prices or various other factors. Additionally, any recession or financial downturn may impact the ability of consumers to spend on industries such as ours, which may adversely impact our business.

Further, conditions outside India, such as slowdowns in the economic growth of other countries, could have an impact on the growth of the Indian economy and government policy may change in response to such conditions. The Indian economy and financial markets are also significantly influenced by worldwide economic, financial and market conditions. Any global financial turmoil, particularly in the United States, the EU, China or Asian emerging market countries, may have an impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss of investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets, and could have an adverse effect on our business, financial condition and results of operations and the price of the Equity Shares.

55. A downgrade in India's sovereign debt ratings, may affect have an adverse impact on our business, financial condition and the trading price of the Equity Shares.

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India. Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

56. We may be affected by competition law in India and any adverse application or interpretation of the Competition Act could adversely affect our business.

The Competition Act, 2002, as amended ("**Competition Act**") regulates practices having an appreciable adverse effect on competition ("**AAEC**") in the relevant market in India. Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an AAEC is considered void and results in the imposition of substantial penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, shares the market by way of geographical area or number of guests in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an AAEC in the relevant market in India and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise.

On April 11, 2023, the Competition (Amendment) Bill 2023 received the assent of the President of India to become the Competition (Amendment) Act, 2023 ("**Competition Amendment Act**"), amending the Competition Act and giving the CCI additional powers to prevent practices that harm competition and the interests of consumers. It has been enacted to increase the ease of doing business in India and enhance transparency. The Competition Amendment Act, inter alia, modifies the scope of certain factors used to determine AAEC, reduces the overall time limit for the assessment of combinations by the CCI from 210 days to 150 days and empowers the CCI to impose penalties based on the global turnover of entities, for anticompetitive agreements and abuse of dominant position. The Competition Commission of India has on September 9, 2024, issued The Competition Commission of India (Combinations) Regulations, 2024, which came into effect on September 10, 2024, and which repeals The CCI issued Competition Commission of India (Procedure for Transaction of Business Relating to Combinations) Regulations, 2011. The impact of these regulations is yet to be ascertained.

The Competition Act aims to, among others, prohibit all agreements and transactions which may have an AAEC in India. Consequently, all agreements entered into by us could be within the purview of the Competition Act. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an AAEC in India. However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. We are currently not a party to an outstanding proceeding, nor have we received any notice in relation to non-compliance with the Competition Act and the agreements entered into by us. However, if we are affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to

scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, results of operations and prospects.

57. Adverse geopolitical conditions such as an increased tension between India and its neighbouring countries, the Russia-Ukraine conflict, the conflict between Israel and other countries in West Asia, could adversely affect our business, results of operations and financial condition.

Adverse geopolitical conditions such as increased tensions between India and its neighbouring countries, resulting in any military conflict in the region could adversely affect our business and operations. Such events may lead to countries including the Government of India imposing restrictions which could have an adverse effect on the Indian economy. Further, any restriction on commodities, or other factors cause global supply chain disruptions could have an impact on global prices and could have an adverse effect on the commodities markets in India could be affected. For instance, the Government of India has imposed additional tariffs in the nature of countervailing duty and anti-dumping duty on a number of items imported from China. Any such measure or reciprocal duties imposed on Indian products by China or other countries may adversely affect our results of operations and financial condition could have a chilling effect on trade and commerce between the nations which could lead to uncertainty in the securities and commodities markets, inflate costs etc. Further, prolonged Russia-Ukraine conflict and the armed hostilities between Israel and other countries in West Asia, impacting, inter alia, global trade, prices of oil and gas could have an inflationary impact on the Indian economy, result in higher interest rates and adversely affect our business, results of operations and financial condition.

58. Governmental actions and changes in policy, laws and regulations and their interpretation could adversely affect our business, result of operations and financial condition.

The Government of India and the State Governments in India have broad powers to affect the Indian economy and our business in numerous ways. Any change in the existing policies of Government of India and, or, State Government, or foreign policies, or new policies affecting the economy of India or any foreign country, affecting foreign investment into India, could adversely affect our business operations. Moreover, we also cannot assure you that the Central Government or State Governments in India, will not implement new regulations and policies which will require us to obtain additional approvals and licenses from the Government and other regulatory bodies or impose onerous requirements and conditions on our operations. We cannot predict the terms of any new policy, and we cannot assure you that such a policy will not be onerous. Such new policy may also adversely affect our business, cash flows, financial condition and prospects. In addition to changing laws and regulations, the interpretation of extant laws and regulations also could undergo change over time resulting inter alia in uncertainty, and such changes may adversely affect our business, result of operations and financial condition.

59. The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

60. Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the Restated Consolidated Financial Information prepared and presented in accordance with SEBI ICDR Regulations contained in this Red Herring Prospectus.

We have not attempted to quantify the impact of U.S. GAAP or any other system of accounting principles on the financial data, prepared and presented in accordance with Ind AS for the Fiscal 2026, Fiscal 2025 and Fiscal 2024 included in this Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of U.S. GAAP or any other accounting principles. U.S. GAAP differs in significant respects from Ind AS. Accordingly, the degree to which the Restated Consolidated Financial Information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS and SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited. Additionally, Ind AS differs in certain respects from IFRS and therefore financial statements prepared under Ind AS may be substantially different from financial statements prepared under IFRS.

61. Investors may have difficulty enforcing foreign judgments against us or our management.

We are incorporated under the laws of India and all our Directors and Key Managerial Personnel, with the exception of Mr. Jurgen Bailom, reside in India**.** A majority of our assets, and the assets of our Directors and officers, are also located in India.

Where investors wish to enforce foreign judgments in India, they may face difficulties in enforcing such judgments. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. India exercises reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions. In order to be enforceable, a judgment obtained in a jurisdiction which India recognises as a reciprocating territory must meet certain requirements of the Code of Civil Procedure, 1908, of India ("**Civil Code**"). Section 13 of the CPC provides that foreign judgments shall be conclusive regarding any matter directly adjudicated on except (i) where the judgment has not been pronounced by a court of competent jurisdiction, (ii) where the judgment has not been given on the merits of the case, (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or refusal to recognize the law of India in cases to which such law is applicable, (iv) where the proceedings in which the judgment was obtained were opposed to natural justice, (v) where the judgment has been obtained by fraud or (vi) where the judgment sustains a claim founded on a breach of any law then in force in India. Under the CPC, a court in India shall, on the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record; such presumption may be displaced by proving want of jurisdiction. Further, the Civil Code only permits enforcement of monetary decrees not being in the nature of any amounts payable in respect of taxes or, other charges of a like nature or in respect of a fine or other penalty and does not provide for the enforcement of arbitration awards. Judgments or decrees from jurisdictions not recognised as a reciprocating territory by India cannot be enforced or executed in India. Even if a party were to obtain a judgment in such a jurisdiction, it would be required to institute a fresh suit upon the judgment and would not be able to enforce such judgment by proceedings in execution. Further, the party which has obtained such judgment must institute the new proceedings within three years of obtaining the judgement.

As a result, you may be unable to: (i) effect service of process outside of India upon us and such other persons or entities; or (ii) enforce in courts outside of India judgments obtained in such courts against us and such other persons or entities. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if it viewed the amount of damages awarded as excessive or inconsistent with Indian practice. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the RBI to repatriate any amount recovered pursuant to the execution of such foreign judgment, and any such amount may be subject to income tax in accordance with applicable laws.

62. The Indian tax regime has undergone substantial changes which could adversely affect our business and the trading price of the Equity Shares.

Any change in Indian tax laws could have an effect on our operations. The Government of India has implemented two major reforms in Indian tax laws, namely the Goods and Services Tax ("**GST**"), and provisions relating to general anti-avoidance rules ("**GAAR**"). The indirect tax regime in India has undergone a complete overhaul. The indirect taxes on goods and services, such as central excise duty, service tax, central sales tax, state value added tax, surcharge and excise have been replaced by GST with effect from July 1, 2017. The GST regime continues to be subject to amendments and its interpretation by the relevant regulatory authorities is constantly evolving. GAAR became effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement may result in, among others, a denial of tax benefit to us and our business. In the absence of any substantial precedents on the subject, the application of these provisions is subjective. If the GAAR provisions are made applicable to us, it may have an adverse tax impact on us. Further, if the tax costs associated with certain of our transactions are greater than anticipated because of a particular tax risk materializing on account of new tax regulations and policies, it could affect our profitability from such transactions.

Earlier, distribution of dividends by a domestic company was subject to Dividend Distribution Tax ("**DDT**"), in the hands of the company at an effective rate of 20.56% (inclusive of applicable surcharge and cess). Such dividends were generally exempt from tax in the hands of the shareholders. However, the GoI has amended The Income-tax Act, 2025 as amended by the Finance Act, 2026 ("**IT Act**") to abolish the DDT regime. Accordingly, any dividend distribution by a domestic company is subject to tax in the hands of the investor at the applicable rate. Additionally, the Company is required to withhold tax on such dividends distributed at the applicable rate.

The Government of India announced the union budget for Financial Year 2026-2027, following which the Finance Bill, 2026 ("**Finance Bill**") was introduced in the Lok Sabha on February 1, 2026. Subsequently, the Finance Bill received the assent from the President of India and became the Finance Act, 2025, with effect from April 1, 2026, as amended by the Finance Act (No. 2), ("**Finance Act**"). Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning, investing or trading in the Equity Shares. There is no certainty on the impact that the Finance Act, 2025 and Finance Act, 2026 may have on our business and operations or on the industry in which we operate. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

We cannot predict whether any new tax laws or regulations impacting our services will be enacted, what the nature and impact of the specific terms of any such laws or regulations will be or whether if at all, any laws or regulations would have an adverse effect on our business. Further, any adverse order passed by the appellate authorities/ tribunals/ courts would have an effect on our profitability. In addition, we are subject to tax related inquiries and claims.

63. Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any capital gain exceeding ₹125,000 realized on the sale of listed equity shares on a recognized stock exchange held for more than 12 months immediately preceding the date of transfer, will be subject to long term capital gains tax in India at the rate of 12.5% (plus applicable surcharge and cess). This beneficial rate is, among others, subject to payment of a securities transaction tax ("**STT**"). Further, any gain realized on the sale of equity shares in an Indian company held for more than 12 months, which are sold using any platform other than a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Any capital gains realized on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax in India at the rate of 20.0% (plus applicable surcharge and cess), subject to payment of STT; otherwise, such gains will be taxed at applicable rates.

Capital gains arising from the sale of the Equity Shares may be exempt from taxation in India where such exemption is available under an applicable tax treaty. However, Indian tax treaties generally do not limit India's ability to tax capital gains, and non-resident investors may be subject to taxation in India as well as in their jurisdiction of residence. Business income arising from the transfer of Equity Shares held as trading assets will be taxable at applicable rates, subject to any treaty relief, if available.

No dividend distribution tax is required to be paid in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020 and, accordingly, such dividends would not be exempt in the hands of both resident and non-resident Shareholders. Our Company may not grant the benefit of a tax treaty (where applicable) to a non-resident Shareholder for the purposes of deducting tax at source pursuant to any corporate action, including dividends.

The Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020 and clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures on a delivery basis is 0.015% of the consideration amount, and on a non-delivery basis is 0.003% of the consideration amount. Further, the Finance Act, 2026 which amended Income-tax Act, 2025, is coming into effect in phases.

64. The Finance Act, 2026 covers direct taxes, customs, buy-back, GST, STT and Black Money (Undisclosed Foreign Income and Assets) and Imposition of Tax Act, 2015. We have not fully determined the effects of these recent and proposed laws and regulations on our business. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning, investing or trading in the Equity Shares. We cannot predict whether any such amendments will have an adverse effect on our business, results of operations, financial condition and cash flows. Unfavorable changes in or interpretations of existing laws, rules and regulations, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. ***Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time taken for such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares, may reduce the proceeds received by Shareholders. For example, the exchange rate between the Indian Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the returns on our Equity Shares, independent of our operating results.

65. The Equity Shares have never been publicly traded and the Issue may not result in an active or liquid market for the Equity Shares. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price.

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Indian Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, there will be liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares may bear no relationship to the market price of the Equity Shares after the Issue.

The market price of the Equity Shares after the Issue can be volatile as a result of several factors beyond our control, including volatility in the Indian and global securities markets, our results of operations, the performance of our competitors, developments in the Indian and global financial services industry, changing perceptions in the market about investments in this sector in India, investor perceptions of our future performance, adverse media reports about us or our sector, changes in the estimates of our performance or recommendations by financial analysts, significant developments in India's economic liberalisation and deregulation policies, and significant developments in India's fiscal regulations.

In addition, the Stock Exchanges may experience significant price and volume fluctuations, which may have a material adverse effect on the market price of the Equity Shares. General or industry specific market conditions or stock performance or domestic or international macroeconomic and geopolitical factors unrelated to our performance may also affect the price of the Equity Shares. In particular, the stock market as a whole in the past has experienced extreme price and volume fluctuations that have affected the market price of many companies in ways that may have been unrelated to the companies' operating performances. For these reasons, investors should not rely on recent trends to predict future share prices, results of operations or cash flow and financial condition.

66. The requirements of being a publicly listed company may strain our resources.

We are not a publicly listed company and none of our securities are listed on any stock exchange. We have not, consequently, been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI Listing Regulations, which will require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or, we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies. Further, as a publicly listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, our management's attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition.

67. Any further issuance of Equity Shares, or convertible securities or other equity linked instruments by us may dilute your shareholding.

We may be required to finance our growth through future equity offerings. Any future equity issuances by us, including a primary offering of Equity Shares, convertible securities or securities linked to Equity Shares including through exercise of ESOPs, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by our Company may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares. We cannot assure you that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

68. Subsequent to the listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measures and Graded Surveillance Measures by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.

SEBI and the Stock Exchanges, in the past, have introduced various pre-emptive surveillance measures with respect to the shares of listed companies in India (the "**Listed Securities**") in order to enhance market integrity, safeguard the interests of investors and potential market abuses. In addition to various surveillance measures already implemented, and in order to further safeguard the interest of investors, the SEBI and the Stock Exchanges have introduced additional surveillance measures ("**ASM**") and graded surveillance measures ("**GSM**").

ASM is conducted by the Stock Exchanges on Listed Securities with surveillance concerns based on certain objective parameters such as price-to-earnings ratio, percentage of delivery, client concentration, variation in volume of shares and volatility of shares, among other things. GSM is conducted by the Stock Exchanges on Listed Securities where their price quoted on the Stock Exchanges is not commensurate with, among other things, the financial performance and financial condition measures such as earnings, book value, fixed assets, net worth, other measures such as price to earnings multiple and market capitalization.

Upon listing, the trading of our Equity Shares would be subject to differing market conditions as well as other factors which may result in high volatility in price, and low trading volumes as a percentage of the combined trading volume of our Equity Shares. The occurrence of any of the abovementioned factors or other circumstances may trigger any of the parameters prescribed by SEBI and the Stock Exchanges for placing our securities under the GSM and/or ASM framework or any other surveillance measures, which could result in significant restrictions on trading of our Equity Shares being imposed by SEBI and the Stock Exchanges. These restrictions may include requiring higher margin requirements, limiting trading frequency or freezing of price on the upper side of trading, as well as mentioning of our Equity Shares on the surveillance dashboards of the Stock Exchanges. The imposition of these restrictions and curbs on trading may have an adverse effect on the market price, trading and liquidity of our Equity Shares and on the reputation and conditions of our Company. Any such instance may result in a loss of our reputation and diversion of our management's attention and may also decrease the market price of our Equity Shares which could cause you to lose some or all of your investment.

69. There are restrictions on daily movements in the trading price of the Equity Shares, which may adversely affect a shareholder's ability to sell Equity Shares or the price at which Equity Shares can be sold at a particular point in time.

Following the Issue, our listed Equity Shares will be subject to a daily "circuit breaker" imposed on listed companies by the Stock Exchanges, which does not allow transactions beyond certain volatility in the trading price of the Equity Shares. This circuit breaker operates independently of the index-based market wide circuit breakers generally imposed by SEBI on Indian Stock Exchanges. The percentage limit on the Equity Shares' circuit breaker will be set by the Stock Exchanges based on historical volatility in the price and trading volume of the Equity Shares. The Stock Exchanges are not required to inform our Company of the percentage limit of the circuit breaker, and they may change the limit without our knowledge. This circuit breaker would effectively limit the upward and downward movements in the trading price of the Equity Shares beyond the circuit breaker limit set by the Stock Exchanges. As a result of this circuit breaker, we cannot give you any assurance regarding the ability of shareholders to sell Equity Shares or the price at which shareholders may be able to sell their Equity Shares.

70. There is no guarantee that our Equity Shares will be listed on the BSE and the NSE in a timely manner or at all.

There is no guarantee that our Equity Shares will be listed on the BSE and the NSE in a timely manner or at all. In accordance with Indian law, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Issue and until Allotment of Equity Shares pursuant to this Issue. In accordance with current regulations and circulars issued by SEBI, our Equity Shares are required to be listed on the BSE and the NSE within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining final listing and trading approvals may restrict your ability to dispose of your Equity Shares.

71. You may not be able to immediately sell any of the Equity Shares you subscribe to in this Issue on an Indian Stock Exchange.

The Equity Shares are proposed to be listed on the Stock Exchanges. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and commence trading, including the crediting of the investor's demat accounts within the timeline specified under applicable law. Further, in accordance with Indian law, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Issue and until Allotment of Equity Shares pursuant to this Issue. The Allotment of Equity Shares in the Issue and the credit of Equity Shares to the investor's demat account with the relevant depository participant and listing is expected to be completed within the period as may be prescribed under applicable law. Any failure or delay in obtaining the approvals or otherwise commencement of trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. We cannot assure you that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence within the prescribed time periods or at all which could restrict your ability to dispose of the Equity Shares.

72. Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

73. Financial instability, economic developments and volatility in securities markets in other countries may also cause the price of the Equity Shares to decline.

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India.

For instance, the economic downturn in the U.S. and several European countries during a part of Fiscals 2008 and 2009 adversely affected market prices in the global securities markets, including India. In addition, China is one of India's major trading partners and a possible slowdown in the Chinese economy as well as a strained relationship with India, could have an adverse impact on the trade relations between the two countries. Further, events like the collapse of the Silicon Valley Bank could also cause an economic downturn. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general.

A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of the Equity Shares.

74. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely impact the trading price of the Equity Shares.

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted, subject to certain exceptions, if they comply with the valuation and reporting requirements specified by the RBI. If a transfer of shares is not in compliance with such requirements and does not fall under any of the exceptions specified by the RBI, then the RBI's prior approval is required. In addition, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. We cannot assure you that any required approval from the RBI or any other Government agency can be obtained on any particular terms or at all. For further details, see "*Restrictions on Foreign Ownership of Indian Securities*" on page 391.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT and the FEMA Rules, any investment, subscription, purchase or sale of equity instruments by entities, investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India. These investment restrictions shall also apply to subscribers of offshore derivative instruments. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained on any particular terms, in a timely manner or at all.

75. Our ability to raise foreign capital or borrowings may be constrained by Indian law.

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to us without onerous conditions, or at all. Limitations on foreign debt may have an adverse effect on our business growth, financial condition and results of operations.

76. If security or industry analysts do not publish research, or publish unfavourable or inaccurate research about the business of our Company, the price and trading volume of the Equity Shares may decline.

The trading market for the Equity Shares may depend, in part, on the research and reports that securities or industry analysts publish about us or our business. We may be unable to sustain coverage by established and/or, prominent securities and industry analysts. If either none or only a limited number of securities or industry analysts maintain coverage of our Company, or if these securities or industry analysts are not widely respected within the general investment community, the trading price for our Equity Shares could be negatively impacted. In the event we obtain securities or industry analyst coverage, if one or more of the analysts downgrade our Equity Shares or publish inaccurate or unfavourable research about our business, our Equity Shares price may decline. If one or more of these analysts cease coverage of our Company or fail to publish reports on us regularly, demand for our Equity Shares could decrease, which might cause the price and trading volume of our Equity Shares to decline.

77. Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.

Under the Companies Act, a company incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interest in our Company may be reduced.

78. QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid and Retail Individual Bidders and are not permitted to withdraw their bids after bid/offer closing date.

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/Issue Period and withdraw their Bids until Bid/Issue Closing Date. While our Company is required to complete Allotment pursuant to the Issue within 3 Working Days from the Bid/Issue Closing Date, events affecting the Bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such

events occur, and such events may limit the Bidders' ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

79. A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving an actual or threatened change in control of our Company. Under the SEBI Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors or shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted.

SUMMARY OF CONTINGENT LIABILITIES

Except as stated below, there are no contingent liabilities or commitments of our Company as at March 31, 2026 derived from the Restated Consolidated Financial Information:

(a) Contingent Liabilities

(i) During the year on April 5, 2025, the holding company received a legal notice from Tariff Authority of Major Ports ("**TAMP**") through Ballard Pier Private Limited (the concessionaire of the Mumbai International Cruise Terminal) for payment of Passenger Facilitation Charges over and above the passenger head tax. The holding company has disputed the above claim by making an appeal on April 9, 2025 with TAMP on the above matter which is pending for hearing. The holding company believes that they have a good case based on merits in the above matter. However, on a conservative basis the holding Company has deposited the entire amount raised till March 31, 2026 (i.e., ₹ 120.96 million) with the authority (till March 31, 2025, the holding company recorded provision of ₹ 9.6 million in this regard).

(ii) Direct and Indirect taxes:

(Amounts in ₹ million)

Particulars	As at March 31, 2026
a) Income Tax[#]	252.03
b) Goods and Services Tax (GST)[$]	3.43

[#]1. During the year on 24 March 2026 an assessment order under Section 143(3) of the Income-tax Act, 1961 was passed by the Assessing Officer ("AO") raising the tax liability of ₹ 146.53 for FY 2022-23 (AY 2023-24) on account of disallowances of expenses amounting to ₹ 582.20 million claimed as exceptional items by the holding company in the Statement of Profit and Loss for the year ended 31 March 2023. The management believes that the aforesaid expenses are revenue in nature and were incurred wholly and exclusively for the purposes of the business, and are therefore allowable under Section 37(1) of the Income-tax Act, 1961. Based on legal advice, the holding Company is of the view that it has strong grounds to substantiate its claim. Accordingly, the holding Company is in the process of filing an appeal before the Commissioner of Income-tax (Appeals) [CIT(A)] against the said assessment order and no provision is recorded in the consolidated financial statements.
2. During the year on 31 March 2026 demand order of ₹. 105.50 million under Section 201 of the Income-tax Act has been received by the holding Company for non-deduction of TDS on payments for hospitality management services for FY 2020-21 (AY 2021-22). The holding Company based on legal advice maintains that no TDS obligation arises as services were rendered entirely outside India. Accordingly, no provisions has been recognised in these consolidated financial statements and the holding Company is in the process of filing an appeal before the CIT(A).

[$] The holding Company received a demand order dated 18 December 2025 for ₹ 3.12 million along with a penalty of ₹ 0.31 million relating to excess availment of ITC for FY 2021–22. The holding Company has filed replies during the proceedings and belives that they have good case based on the merits in the said matter. Accordingly, no provisions has been recognised in these consolidated financial statements in respect of this matter. Further, the holding Company is in the process of filing an appeal against the said order.

Macroeconomic assessment

A review of Global GDP growth

Global GDP is projected to grow to grow by 3.1% in 2026 and 3.2% in 2027

The April 2026 update to the International Monetary Fund's ("**IMF**") World Economic Outlook (WEO) report employs a scenario-based approach to present the forecast for 2026 and 2027. In this approach, the scenario in which the ongoing conflict in the Middle East has limited duration, intensity, and scope so that the disruptions stemming from it dissipate by mid-2026 is assumed for modelling a 'reference forecast' based on which forecasts are drawn for adverse and severe scenarios in which the conflict becomes more protracted, or the resumption of production and transport activities takes longer because of possible scaring from closing of or damage to energy infrastructure. Hence, the impact on global economy which crucially depends on the conflict's duration, intensity, and scope is projected as shown below:

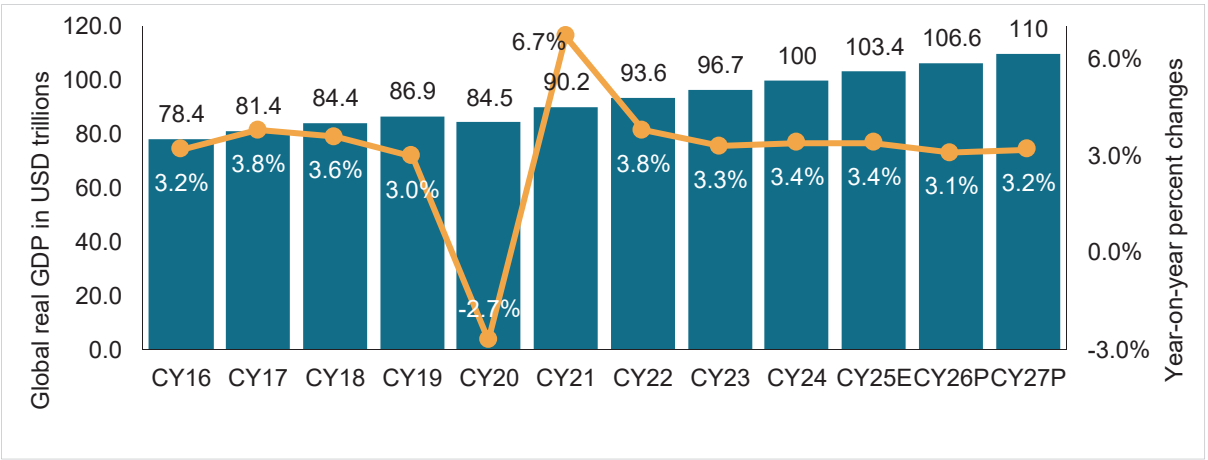
Scenario-based forecast approach taken by IMF

	Reference forecast	Adverse forecast	Severe forecast
Growth projection for global real GDP	3.1% in 2026 3.2% in 2027	2.5% in 2026 3.0% in 2027	2.0% in 2026 2.2% in 2027
Growth projection for global inflation	4.4% in 2026 3.7% in 2027	5.4% in 2026 3.9% in 2027	5.8% in 2026 6.1% in 2027

Source: IMF's World Economic Outlook - April 2026 update, Crisil Intelligence

As per IMF, most of the impact on growth in 2026 comes from higher energy prices, whereas most of the impact on growth in 2027 comes from tightening financial conditions and rise in inflation expectations.

Global real GDP trend and outlook, Calendar Year 2015 to 2027



Note: E: Estimated, P: Projection
Source: IMF, World Economic Outlook Update, January 2026; Crisil Intelligence

The forecast largely reflects the disruptions from the Middle East conflict, partly offset by reduced tariff rates, preexisting policy support, and stronger-than-expected outturns at the end of 2025 and the first quarter of 2026. However, significant variation is expected across countries, with lower-income net energy-importing economies being hit particularly hard through higher energy prices and foreign exchange depreciation. Impact is greater on emerging economies because of a combination of a larger exposure to higher commodity prices and disruption to energy production, a larger increase in inflation expectations, and a more pronounced tightening in financial conditions.

Variation in projections for different regions in adverse and severe scenarios

	Projections for adverse scenario	Projections for severe scenario
Inflation	• For Advanced Economies and China: increase by 50 basis points by 2027 • For Emerging Economies: increase by 90 basis points by 2027	• For Advanced Economies and China: increase by 100 basis points by 2027 • For Emerging Economies: increase by 130 basis points by 2027
Oil prices	• Rise by 80% starting in Q2 of 2026 • Fall to ~20% above baseline in 2027 • Return to historical norms in 2028	• Rise by 100% starting in Q2 of 2026 • Stay at 2026 level in 2027 • Return to historical norms in 2028
Gas prices	• For Europe, Asia: rise by 160% in Q2 of 2026	• For Europe, Asia: rise by 200% in Q2 of 2026

Source: IMF's World Economic Outlook – April 2026 update, Crisil Intelligence

Risks to the outlook remain tilted on the downside on account of escalation of geopolitical tensions, flaring up of trade-related disputes, re-evaluation of profit expectations regarding AI potentially leading to decline in investments and an abrupt correction in financial markets, and larger fiscal deficits and increasing public debt which could put pressure on long-term interest rates.

On the upside, economic activity could be further lifted by AI-related investment and supported by renewed momentum for structural reforms and by a sustained easing in trade tensions.

Among regions, Emerging & Developing Asia is the fastest growing

As per the IMF's WEO report in which 197 economies from all geographies in the world are classified into two broad categories, i.e. Advanced Economies and Emerging Market & Developing Economies, the April 2026 update notes that the Middle East conflict will have varied impact on growth across regions given differential exposure—through geographic proximity, financial flows, remittances, and energy dependencies.

Advanced Economies

Advanced Economies represent 43 out of the total 197 economies. Real GDP growth for advanced economies is projected at 1.8% for 2026 and 1.7% for 2027, with a large negative effect expected only in some net energy-importing economies, such as the Euro area and the UK.

United States: The US economy is projected to grow by 2.3% in 2026, supported by its net-energy-exporter status, lagged impact of its monetary policy rate cuts, productivity growth, and the associated carryover from a rebound in activity in Q1 of 2026 compared with Q4 of 2025 despite the rise in trade barriers weighing on the level of activity. In 2027, the US economy is expected to grow by 2.1% supported by a near-term fiscal boost from tax incentives, with moderating levels of technology-driven momentum and gradually fading productivity growth.

Euro area: Real GDP growth is expected at 1.1% in 2026 and 1.2% in 2027 as the impact of the planned increase in defense spending for most countries is likely to materialize in subsequent years because of commitments to reach target levels gradually by 2035. Additionally, given the Middle East conflict, the persistent rise in energy prices that began with Russia's invasion of Ukraine is expected to continue dragging on manufacturing.

Emerging Market and Developing Economies

Emerging Market and Developing Economies represent 154 out of the total 197 economies. GDP growth for Emerging Market and Developing Economies is expected to fall to 3.9% in 2026 but recover to 4.2% in 2027. For several South and Southeast Asian economies, disruptions resulting from the Middle East conflict are expected to shrink tourism and remittance inflows, which in turn, would weaken domestic demand.

China: China's economy is projected to grow by 4.4% in 2026 due to the lower US effective tariff rates on Chinese goods, and stimulus measures offsetting the negative impact of the Middle East conflict. However, in 2027, growth of China's economy will drop to 4.0% as structural headwinds—including those from a grinding slowdown in the housing sector, a declining labour force, decreasing returns on investment, and slower productivity growth—assert themselves.

India: India's economy is projected to expand by 6.5% in 2026 led by positive contributions from the carryover of the strong 2025 outturn and the decline in additional US tariffs on Indian goods from 50 to 10%, which outweigh the adverse impact of the Middle East conflict.

India is among the world's fastest growing major economies

As per the April 2026 update to the IMF's WEO, the world's largest economies by nominal GDP are those of the US, China, Germany, Japan, the UK, India, France, Italy, Russia, and Brazil. Among these, India's economy has been the fastest growing through all the years since 2021, and as per IMF's projections, it is expected to sustain its lead in 2026 and 2027. In terms of size of the economy based on nominal GDP in current US dollars, India held the 5th rank in 2024 but slipped to the 6th rank in 2025 due to the depreciation of its domestic currency against the US dollar.

A review of India GDP growth

India's real GDP to grow by 7.1% in Fiscal 2027

In February 2026, the Ministry of Statistics and Programme Implementation ("**MoSPI**") released a new series of national accounts estimates with base year of 2022 to 2023 to replace the 2011 to 2012 series. This base year revision is undertaken to capture structural changes in the economy and to improve coverage and accuracy. Fiscal 2023 has been selected as the new base year because it represents a recent normal year (after COVID).

Under the new 2022 to 2023 series, India's real GDP grew from ₹ 261.2 trillion in Fiscal 2023 to ₹ 322.6 trillion in Fiscal 2025, logging a CAGR of 7.3% between Fiscal 2023 and Fiscal 2026. Additionally, as per the Second Advance Estimate ("**SAE**") of the National Statistics Office ("**NSO**"), India's real GDP grew at 7.6% in Fiscal 2026. Major driver of this growth has been the manufacturing sector, which attained double-digit growth rates in both FY24 and Fiscal 2026. However, with the ongoing conflict between the US-Israel and Iran, India's growth is expected to moderate.

Since the economic impact of the Middle East conflict on India will depend on the scale, intensity and duration of the conflict, Crisil's forecast for Fiscal 2027 considers three scenarios among which the base scenario is predicated on four assumptions: one, another spell of normal monsoon this year (with a likelihood of El Niño conditions forming after August); two, benign food inflation in spite of an uptick from a statistical low-base effect; three, the price of Brent crude hovering at USD 75 to USD 80 per barrel; and four, steady global growth even as tariff- and geopolitics-led uncertainties persist. In contrast, the other two scenarios assume prolonged conflict. Specifically, the first alternative scenario is predicated on the conflict continuing till April-end, while the second alternative scenario is predicated on the conflict continuing beyond April-end.

Private consumption continues to anchor India's economic growth

India's private final consumption expenditure ("**PFCE**") grew by 6.4% between Fiscal 2023 and Fiscal 2026, wherein growth between Fiscal 2025 and Fiscal 2026 stood at 7.7%. This growth in consumption is supported by the positive impact of Goods and Services Tax ("**GST**") rate rationalization, stable employment conditions, rising real purchasing power, steady rural consumption resulting from strong agricultural performance, and gradual rise in urban consumption aided by the rationalization of direct and indirect taxes.

Key growth drivers of India's GDP

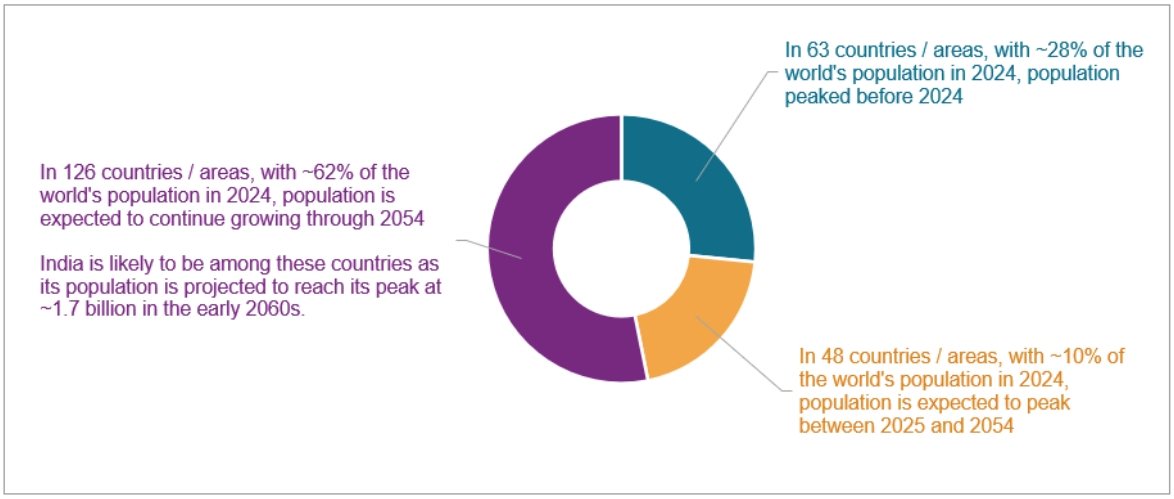
Demography	1	India has the potential to reap demographic dividends
Rising urbanisation	2	India's population is turning increasingly urban
Growing per capita income	3	India's per capita income grew by 4.9% in FY14-26

India has the potential to reap demographic dividends

As per World Population Prospects 2024 ("**WPP 2024**"), published in July 2024 by the United Nations, India's population grew from 1.1 billion in 2001 to approximately 1.4 billion in 2023, thereby registering a CAGR of approximately 1.4% between 2001 and 2023. Going forward, India's population is projected to expand at a CAGR of 0.8% between 2025 and 2030, and is expected to remain the world's largest throughout the century

In addition to the above, the WPP 2024 reports that in 2024, one in every four people lived in a country that has already peaked in size. To elaborate, the following chart illustrates where different groups of countries stand with respect to their population's peak size.

Distribution of countries/ areas based on their peak population size



Source: United Nations, Department of Economic and Social Affairs, Population Division. World Population Prospects 2024

Further, the WPP 2024 notes that there are approximately 100 countries / areas with youthful populations and declining fertility where the working-age population will grow through 2054, resulting in a time-bound window of opportunity for them to leverage their growing shares of working-age population (i.e. population between ages 20 and 64 years) for accelerated economic growth. In other words, there are about 100 countries / areas in the world that may reap demographic dividends. Notably, India is one of them.

In 2023, India's working-age population stood at 849.9 million commanding a share of 59.1% in its total population. This working-age population is expected to reach its peak when it touches the 967.7 million-mark in 2034 commanding a share of approximately 69.2% in India's total population. This implies that, India has a multi-decade window of opportunity for embarking on a path of accelerated economic growth.

This increasing share of working age population, coupled with overall economic growth will provide a larger consumer base for industries like entertainment, cruising, lifestyle products, etc. thereby driving greater consumer spending in consumer driven businesses. This growth in disposable income may also lead to an increase in spending on luxury and leisure sectors, including cruise, as consumers seek to enhance their lifestyle.

India's population is turning increasingly urban

India's urban population has been consistently increasing, and the trend is expected to continue as India's economy grows. People from rural areas move to cities for better education, job opportunities, and quality of life. This internal migration may involve the relocation of an entire family or the relocation of a family's earning members or students.

In 2001, India's urban population made up 27.9% of its total population at an estimated 300.8 million. As per WPP 2024, India's urban population is likely to grow to 567.7 million by 2030, making up 37.2% of India's total population. This trend highlights the need to expand infrastructure and provision of basic services in urban areas to accommodate its growing population.

India's per capita income grew by 6.6% in Fiscal 2023 to 2026

India's per capita income, a broad indicator of living standards, grew at a CAGR of 6.6% between Fiscal 2023 and Fiscal 2026, from ₹ 1,59,557 in Fiscal 2023 to ₹ 193,152 in Fiscal 2026. Growth was led by better job opportunities, propped up by overall GDP growth.

Growing middle income group

As per People Research on India's Consumer Economy (ICE) 360° survey, the proportion of poor in India (defined as those living on ₹ 125,000 per annum or less) declined from approximately 16% in Fiscal 2016 to approximately 14% in Fiscal 2021. Conversely, the proportion of those in the middle- and high-income groups increased from 85% to approximately 86% between Fiscal 2016 and Fiscal 2021 respectively. Moving forward, this share is expected to reach approximately 95% by Fiscal 2031, supported by growth in per capita income. Increasing income levels coupled with increasing share of discretionary spendings will also increase demand of higher value experiences across consumer-focused segments like retail, FMCG, FMCD, Hospitality, etc.

Increasing high income group in India to aid experience economy

As per People Research on ICE 360° survey, share of high-income group is projected to increase from 4% in Fiscal 2021, to 11% in Fiscal 2031. This increase in the high-income group is expected to fuel the demand for experience-based consumption. This, in turn is expected to positively impact industries like Cruise sector, hospitality, etc.

The income split of the population is based on annual household income at 2020 to 2021 prices.
Note: The low-income group comprises those earning less than ₹ 125,000 per annum, the middle-income group comprises those earning between ₹ 125,000 and ₹ 3 million per annum, and the high-income group comprises those earning more than ₹ 3 million per annum. Percent figures are rounded off.

Rural households bridge the gap between urban-rural consumption divide

According to the latest Household Consumption Expenditure Survey (HCES) FISCAL 2024 published by MoSPI, the average monthly per capita consumption expenditure (MPCE) was ₹ 4,122 for the rural sector and ₹ 6,996 for the urban sector in Fiscal 2024. Additionally, the disparity between the MPCE for rural and urban households decreased to 69.7% in Fiscal 2024 from 83.9% in Fiscal 2012, indicating higher growth in rural consumption compared with urban consumption during the same period.

Furthermore, consistent with the trend observed in HCES:2022 to 2023, non-food items remain the major contributor to the household's average monthly expenditure in 2023 to 2024 with about 53% and 60% share in MPCE in rural and urban areas respectively. This shift in rural spending habits reflects increasing spends on discretionary items beyond essential food consumption, thereby contributing to multiple industries catering to discretionary demand.

Pan-India consumption trend

Sector	Average MPCE (Rs)*		
	2011-12	2022-23	2023-24
Rural	1,430	3,773	4,122
Urban	2,630	6,459	6,996
Difference as % of rural MPCE	83.9%	71.2%	69.7%

Note: Estimates without imputation
The estimates of MPCE are based on Modified Mixed Reference Period (MMRP) in which information on household consumption expenditure on (i) edible oil; egg, fish & meat; milk and milk products; vegetables; fruits; spices; beverages and processed foods; pan, tobacco & intoxicants has been recorded for a reference period of "last 7 days", and (ii) clothing; bedding; footwear; education; medical (hospitalisation); durable goods recorded for a reference period of "last 365 days", and (ii) expenditure on all other items has been recorded for a reference period of "last 30 days".

Assessment of overnight ocean and coastal cruise industry in India

Cruise Tourism is a nature-based tourism segment which enables a country to leverage its' seas, rivers and canals for overnight and same day cruises across varied themes and across multiple budgets. Cruise tourism leverages a country's maritime infrastructure to contribute to tourism clusters, stimulating economic activity in coastal regions and empowering local communities through the creation of jobs and economic opportunities.

Importance of cruise tourism in India

India possesses significant potential in cruise tourism across both the coastal and river sectors, owing to its extensive maritime infrastructure. With its multiple ports along its approximately 11,099 kilometer coastline and a navigable network of 110 waterways spanning over 20,000 km, the country is well-positioned to develop this sector. Several states, union territories, and 1,300 islands benefit from proximity to coastal and riverine routes, creating vast opportunities for tourism expansion.

Additionally, the cruise tourism industry plays a vital role in generating direct employment, supporting professionals such as cruise crew, jetty operators, local tourist guides, cultural artists, boat operators, builders, and recyclers. It stimulates secondary employment in sectors like hospitality, restaurants, entertainment, and retail. Beyond economic benefits, cruise tourism fosters cultural exchange and strengthens regional integration. Local tourist destinations within a 50 to 100 km radius of cruise terminals experience increased demand, enhancing their visibility and economic viability. A robust cruise tourism sector would further bolster India's position in the global maritime industry.

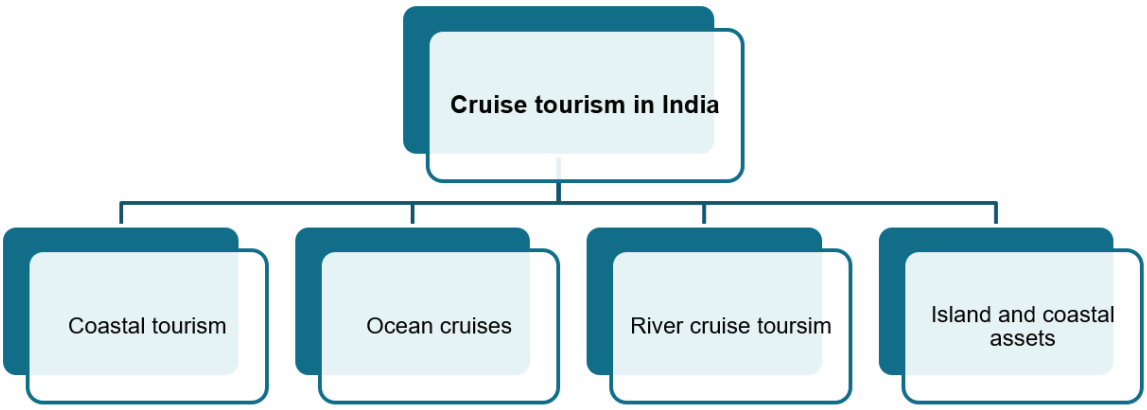
However, to realize its full potential, an integrated and coordinated approach is required, involving public and private sector stakeholders, including ports, shipyards, inland waterways, trade associations, and state governments. This will ensure the sustainable and rapid development of India's cruise tourism sector, leveraging its vast coastal and river assets for economic and cultural growth.

Types of cruise tourism in India

Additionally, cruise tourism can be further segregated to the following main cruise segments:

- Coastal Tourism (Domestic and Multi nation)
- Ocean cruises (International cruises)
- River Cruise Tourism (Inland waterways)
- Island and Coastal Assets

Cruise tourism in India



Source: Ministry of tourism, Crisil Intelligence

Coastal Tourism (Domestic and Multi nation)

India's vast coastline, spanning approximately 11,099 kilometres across nine states, two union territories, and two island territories, presents a significant opportunity for the development of coastal cruise tourism. Abundance of natural, cultural, religious, historic, and heritage tourism assets across the coasts further increases the potential for growth of this sector. Furthermore, the Indian Ocean Rim, with its 24,000-kilometer coastline, offers a vast and untapped market for cruise tourism, with the possibility of generating foreign exchange earnings and domestic tourism spends.

The coastal cruise tourism traffic in India is growing, with immense potential for ships home-ported at Indian ports to undertake coastal tours to countries across the Indian Ocean Rim under bilateral and multilateral treaties. These cruises can offer specialized Indian tourism experiences focused on natural, cultural, religious, or historic themes, utilizing the western, southern, and eastern coasts of India, which have the advantage of being integrated with various tourism assets, including religious, heritage, colonial, cultural, architectural, and natural attractions.

Ocean Tourism

Ocean cruises are long distance voyages between countries or continents, whereas coastal cruises are shorter distance cruises and are usually limited to the shores of the home port country or nearby countries covered under bilateral and multi-lateral treaties.

India’s extensive coastline presents a unique opportunity for the potential growth of ocean and deep-sea cruising, a rapidly expanding tourism segment globally. This sector has the potential to generate significant foreign exchange earnings from foreign flag, home-ported, and Indian flagged cruise vessels calling on Indian ports.

Several Indian ports, including Mumbai, Mormugao, Mangalore, Kochi, Chennai, Vishakhapatnam, Kolkata, Porbandar, Diu, and Somnath, are currently at various stages of development to accommodate international cruise operations. As India is strategically located on the route of many international cruise ships, it is essential to create a conducive environment to attract these vessels to Indian ports. However, this requires a highly integrated approach across multiple stakeholders, including shipping, ports, finance, customs, immigration, security, and agents.

By creating a favourable ecosystem, India can capitalize on the growing demand for ocean and deep-sea cruising, attracting more international cruise liners to its ports and generating substantial foreign exchange earnings. Hence, government of India has taken multiple steps to boost cruise tourism in India including launching of Cruise Bharat Mission, reducing cruise tariffs and charges, extending E-Visa and on-arrival visa facilities, and improving port infrastructure through schemes like Sagarmala, Maritime India Vision 2030, etc.

Rivers Cruises -Inland waterways

India has presence of extensive network of rivers, comprising approximately 400 waterways that span over 20,000 kilometers across 110 national waterways. These waterways, which include single and dual-state routes, as well as those that traverse multiple states, such as the 1,600-kilometre NW1 that stretches across Uttar Pradesh, Bihar, Jharkhand, and West Bengal, offer immense potential for river and canal cruise tourism. Despite the vastness of this network, only a small portion is currently being utilized, leaving a significant opportunity for growth and development.

The government of India has multiple initiatives to boost river cruise in India. Some of the key pointers are as follows:

- Berthing facilities: Floating pontoons have been placed at various locations for berthing of vessels and embarkation/ disembarkation of tourists.
- Fairway: Navigational fairway along with marking of the channel with navigational aids and electronic navigation chart for safe plying of cruise vessels.
- Pilotage: Pilots are provided on-demand for navigating the vessel in the waterway.
- Coordination with State Govt.: Assistance is provided to the cruise operators in close coordination with State Governments for facilitating the voyage.
- Assistance to the vessel in distress: IWAI provides high powered tug to tow the cruise vessel to the safe location when they are in distress due to mechanical failure or otherwise, on the National Waterway.

Additionally, The Inland Waterways Authority of India (IWAI), the nodal agenCalendar Year of the Ministry of Ports, Shipping and Waterways (MoPSW) for National Waterways, has signed Memorandum of Understanding (MoU) with multiple agencies of various state governments like Delhi and J&K to develop and boost cruise tourism.

Furthermore, under Cruise Bharat Mission (CBM), which was launched in September 2024, the government aims to increase the river cruise passengers to 1.5 million by phase III (up to 31.03.2029) through a framework for inter-ministerial approach.

River cruise passenger related KPI under Cruise Bharat Mission

KPIs	Phase I (up to 30.09.2025)	Phase II (up to 31.03.2027)	Phase III (up to 31.03.2029)
River cruise pax	0.5 million	1 million	1.5 million

Source: Ministry of tourism, Crisil Intelligence

Moreover, the government launched River Cruise Tourism Roadmap 2047 in 2024, which focuses on four vital pillars, including Infrastructure, Integration, Accessibility, and Policy for promoting river cruise tourism. Additionally, the roadmap has identified 30+ additional potential routes for different cruise types, including long & short, recreational and heritage segments to attract all tourist categories.

Hence, the potential for river cruise tourism in India is substantial, with the ability to generate considerable foreign exchange earnings and domestic tourism spends. Furthermore, there is also the possibility of linking these waterways with islands and neighbouring countries, creating a vast and interconnected network of river cruise routes. These cruises can cater to a range of segments, including economy, mid-market, and luxury, as well as specialized and niche tourism markets, offering same-day or overnight multi-day experiences.

Islands & Coastal Assets

India is home to an estimated 1,300 islands, with approximately half of them located in the union territories of Andaman and Nicobar, Lakshadweep, Dadra and Nagar Haveli, and Daman and Diu. Furthermore, India's coastline is dotted with numerous assets, including around 200 lighthouses, coastal museums, and riverbanks and embankments, which can be leveraged to enhance the country's cruise tourism offerings.

Ministry of Tourism has taken multiple initiatives to boost islands and coastal tourism in India. For example, in February 2024, the government developed 75 Lighthouses with tourist facilities in 10 states & UTs with an investment of ₹ 600 million. Additionally, the Ministry of Tourism has revamped the Swadesh Darshan Scheme as Swadesh Darshan 2.0 (SD 2.0) with the objective to develop sustainable and responsible tourism destinations, following a destination & tourism-centric approach and has notified 57 destinations in the country including Lakshadweep for development under SD 2.0. However, the overall global cruise industry is concentrated with the top four players holding the dominant market share. Furthermore, regulatory requirements coupled with capital intensive nature of the industry poses significant entry barriers for the industry and limits the entry of new players.

Overnight ocean and coastal cruise industry in India estimated to grow at 20 to 25% CAGR between Fiscal 2026 to 2031

The overnight ocean and coastal cruise industry in India is estimated to be valued at ₹ 8,301 million in Fiscal 2025, compared to ₹ 5,764 million in Fiscal 2020, reflecting a CAGR of approximately 8% between Fiscal 2020 to 2025. The industry witnessed a decline in Fiscal 2021 due to Covid-19 pandemic and subsequent travel restrictions. However, the market rebounded in Fiscal 2022 and Fiscal 2023 owning to pent up demand for leisure travel and entry of domestic cruise liner, which improved accessibility of the cruises.

Overall, the sector benefitted from increasing disposable incomes, rising aspirational travel among Indian consumers, and improved cruise infrastructure at key ports by government which aims to promote cruise tourism and enhance port connectivity. Compared to the global cruise industry, India's cruise tourism market is relatively nascent—with developing port infrastructure, growing consumer awareness.

However, in Fiscal 2026 the market is estimated have declined to ₹ 7,325 million (approximately 12% year on year decline), due to several headwinds including international macroeconomic uncertainties affecting global travel demand, fuel price volatility impacting cruise operating costs and ticket pricing, and broader geopolitical tensions disrupting international tourism flows.

Nonetheless, in medium term the market is projected to increase to ₹ 18,200 million to ₹ 22,500 million by Fiscal 2031P, implying a CAGR of approximately 20% to 25% from Fiscal 2026 to Fiscal 2031, driven by increase in total number of itineraries, infrastructure investments, growing domestic cruise adoption, and increased awareness about cruise travels.

However, given the nascent stage of cruise tourism in India, the projected growth trajectory remains contingent upon several critical monitorable factors. These include the pace and quality of port infrastructure development and modernization, the serviceability and operational efficiency of cruise liners operating in Indian waters, the expansion plans of cruise operators to the Indian market, stabilization of fuel prices and the extent of market penetration and adoption of cruise tourism among domestic travellers.

International cruise destinations are heavily influenced by customer origin, Mumbai and Goa ports busiest in India

International cruise destinations are significantly shaped by the origin of customers as well as passengers age, as cruise lines design their itineraries based on passenger demand, travel preferences, weather conditions and accessibility. Cruise companies also consider factors such as visa flight connectivity and economic conditions in source as well as in destination markets while deciding itineraries.

For example, North American travellers drive cruise demand for destinations like Caribbean, Alaska, etc. while European customers contribute to the popularity of locations like Mediterranean, Northern Europe, etc. Similarly, Asian passengers usually prefer cruising within Asia.

Similar to regional trends, Indian travellers typically prefer cruising to destinations across Asia, including Singapore, Sri Lanka, Thailand, Malaysia, etc. For domestic cruises, Mumbai, Goa, Cochin, Visakhapatnam, Puducherry, Lakshadweep, and Chennai are some of the popular locations.

Furthermore, customer origin also influences which ports become key embarkation point, with majority of customers preferring embark ports in and around customers' own country. Additionally, increasing demand for expedition cruises, luxury cruises, etc. further refines cruise routes with adventure-seeking travellers exploring exotic locations like Antarctica and Galapagos while leisure-focused customers opting for destinations with entertainment and leisure options.

Overall, cruise destinations are influenced by multiple factors including passengers' origin, purpose of travel, demographic profiles (age, social-economic status), seasonal weather conditions and accessibility. Collectively, all these elements play a crucial role in shaping cruise itineraries and offerings.

- To promote tourism, conditional IGST exemption has been approved for foreign flag foreign going vessel when it converts to coastal run, subject to its reconversion to foreign going vessel within six months.
- For berthing, cruise vessels are given priority over cargo vessels.
- Rationalized cruise tariffs have been introduced.
    - Port charges are recovered @ USD0.085/GRT (fixed rate) and a nominal passenger head tax of USD 6 for first 12 hours of stay at berth.
    - Cruise ships are provided with discounts ranging from 10% to 30% based on the volume of their calls.
- Ousting charges have been removed to attract cruise vessels.
- E-Visa and on-arrival visa facilities have been extended.
- Single e-Landing Card has been introduced which is valid for all ports in cruise itinerary.
- Cabotage has been waived for foreign cruise vessels. This relaxation allows foreign cruise ship to transport Indian nationals from one Indian Port to another Indian Port during its domestic leg.
- Provided a presumptive taxation regime for non-residents engaged in the business of operation of cruise ships subject to certain conditions. Further, exemption has been provided for any income of a foreign company from lease rentals of cruise ships, received from a related company which operates such ship or ships in India (subjected to prescribed conditions).

Maritime India Vision 2030

The Maritime India Vision (MIV) 2030, launched in 2021, provides a comprehensive framework for the holistic development of India's maritime sector, encompassing ports, shipping, and waterways. MIV 2030 outlines 150 initiatives aimed at propelling India to global maritime leadership.

Its 10 interconnected themes such as port infrastructure development, enhancing logistics efficiency, improving Indian shipbuilding tonnage, increasing coastal and waterway traffic, fostering technology innovation and policy support, promoting sustainability and global collaboration, address every facet of the maritime ecosystem, ensuring a well-rounded approach to transforming India into a leading maritime nation.

Furthermore, Ministry of Ports, Shipping and Waterways has introduced several new initiatives to advance the goals of the Maritime India Vision 2030 (MIV 2030) and Maritime Amrit Kaal Vision 2047 (MAKV 2047). Some of the major initiatives related to cruise tourism are as follows:

- With the government's commitment to transforming India into a global hub for cruise tourism, the Cruise Bharat Mission, launched by the Ministry of Ports, Shipping, and Waterways, aims to double cruise passenger traffic by 2029. This initiative includes developing world-class infrastructure, enhancing digitalization and decarbonization, and creating tailored fiscal and financial policies to support the growth of the cruise industry.
- Development of six new international cruise terminals to boost tourism and position India as a major global cruise destination (Kolkata, Porbandar, Ganpatipule, Diu, Somnath, and Konark).

Additionally, initiatives promoting cruise tourism and maritime services have further expanded employment prospects, contributing to economic growth and skill development in the sector.

Amrit Kaal Vision 2047

Ministry has formulated the Amrit Kaal Vision 2047, a comprehensive roadmap for the next 25 years. Maritime India Vision 2030 includes 10 themes like port infrastructure, logistics efficiency, and sustainability. The Amrit Kaal Vision 2047 expands on this with 11 themes including green initiatives, cruise sector promotion and technological innovation. Over 300 initiatives have been identified to transform India into a leading maritime nation.

Within Promote Ocean, Coastal & River Cruise Sector, 25 initiatives have been identified, of which the key initiatives for promoting ocean, coastal & river cruise sector in India include infrastructure initiatives such as developing cruise terminals and

marinas along the East & West Coast of the country and develop inland waterways for river cruises. Apart from infrastructure, policy initiatives are also proposed which include relaxing cabotage rules, extending e-visa facility to five ports, fiscal incentives in terms of custom duty exemption on consumables, reduction in GST on tickets etc. Other initiatives include updating the Standard Operating Procedures for cruise vessels in line with international standards, establishing a centralized fund under SDCL with capital to be provided by major ports for subsidizing the Ro Ro/Ro-PAX operations, capacity building through establishing training academies etc.

Key growth factors

Growing global cruise industry to support Indian cruise industry

Share of water in global inbound tourism improved in 2022

While air travel remained the preferred mode of inbound tourism, with its share increasing to 56% in 2022, from a low of 51% in 2020 and 55% in 2021, share of road transport fell to 39% in 2022 from a high of 43% in 2020, suggesting a return to precrisis transportation preferences. However, the share of water transport improved in 2022 to 4% compared to 3% in 2021, indicating increased demand for cruise tourism.

Cruise tourism further improved in 2024

Global ocean-going cruise passengers recovered in 2024 to 34.6 million, compared to 29.7 million 2019, driven by factors such as rising disposable incomes, experimental traveling, better on-board offerings and growing demand for premium luxury cruises.

Additionally, the expanding potential customer base of the cruise industry is also positively impacting the overall demand for cruises. Rising income levels coupled with increased awareness of cruise travel have made cruise travel more accessible to the younger age group. Simultaneously, an aging population with better financial stability and leisure time has contributed to the growth of premium cruises. The expansion of cruise itineraries to diverse and exotic places including Antarctica, etc. has also attracted new travellers to the cruise industry.

Furthermore, multiple cruise lines have expanded their onboard menu and entertainment options to ensure comfortable onboard experience. Many cruises cater to specific dietary needs of their onboard passengers by providing Halal, Jain, Kosher, Vegan options etc., ensuring a more inclusive experience for travellers across various backgrounds. Additionally, entertainment options have expanded beyond traditional performances to include performances as per travellers' music tastes like Bollywood, regional performances, etc.

Moving forward, the overall growth of the cruise industry is expected to be driven by expanding the potential customer base of cruise travellers alongside enhanced onboard offerings tailored to diverse travel segments (premium, luxury, expedition, contemporary, etc.). Additionally, the increasing awareness of cruise travel and its improving accessibility to a broader audience are expected to further contribute to the overall growth of the sector.

Growth in global cruise capacity to cater to increasing cruising demand

The global cruise industry is experiencing an expansion in overall cruise capacity, driven by investments in fleet growth by major cruise liners due to increasing popularity of cruising as a mode of vacation. The introduction of newer, more sophisticated cruise ships is not only aimed at accommodating the rising demand for cruising but also at enhancing onboard product offerings. Furthermore, the industry is also witnessing a surge in demand for smaller expedition cruise ships, driven by the increasing desire for immersive and experiential travel to remote places.

Overall global CLIA-member ocean cruise fleet size based on number of lower berths, was approximately 692,000 as of 2026 (CLIA-member cruise line fleet capacity accounts for approximately 91% of global ocean-going lower berths in 2026), compared to 539,000 in 2019. Moving forward, the overall capacity growth of cruise industry is expected to be driven by the introduction of new ships, the expansion of existing fleets, and the increasing popularity of niche cruising segments, such as expedition and luxury cruising.

Low penetration of cruise industry provides potential for future growth

As of 2025 (Fiscal 2026), estimated cruise penetration in developed markets like North America stood at approximately 5.7% whereas cruise market penetration of India stood at approximately 0.01%, indicating untapped potential. This low penetration of cruise industry in India coupled with growing awareness of cruising, improving port infrastructure, rising disposable incomes, increasing trend of experiential travel, etc. provides the industry massive growth opportunities for cruise operators to expand in India.

Key growth factors of Indian cruise industry

Foreign tourist arrivals in India decline by 9.4% in 2025 to 9.02 million

According to the provisional estimate Foreign Tourist Arrivals ("**FTA**") in India decline to approximately 9.02 million in 2025 from approximately 10 million in 2024, a 9.4% y-o-y decline. FTA registered mild growth rates of 3.5% in 2019, before falling approximately 75% to 2.7 million in 2020 on account of the Covid-19 pandemic. FTA fell further to 1.5 million in 2021 before recovering to 6.4 million in 2022.

The growth in FTAs is mainly driven by the post-pandemic revival of global travel, growing medical tourism in India, and increasing confidence in India as a diverse and culturally rich destination. Additionally, enhanced air connectivity has improved accessibility to key tourist spots, while continuous development of tourism infrastructure has elevated the visitor experience. Furthermore, targeted domestic and international marketing campaigns is expected to strengthened India's global appeal, which will positively impact Indian tourism sector, including cruising industry.

Improvement in port infrastructure and last-mile connectivity to promote cruise demand

The Indian government is focusing on the development of dedicated cruise terminals, modernizing ports, and enhancing last-mile connectivity to support ocean cruise tourism through schemes like Cruise Bharat Mission, Amrit Kaal Vision 2047, etc. Under Cruise Bharat Mission, the government will modernise existing cruise terminals, marinas, and destinations as well as concentrate on developing new cruise terminals, marinas, and destinations to enhance the potential of cruise circuits. This will enable growth of cruise tourism in India through improving port infrastructure and enhancing last mile connectivity.

Furthermore, as discussed, the Ministry of Tourism also provides financial assistance to the State Governments/UT Administrations and Central Government Agencies for development of tourism including Cruise Tourism and Cruising along rivers, under the Swadesh Darshan Scheme and scheme for 'Assistance to Central Agencies for Tourism Infrastructure development'.

Sustained demand for premium and luxury travel - a proxy for premium cruise industry's target customer demand in India

The premium-hotels segment (Crisil has included heritage hotels in the premium hotel segment for this assessment) grew at a CAGR of approximately 8.0% to 9.0% during Fiscal 2020 to 2025, outpacing the Budget and Mid-market segment's CAGR of 4.5% to 5.5%. This outperformance reflects the ongoing premiumization trend in Indian hospitality, driven by rising affluence, increasing preference for experiential and luxury accommodation, and growing demand from high-spending domestic and international travelers.

Moving forward, Crisil estimates demand for premium hotels will grow at 7.5% to 8.5% CAGR over Fiscal 2026 to 2031. Growth in this segment is expected on account of an sustain demand from leisure travel, social events, MICE, corporate travel, and domestic and foreign tourism.

This sustained demand of premium hotel segment, coupled with exposure to global lifestyles, growing preference of wellness travel, experiential travel and curated experiences serves as a proxy for the future demand of premium cruise experience in India and can positively influence growth of premium cruise industry in India.

Growing high income and middle-income group to increase target customer base of luxury and premium cruising

The rising disposable income of travellers, coupled with a growing appetite for premium experiences, is driving demand for high-end ocean cruises. Affluent travellers increasingly seek luxurious, all-inclusive experiences that provide premium hospitality, personalized services, and exclusive amenities. Hence, cruise liners are entering into this segment through upscale ocean cruises to cater to this demand by offering premium accommodation including private suites with ocean views, personal butler services, and VIP lounges.

Additionally, the demand for exclusive upscale experiences, like corporate retreats, destination weddings, etc. is also influencing the demand for premium and luxury ocean cruises.

As per People Research on India's Consumer Economy (ICE) 360° survey, the proportion of high-income group in India (defined as those earning more than ₹ 3 million per annum) increased from 3% in Fiscal 2016 to 4% in Fiscal 2021.

Moving forward, this share is expected to reach approximately 11% and approximately 26% by Fiscal 2031, supported by growth in per capita income. This increasing base of high-income people is expected to positively impact demand of premium cruise experience in India.

Changing customer preferences coupled with large young and working population expected to boost demand of experiential cruise travel

Modern travellers, especially young population, are shifting away from traditional vacations and are seeking immersive, experience-driven travel. For example, millennials and families, are looking for cruises that offer adventure activities, interactive workshops, and family-friendly experiences. Hence, multiple ocean cruises are catering to these preferences by incorporating onboard interactive workshops, adventure-based activities, themed experiences, and family-friendly entertainment.

Furthermore, there is a growing demand of on-board wellness experiences, which include spa treatments, fitness centres, fitness classes/ programs, healthy menu options, yoga, wellness guide, etc. Health-conscious travellers are drawn to cruises that

emphasize wellness while offering access to luxury wellness amenities. Moreover, there has been a growing demand for expedition cruises focused on exploring remote and exotic locations like Antarctica, Galápagos, Alaska, etc.

These evolving customer demands coupled with large base of young and working age population of India not only helps cruise liners in offering an immersive experience to their travellers but also opens new avenue streams for them as cruise liners can attract niche travellers willing to pay a premium for unique experiences including expedition travel, exclusive excursion tours, gourmet dining experience, and premium onboard entertainment options.

Demand for onboard entertainment and curated experiences to diverse revenue streams of cruise liners

Entertainment plays a critical role in ocean cruises, with passengers expecting a wide variety of onboard experiences including live performances, Bollywood-style shows, theatrical productions, disco nights, themed parties, etc. to remain engaged throughout their journey.

In addition to entertainment, curated experiences tailored to different demographics are becoming increasingly important- adventure-based activities such as rock climbing, etc for adventure seeking passengers; fine dining events, casinos, spa treatments for upscale travellers; on board wellness experiences like wellness guides, fitness classes, etc for health-conscious travellers; interactive kids' workshop for family friendly experiences.

These entertainment events and curated experiences not only enhance overall passenger engagement but also helps cruise operators in diversifying their revenue streams through ticketed events, VIP experiences, exclusive lounges, paid shows, etc.

Key challenges in domestic overnight ocean and coastal cruise industry

Challenges	Description
Capital intensive industry	The domestic overnight ocean and coastal cruise industry is a capital-intensive sector, requiring significant investments in infrastructure, vessels, and technology. The high upfront costs of establishing and operating a cruise competition and innovation in the industry. Additionally, the need for regular maintenance and upgrades to meet evolving regulatory and customer demands can further strain resources, making it challenging for operators
Disease outbreak conditions	Infectious disease outbreaks, including hantavirus and COVID-19 incidents, present critical challenges for cruise operations due to the enclosed, high-density nature of maritime environments. Such events necessitate robust health screening protocols, enhanced sanitation measures, and coordinated responses with public health authorities. Beyond immediate operational disruptions and potential quarantine requirements, these incidents also impact passenger confidence and regulatory compliance, thereby requiring investment in preventive health systems.
Global macroeconomic conditions	The domestic overnight ocean and coastal cruise industry is susceptible to macroeconomic headwinds, including inflationary pressures, volatile fuel costs, and

Challenges	Description
	geopolitical conditions that impact both operational expenses and consumer spending, thereby negatively affecting profitability and demand of cruise services.
Regulatory requirements	Regulatory requirements, including visa protocols, port access, and other compliance measures, can pose challenge to the growth of the domestic overnight ocean and coastal cruise industry. Complex and time-consuming visa requirements, limited port access, and stringent customs and immigration procedures can deter can negatively impact cruise passenger volumes. Moreover, varying regulatory requirements across different ports and countries can further increase challenges for cruise operators to plan and execute itineraries.
Tax regulations	The country's current GST rate and structure may prove to be an impediment in growth of the cruise tourism industry in India as compared to international benchmarks. Additionally, the tax structure including GST, TCS and Customs duties is an urgent area to be addressed to enhance cruise tourism in a holistic manner. However, the government has notified tax relaxations to promote cruise industry in India, which is expected to ease tax regulations on Indian cruising industry.
Lack of integration among various governing bodies	There is a need for integration and coordination between various government bodies at central & state level which is imperative to facilitate ease of doing business for cruise tourism. A national coordination body is required to address the same. However, a Task Force on Cruise Tourism has been formed jointly by the Ministry of Tourism and Ministry of Shipping with representatives of all major ports and stakeholders for coordinated efforts to create an enabling ecosystem for the development of Cruise Tourism in India.
Lack of port infrastructure	Currently in India, there are six operational cruise ports. However, ports with Cruise Terminals for large cruise ships, jetties / wharfs / quays / marinas for smaller cruise ships and yachts operating in shallower waters needs development. This underdevelopment of key cruise infrastructure may hamper the overall operations of cruise operators as well as cruise experience of travellers. This in turn may negatively impact the cruise industry of India.
Limited skilled professionals	Successful cruising operations require skilled professionals to ensure smooth and safe operations of cruises. However, limited number of skilled professionals pose a significant challenge for the cruising industry.
Seasonal and weather constraints	Weather and seasonal constraints further impact cruise operations of domestic cruise operators. For example, during monsoon season, the rough seas limit the operational window of the cruises. Additionally, any drastic change in weather conditions can disrupt cruise schedules and increase the risk associated with sea travel, which can adversely impact revenue of cruise operators. However, cruise operators may explore complimentary sea routes limiting loss of revenue. For example, in India during monsoon on west coast, domestic cruise operators sail/ operate from east coast to ensure revenue inflow.
Environment and sustainability concerns	Growing environment and sustainability concerns pose a challenge for cruising industry. Cruise activities near ecologically sensitive regions can damage the fragile ecological balance of these locations and contribute to marine pollution. Hence, there has been a growing regulatory focus on environmental aspects like emissions, waste management, etc. which can increase the operating costs of cruise liners.
Piracy concerns	Piracy, particularly in the Indian Ocean, poses a significant threat to maritime security and can disrupt cruise operations by causing delays, rerouting, or cancellations. This, in turn, can negatively impact the itineraries of cruise operators operating in the particular areas.

SWOT (Strengths, Weaknesses, Opportunities, Threats) Analysis

Strengths	Weaknesses
• A long coastline that can cater to international and domestic cruise liners • Growing middle class with increasing disposable income expected to boost demand for cruise tourism • Indian government has been promoting cruise tourism, with initiatives such as the development of cruise terminals, relaxation of regulations, and tax incentives, etc. which positively impact cruise sector in India	• Cruise vacations are still a niche segment in India due to limited consumer awareness and itineraries • Developing cruise infrastructure including cruise terminals and supporting infrastructure which might hamper the overall growth of the sector • Regulatory framework and tax structure for the cruise industry in India like country's current GST rate may prove to be an impediment • Limited number of skilled professionals pose a significant challenge for the cruising industry • Cruise operations have high capex requirements that can negatively impact the overall margins of the companies operating in this segment
Opportunities	**Threats**
• Currently, cruise industry in India is at very nascent state i.e. it is a greenfield industry, due to which it offers strong potential for cruise tourism • Investment in infrastructure, such as cruise terminals, marinas, and docking facilities, by the government • India can benefit from the increasing demand of global cruise tourism • Growing trends including women led travel, premiumization and experiential travel are expected to influence demand of cruise tourism in India • The domestic cruise industry is estimated to register significant growth of 35-40% CAGR (FY25-30) driven by rising awareness, increasing number of domestic tourists seeking luxury vacations, a growing middle class with disposable income, a rising interest in international travel, improved domestic cruise accessibility, and favorable government support.	• Changes in regulations, such as taxation or visa policies, especially for international itineraries can impact the profitability and growth of the industry • Alternative vacation options like air travel, resorts, hotels, etc. have better awareness levels and offer supporting infrastructure and extensive options, which can limit growth of cruise tourism. • Competition from other Asian countries like Singapore, Thailand, etc that have more developed cruise ecosystems

Porter's five forces analysis of Indian overnight ocean and coastal cruise industry

Porter's five forces	Description
Threat of new entrants: Moderate	• The Indian Ocean cruise industry is still in a nascent stage, which offers multiple opportunities to both domestic and international cruise liners to operate in this industry. Furthermore, government initiatives like Sagarmala, Cruise Bharat Mission, etc is also expected to improve the port infrastructure, which in turn will further influence the demand of cruise industry. • However, high capex and regulatory requirements (visa protocols, port access, etc) for the industry required for acquisition of cruise ships, regular maintenance, etc creates significant entry barriers for this industry. Hence, the threat of new entrants in this industry is moderate. • Additionally, due to the nascent stage of the industry, early cruise entrants would be playing a role in shaping the domestic cruise category in India
Power of customers: Moderate	• Limited cruise options in India reduces the bargaining power of the customers but availability of the other vacation/ travel options like air travel, resorts, etc. provide customers alternative options. • However, providing customized onboard experiences including Indian cuisine, Bollywood entertainment, etc. can help cruise operators differentiate and attract new customers.
Power of suppliers: Moderate	• Cruise operators have to rely on multiple stakeholders like ship manufacturers, fuel suppliers and F&B vendors, which limits the negotiating power of cruise operators. However, cruise liners usually enter into long-term contracts with these external stakeholders, which helps in mitigating the suppliers' bargaining power to some extent. • Due to this aspect, key corporate relationships in fleet acquisition and fleet leasing are a key differentiator in the industry
Competitive rivalry: Low	• In India, Cordelia Cruises operates one of the domestic cruise liners. However, multiple international cruises include India in their itineraries, which attract Indian travellers seeking international experience. Though not direct competition, these international cruises indirectly contribute to industry rivalry by reducing the potential customer base for domestic operators. • Furthermore, global cruise operators can enter Indian cruise industry in future seeing the potential of the Indian cruise industry and favorable factors like increased government initiatives, improvement in port infrastructure, and growing awareness of cruising. This in turn can escalate competitive rivalry of this industry.
Threat of substitutes: Moderate	• Other vacation and leisure travel options like air travel, luxury trains (for example Deccan Odyssey, Maharajas' Express etc.), high-end resorts, international vacations, etc. serve as alternatives for the cruising industry by providing upscale experiences. Additionally, domestic river cruises (Brahmaputra cruises, Ganga cruises, etc.) also provide alternatives to ocean cruise passengers. • However, domestic ocean cruise operators can differentiate themselves by providing immersive experience to their passengers through exclusive itineraries, personalized onboard offerings with strong Indian cultural influences (like Jain food, Bollywood themed entertainment options, etc.) and curated shore excursions; thereby limiting the threat of substitutes

Assessment of hospitality industry

Global tourism industry

Margins of global hotels, resorts and cruise lines is estimated to have improved in 2024

Overall revenue of global hotels, resorts and cruise lines is estimated to have grown by 8.2% in 2024, compared to 22.7% in 2023. In 2020, industry experienced a severe downturn with revenue growth contracting by -51.0% and net profit margins plummeting to -37.7% due to the outbreak of Covid-19 and subsequent travel restrictions, lockdowns and a drastic decline in consumer demand.

By 2021 there were signs of recovery due to the gradual opening of the economy with the revenue growth of the sector expanding by 25.4%. However, the net profit margins remained negative at -14.6% due to travel restrictions, low occupancy rates, limited consumer demand and business travel. However, in 2022 the industry witnessed a strong resurgence with revenue growth of 36.9% albeit with negative net profit margins of -0.6%. This rebound was majorly driven by the overall opening of the economy, mass Covid-19 vaccinations, revenge travel, growth in international tourism and increased consumer spending on travel experiences.

In 2023, the industry experienced a full recovery, achieving a y-o-y revenue growth of 22.7% driven by improved occupancy rates and higher average daily rates on account of revived travel demand from both business and consumer segments. The industry showed signs of moderation in 2024, achieving a y-o-y revenue growth of 8.2%, mainly on account of higher base effect. Consequently, net profit margins improved to 8.5% in 2023 and further to 9.6% in 2024, reflecting better profitability.

Classification and hotel concepts (India)

Hotels in India can be broadly classified based on:

- Star rating
- Location
- Level of service
- Theme

Hotels can be classified into luxury/premium, mid-market and budget category hotels

The Ministry of Tourism (MoT) classifies hotels in India based on star ratings as heritage hotels, five-star deluxe, five-star, four-star, three-star, two-star, and one-star. Are per Crisil's categorisation, luxury/premium hotels are those with a rating of five stars, five-star deluxe, and heritage hotels; mid-market hotels are those with three- and four-star ratings; and budget hotels are those with two and one star. Non-starred hotels include those awaiting classification by the MoT (i.e., hotels approved by the ministry, but not classified under any star category yet) and those that have not applied for any classification (i.e., they have received a licence from the requisite authorities but chose not to be classified under any star category).

Market size of the organised and branded hotel industry in India

Organised and branded hotel industry to grow at 7.0 to 8.0% CAGR from Fiscals 2026 to 2031

As per Crisil estimates, the organised and branded hotel industry (includes premium, mid-market and budget hotels, but excludes other budget accommodation such as apartments, villas, hostels and lodges) in India is estimated to be valued at ₹ 1,010 million to 1,030 million in Fiscal 2025, compared to ₹ 720 million to 740 million in Fiscal 2020, reflecting a CAGR of approximately 6.5% to 7.5% during Fiscal 2020 to 2025, supported by several structural factors including India's expanding middle class with rising disposable incomes, increasing domestic and international tourist arrivals, growing preference for branded accommodation experiences over unorganized alternatives, infrastructure development in tier-2 and tier-3 cities opening new markets, and government initiatives such as the 'Incredible India' campaign and visa liberalization measures aimed at promoting tourism.

In Fiscal 2026, the market is estimated to have grown to ₹ 1,125 million to 1,145 million, representing approximately 11% y-o-y growth, underpinned by multiple demand drivers including corporate travel, sustained leisure travel momentum, and Meetings, Incentives, Conferences, and Exhibitions ("**MICE**") and wedding-related demand which continue to shoulder the industry's growth. Improving domestic air traffic connectivity has further supported weekend and short-break leisure travel, enhancing occupancy rates across key markets. The diversified demand mix across corporate travel, leisure, MICE, and social events has provided a crucial buffer for the industry, even as FTAs have declined due to international macroeconomic uncertainties, geopolitical tensions, and competitive pressures from alternative global destinations.

Moving forward, the market is projected to reach ₹ 1,635 million to 1,655 million by Fiscal 2031P, implying a CAGR of approximately 7% to 8% from Fiscal 2026E to Fiscal 2031P. This sustained growth trajectory is expected to be driven by multiple catalysts including continued urbanization and rising aspirational travel among Indian consumers, expansion of branded hotel chains into untapped markets, growth in business travel as India's economy expands, and the premiumization trend with consumers increasingly preferring quality branded accommodation over unorganized alternatives. However, recovery and growth in FTAs, and macroeconomic conditions affecting discretionary spending will remain key monitorable.

Premium-hotel demand to clock 8 to 9% CAGR between Fiscals 2026 and 2031

In Fiscal 2025, the Budget and Mid-market segment accounted for approximately 47% to 49% of the market share, while the Premium and Heritage segment held 51% to 53%. This represents a shift from Fiscal 2020, when the Budget and Mid-market segment commanded a slightly higher share of 51% to 53% compared to 47% to 49% for Premium and Heritage hotels.

The Premium and Heritage segment has demonstrated stronger growth momentum, with a CAGR of approximately 8.0% to 9.0% during Fiscal 2020 to Fiscal 2025, outpacing the Budget and Mid-market segment's CAGR of 4.5% to 5.5%. This outperformance reflects the ongoing premiumization trend in Indian hospitality, driven by rising affluence, increasing preference for experiential and luxury accommodation, and growing demand from high-spending domestic and international travelers.

Moving forward, Crisil estimates demand for premium hotels will grow at 7.5% to 8.5% CAGR over Fiscals 2026 to 2031. Growth in this segment is expected on account of a sustain demand from leisure travel, social events, MICE, corporate travel, and domestic and foreign tourism. Premium hotels in popular or niche tourist destinations are also being looked at as venues for destination weddings, thereby addressing seasonality in demand. During the period, budget and mid-market hotels are expected to grow at 7.0 to 8.0% CAGR on account of improving demand from tier 2 and 3 cities, growing mid income travellers, and growing corporate travel, especially from SMEs, which prefer mid-market hotels.

Revenue growth momentum for hotel players is expected to have continued in Fiscal 2026

Fiscal 2022 and 2023 saw a strong y-o-y revenue growth of listed set at 86% and 88% respectively, post a decline of 5% and 61% in Fiscal 2020 and 2021 respectively due to Covid-19 pandemic and subsequent travel restrictions. Multiple factors including improved demand from MICE and leisure segment due to negligible Covid-19 cases contributed to better ARR and occupancies rates. This in turn contributed to the overall revenue growth of the players.

In Fiscal 2024, revenue grew by 20% over a high base of Fiscal 2023, while margins improved to approximately 35% due to cost rationalization efforts. The momentum was continued in Fiscal 2025 and revenue increased by 10% and margins increased to 36% owing to decline in variable expenses.

Source: Crisil Intelligence

Strong economic growth coupled with increasing per capita income

The Covid-19 pandemic had caused a temporary setback to the Indian economy in Fiscal 2021, leading to a decline in NNI per capita. However, the economy rebounded in Fiscal 2022, with NNI per capita rising 9.3% on-year to ₹ 94,054. Furthermore, NNI per capita further increased to ₹ 100,163 in Fiscal 2023 and ₹ 108,786 in Fiscal 2024.

Additionally, according to Fiscal 2025PE, per capita net national income (constant prices) is estimated to have further increased to ₹ 114,710; thereby registering a year-on-year growth of 5.4%. Rising income levels along with overall economic growth, is expected to boast the hospitality industry in India.

India's lower travel and tourism spend in comparison to global spending suggests headroom for growth

As per WTTC, travel and tourism spend indicates the direct, indirect and induced impact of sector on the economy. As a percentage of the GDP, the country's travel and tourism spend was 6.5% in Calendar Year 2023. It is projected to increase to 7.6% by Calendar Year 2034. India's travel and tourism spend is lower than the global average, indicating ample headroom for growth. Notably, China's travel and tourism spend is expected to make up 13.5% of its GDP in Calendar Year 2034, which is 2.1% higher than the global average of 11.4% and 5.9% higher than India's spending.

Changing customer preferences to increase demand of personalized and specialized services

The increasing focus on health and wellness is leading to a surge in demand for wellness and spa tourism, with travellers seeking holistic experiences. This trend is creating opportunities for hotels and resorts to offer specialized wellness programs, spa services, and healthy dining options. Additionally, the growing Indian middle class and increasing disposable incomes are driving demand for luxury and high-end segment services, with travellers seeking premium experiences, including upscale accommodations, fine dining, and personalized services.

The rise of experiential travel is another key trend driving growth in the industry, with travellers seeking unique and immersive experiences that allow them to connect with local cultures, communities, and environments. This trend is driving demand for activities such as culinary tours, adventure sports, and cultural workshops.

Overall, these shifting consumer preferences are expected to drive growth in the Indian hospitality industry and provide diversified revenue streams to the hospitality industry.

Foreign Exchange Earnings (FEE) registered a CAGR of approximately 4.3% between 2014 to 2025

Foreign Exchange Earnings (FEE) are receipts of the country as a result of consumption expenditure, i.e. payments made for goods and services acquired, by foreign visitors in the economy out of foreign currency brought by them.

In 2020 and 2021, FEE fell by approximately 57.6% and -33.6% respectively due to Covid-19 and subsequent travel restrictions. However, FEE of India rebounded in 2022 by approximately 146.9% as international travel gained momentum. In 2023, FEE again witnessed an increase of approximately 50.7% to USD32.2 billion.

Additionally, as per provisional estimates of 2025, FEE of India is estimated to have decreased to USD 31.3 billion from USD 35 billion in 2024, with a decline of 10.5% over same period of previous year on account of moderation in total FTA.

Overall, FEE of India registered a CAGR of 4.3% between 2014 to 2025. This increase in FFE of India over the period 2014-25 indicates growing spending by international tourists visiting India, which is expected to positively impact the overall tourism sector in India.

International Tourist Arrivals in 2024 increased by 9.0% to 20.6 million

As per the UNWTO definition, International Tourist Arrivals (ITAs) comprises two components namely Foreign Tourist Arrivals (FTAs) and Arrivals of Non-Resident Nationals.

ITA has been consistently increasing in India since 2014, baring 2020, when it witnessed a decline of approximately 65% on account of the Covid-19 pandemic and subsequent travel restrictions. However, as the economy opened up and travel restrictions eased, ITA increased to 7.0 and 14.3 million in 2021 and 2022 respectively. ITA grew in 2024 to 20.6 million, compared to 18.9 million 2023, registering a y-o-y growth of approximately 9.0%. In 2024, NRI and FTA formed 52% & 48% respectively of the total ITA, compared to 41%-59% split between NRI and FTA in 2014.

This growing influx of international travellers coupled with increasing FFE is expected to positively impact the overall hospitality industry in India.

Favourable government policies to boast travel and tourism sector in India

India's tourism sector, rich in heritage, culture, and diversity, is emerging as a global favourite and a key driver of economic growth. Recognizing its potential for employment-led development, the Union Budget 2025 to 2026 has allocated ₹ 25.4 billion to enhance infrastructure, skill development, and travel facilitation. With committed efforts, tourism is set to drive India's progress toward becoming a developed nation by 2047.

Some of the steps to promote travel and tourism in the country are as follows:

- A major initiative includes developing 50 top tourist destinations in partnership with states through a challenge mode, ensuring world-class facilities and connectivity. This initiative aims to elevate tourism infrastructure, improve ease of travel, and strengthen connectivity to key sites. As part of this framework, states will be required to provide land for critical infrastructure, including hotels, which will be classified under the Infrastructure Harmonized Master List (HML) to attract investments and boost hospitality services.

- Furthering this commitment, 40 projects across 23 states will receive interest-free loans for 50 years, amounting to ₹ 33.0 billion under the Special Assistance to States for Capital Investment. This funding will support the creation of globally recognized tourist destinations by facilitating their development and strategic marketing.

- Additionally, the Swadesh Darshan Scheme 2.0 (SD 2.0), which focuses on sustainable and responsible tourism, will continue to expand, with 34 projects already approved under this initiative, receiving ₹ 7.9 billion in total funding.

- To strengthen employment opportunities in the tourism sector, Government has allocated ₹ 0.6 billion for skill development in the financial year 2025 to 2026. This funding will support intensive skill-development programs for youth, including training in hospitality management and other tourism-related services.

- Development of tourism infrastructure via schemes such as Swadesh Darshan, Pilgrimage Rejuvenation and Spiritual, Heritage Augmentation Drive (PRASHAD), Adopt a Heritage, and Special Tourism Zones (STZ). These are focused on improving overall tourism infrastructure in the country and bringing it on par with international standards, which will help attract both domestic and foreign tourists

- Facilitative visa regime is a pre-requisite for increasing inbound tourism. The MoT engages with the Ministry of Home Affairs and Ministry of External Affairs to achieve this. As Ministry of tourism fiscal 2024 annual report, e-visa facility is available for 167 countries for entry through 31 designated international airports and "06 major seaports".

- RCS-UDAN was introduced with the main objective of facilitating regional air connectivity by making air travel affordable. Towards this end, the central government, state governments and airport operators offer concessions to reduce the cost of operations of airlines and financial support to meet gaps, if any, between the cost of operations and expected revenue on such routes. Under the RCS-UDAN-3, 46 tourism routes got air connectivity. These included iconic sites, of which eight routes have been operationalised to date. This is expected to have a cascading effect on the hospitality industry.

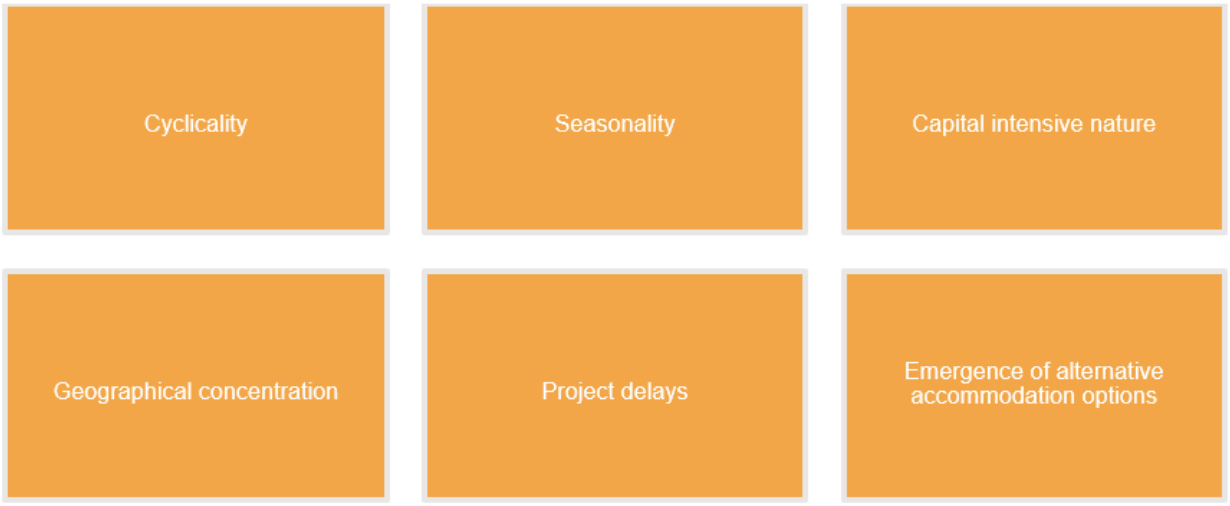
The government has also taken the following steps to support the hospitality sector:

- The Goods and Services Tax (GST) Council announced a cut in tax rate on hotel room tariffs; a move aimed at giving a boost to the hospitality sector. The GST rate on hotel rooms with tariffs of up to ₹ 7,500 per night has been cut to 12% from the existing 18%. Similarly, tax on rooms tariff above ₹ 7,500 has been slashed to 18% from the existing 28%. There will be no GST on room tariffs below ₹ 1,000 per night. GST on restaurants and eateries has been brought down to 5%, irrespective of whether they are air-conditioned or not.

Furthermore, the Government of India has taken various initiatives to promote domestic tourism, such as Dekho Apna Desh, PRASHAD, Vibrant Village Programme, SWADESH 2.0, and Regional Connectivity Scheme – Udaan. These efforts focus on raising awareness about key tourist destinations and products within the country and facilitating growth in tourism-related activities.

Challenges for the Indian hospitality industry

The Indian hospitality industry also faces certain challenges. Some of them are illustrated below.



Source: Crisil Intelligence

Hotel industry is cyclical in nature

The hospitality sector is cyclical in nature. During positive cycles, the industry witness periods of sustained growth and healthy average room rates (ARR) and occupancy rates (OR). This trend continues until the economy undergoes a downturn or when there is excess supply in the sector. Mirroring the economic climate, usually, occupancy rates begin to decline when recession sets in, which is followed by a decline in ARR. During the recovery phase, occupancy rates start to move up. Subsequently, ARR also start increasing.

Business destinations are more sensitive to macroeconomic factors i.e., RevPAR growth in business destinations is more sensitive to macroeconomic indicators such as GDP growth. On the other hand, Leisure destinations are more sensitive to non-economic factors such as terror attack and health related travel warnings.

In Fiscal 2023, occupancies shot up from 50% in Fiscal 2022 to 69%, due to strong demand from overall segments coupled with recovering international passengers. Rising OR pushed the ARR price which led RevPAR to grow at new highs. Fiscal 2024 witnessed rise in ARR by 11%, as supply is expected to grow at a steady pace, keeping demand uptight and rising demand from business, leisure and international travel coming to pre-pandemic levels will drive the OR at new highs. Fiscal 2025, is estimated to witness a ARR growth of 7 to 8%, owing to demand being above or near to approximately 70% occupancy for most of the places.

Hotel industry is highly capital-intensive industry

The hotel industry is very capital intensive in nature. Huge capital is required to ensure smooth flow of operations from commencement of construction till the time they are functional. Even after being operational, a hotel takes a few years to attain stable occupancy. The typical break-even period for premium hotels is around 5 years. Hence, it is imperative to also have an ability to bring in funds, to ensure sufficient cash flows for repayment of debt as well as for continued operations of the hotel till break-even occurs.

Project delays can lead to cost overruns

One of the major risks involved in the hotel industry is the construction related risk. Various factors such as change in project scope, change in operator, clearances from the government etc hamper the projects execution and can result in delays, translating into cost overruns and impacting the financial profile of the developers.

Talent pool remains an issue due to the shortage of skilled staff

Shortage of trained and experienced staff remains a major concern for the hotel industry. Rapid expansion by hotel chains has outpaced demand for the requisite talent pool over the past few years and the scenario is expected to continue in the short-to-medium term. This has prompted major hotel chains to operate their own training institutes or vocational programmes. Additionally, employee costs across guest services, housekeeping and kitchen management, along with managerial positions, form a major share of a hotel's operating costs and these are independent of occupancy levels.

Emergence of alternative accommodation options could pose a threat in the long term

The past few years have seen the emergence of several alternative accommodation options, which are gaining traction among travellers. Travellers, especially urban millennials, are increasingly looking at homestays, self-catering villas, camps, and farmhouses as alternatives to conventional hotel rooms in a bid to experience the authentic culture and cuisine of a destination. Many such places also offer related activities, such as farming, fruits or vegetable picking, and pottery, which add to the authenticity. Typically, such alternative accommodations are also economical compared with hotel stays. Moreover, reviews on

social media platforms and online travel portals have also played a role in popularising such options and tackling the issue of safety and security at the same time. Several online travel portals have come up to cater exclusively to these experiences, indicating the growing popularity of such options.

Another popular concept is Airbnb, which allows homeowners to host travellers in their houses for a price. Many young travellers are choosing Airbnb to get a taste of local culture. Couchsurfing, which allows travellers to find free-of-cost accommodation at the homes of like-minded travellers, is also fast gaining popularity as an option to experience local culture while networking with people of similar tastes.

Even though most of these options are still at a nascent stage in India, they may pose a challenge to the more formal hotel industry in the medium-to-long term.

Geographical concentration

Hotels players having presence restricted to only certain locations face uncertainties in the event of localized incidents leading to a decline in demand, increase in competition etc. Presence across different geographies helps a company avoid concentration of risk associated with any particular market.

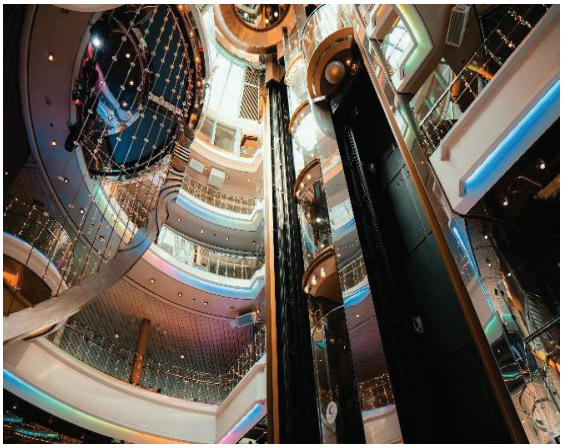
OVERVIEW

We are one of the domestic ocean cruise operators in India *(Source: CRISIL Report*), offering luxurious and inherent Indian experiences. We believe this enables us to set industry benchmarks, foster brand loyalty, and establish pricing standards, thereby strengthening our market presence and creating a strong competitive position. We currently operate a cruise vessel, the 'MV Empress', and since our launch, 730,819 guests have sailed on our cruise vessel, which has covered more than 321,292.53 nautical miles along the Indian coastline and surrounding islands as of March 31, 2026. In Fiscal 2025, we accounted for approximately 79% of the market share in value terms. (*Source: CRISIL Report*) Our cruise vessel primarily sails to domestic destinations such as Mumbai (Maharashtra), Goa, Kochi (Kerala), Chennai (Tamil Nadu), Lakshadweep, Visakhapatnam (Andhra Pradesh), and Puducherry. We have in the past and continue to offer international itineraries to Hambantota, Trincomalee, and Jaffna (Sri Lanka), Phuket (Thailand), Singapore, Kuala Lumpur and Langkawi (Malaysia). Our itineraries are designed to showcase India's coastal regions and cultural heritage, providing guests with an enriching travel experience and establishing ourselves as the go-to choice for luxury and cultural cruising. Our cruise vessel 'MV Empress' offers a variety of cabin options, including one chairman's suite, five suites, 63 mini suites, 416 ocean-view staterooms, and 311 interior staterooms, totaling 796 cabins, with prices ranging from ₹ 34,164 (interior rooms) per night to ₹ 151,111 (Chairman suite) per night, subject to dynamic pricing and load factor considerations.



Our cruise experience is designed to cater to the preferences of Indian guests and international travelers visiting India, offering an immersive journey into India's rich culture, cuisine, and warm hospitality. Every aspect of the voyage is curated to provide an authentic Indian experience, ensuring that guests feel the essence of India while sailing. We offer a diverse culinary experience, providing a variety of food options such as pan-Asian, international, and Indian cuisine, including Jain food options. We also organize live performances and themed shows inspired by Indian Cinema such as 'Indian Cinemagic', 'Balle Balle', 'Burlesque – Bollywood Way', 'Razzmatazz', and 'Romance in Bollywood'. We offer a wide range of amenities for all age groups, including a children's academy, gaming arcade, spa and salon, retail outlets, casino, fitness center, a rock climbing wall, and swimming pools. We also offer specialized arrangements for Meetings, Incentives, Conferences, and Exhibitions

("**MICE**") events and weddings, with comprehensive services that include venue arrangements, catering, entertainment, and accommodation.

We have strategically outsourced critical cruise operations to enhance efficiency and scalability. We leverage third-party expertise in areas such as food and beverages, housekeeping, crewing, and entertainment. This enables us to tap into their knowledge and resources, ensuring quality service delivery. This flexibility also enables us to scale our operations based on seasonal demand, manage resources effectively and maintain service standards. Outsourcing allows us to concentrate on our core activities, ensuring an enhanced customer experience and expanding our cruise offerings.

Our guests have options to book their cabins either directly with us through our website, mobile application and over the phone, or through third-party travel agents. Historically, a majority of our cabins have been booked directly with us, reflecting our guests' trust and preference for our straightforward and efficient booking process. For the Fiscal 2026, 2025 and 2024, we directly sold 62.25%, 62.98% and 59.96% of the total cabins, respectively. Direct bookings reduce commissions paid to travel agents and improve our margins. It also provides an additional opportunity to directly engage with our guests, enabling us to strengthen our brand awareness and deliver a more personalized and memorable experience. As of March 31, 2026, our direct booking is supported by our call centers, which employs 148 cruise holiday experts. Their contribution enhances the efficiency and effectiveness of our direct sales, ensuring seamless customer interactions and booking experiences. For further details, see *"- Strengths - Significant direct bookings optimizing margins*" on page 191.

The overnight ocean and coastal cruise industry in India is estimated to be valued at ₹ 8,301 million in Fiscal 2025, compared to ₹ 5,764 million in Fiscal 2020, reflecting a CAGR of approximately 8% between Fiscal 2020 and Fiscal 2025, and in medium term the market is projected to increase to ₹ 18,200 million to ₹ 22,500 million by Fiscal 2031, thereby registering a CAGR of approximately 20% to 25% from Fiscal 2026 to Fiscal 2031, driven by increase in total number of itineraries, infrastructure investments, growing domestic cruise adoption, and increased awareness about cruise travels. *(Source: CRISIL Report*) Further, as of 2025 (Fiscal 2026), estimated cruise penetration in developed markets like North America stood at approximately 5.7% whereas cruise market penetration of India stood at approximately 0.01%, indicating untapped potential. This low penetration of cruise industry in India coupled with growing awareness of cruising, improving port infrastructure, rising disposable incomes, increasing trend of experiential travel, etc. provides the industry massive growth opportunities for cruise operators to expand in India. *(Source: CRISIL Report*) With the Government of India's commitment to transforming India into a global hub for cruise tourism, the Cruise Bharat Mission, launched by the Ministry of Ports, Shipping, and Waterways, aims to double cruise passenger traffic by 2029. This initiative includes developing world-class infrastructure, enhancing digitalization and decarbonization, and creating tailored fiscal and financial policies to support the growth of the cruise industry. *(Source: CRISIL Report*) We are well-positioned to capitalize on industry tailwinds by leveraging our existing cruise vessel and introducing two new cruise vessels, 'Norwegian Sky' and 'Norwegian Sun', each with a capacity of up to 2,004 and 1,936 guests respectively. We also intend to introduce new cruise itineraries and destinations tailored to various traveller segments, including families, couples, and corporate groups, and enhancing our service offerings with upgraded dining options featuring specialty restaurants and local cuisine, upgrading cabins with modern amenities and private balconies, and introducing new entertainment options such as live performances and international acts. These initiatives are designed to meet the growing demand for cruise experiences in India.

We are committed to shaping India's domestic cruise ecosystem through policy reform, regulatory evolution, and infrastructure development. For example, we advocate for regulatory support for Indian-operated cruise lines, addressing the structural disadvantages they face compared to foreign cruise companies in areas such as taxation, port costs, and flexibility. Our Chairman, Chief Executive Officer and Executive Director, Jurgen Bailom, as Chairman of the Indian Cruise Lines Association, submitted an industry white paper titled "*Recommendations for the Indian Cruise Industry*" in 2018. This paper outlined necessary reforms in port tariffs, GST on cruise tickets, visa processing, and domestic infrastructure. In the past, we have made representations to the Government of India to reduce or exempt GST on cruise fares, aiming to align pricing with international standards and make cruising more accessible to Indian consumers. Further, when the Mumbai International Cruise Terminal at Mumbai Port underwent redevelopment from 2023 to 2025, we developed and operated a fully functional temporary cruise terminal at Green Gate, Mumbai Port. This ensured cruise operations during this period. We managed passenger embarkation and disembarkation processes, ground handling logistics, and set up screening, check-in counters, and baggage handling zones.

We benefit from the experience of our management team in the cruise industry. The Chairman of our Board, Executive Director and Chief Executive Officer, is Jurgen Bailom. He is a Certified Hospitality Supervisor from the Educational Institute of the American Hotel & Motel Association. He has passed the examination to prove competence for the hospitality industry. He also holds a master's degree in business administration in Hotel Management from Canterbury University. He is the founding member of the Indian Cruise Line Association. He has experience in cruise line and shipping, hospitality, resort and tourism industry and he was previously associated with Zen Cruises Private Limited, Vidanta Grupo, RCL Geo LLP, Celebrity Cruises, Tui Cruises, Skyseas and Pullmantur Cruceros, Maho Group, Royal Carribbean International and with Island Cruises PLC. He has been associated with the Company since 2020.

The overnight ocean and coastal cruise industry in India is estimated to be valued at ₹ 8,301 million in Fiscal 2025, compared to ₹ 5,764 million in Fiscal 2020, reflecting a CAGR of approximately 8% between Fiscal 2020 to Fiscal 2025. However, in Fiscal 2026 the market is estimated have declined to ₹ 7,325 million (approximately 12% year on year decline), due to several headwinds including international macroeconomic uncertainties affecting global travel demand, fuel price volatility impacting cruise operating costs and ticket pricing, and broader geopolitical tensions disrupting international tourism flows. Moving forward, in medium term the market is projected to increase to ₹ 18,200 million to ₹ 22,500 million by Fiscal 2031, thereby registering a CAGR of approximately 20% to 25% from Fiscal 2026 to Fiscal 2031, driven by increase in total number of itineraries, infrastructure investments, growing domestic cruise adoption, and increased awareness about cruise travels. The related charges were included in the lease rentals or time charter fees billed to our Company by the Corporate Promoter.

The expertise of these third-party service providers enables us to leverage their knowledge and resources, ensuring quality service delivery in customer service, food and entertainment while focusing on our core business activities. This approach allows us to optimize our labour costs and reduce operational expenses by minimizing overheads associated with maintaining full-time staff for these operations. This flexibility enables us to scale our operations based on seasonal demand, manage resources effectively and maintain our service standards. Outsourcing allows us to concentrate on our core activities ensuring an enhanced customer experience and expanding our cruise offerings. This strategic focus helps us to prioritize maintaining and improving the quality of our services and direct our efforts towards our guests ensuring they receive a satisfactory experience on board.

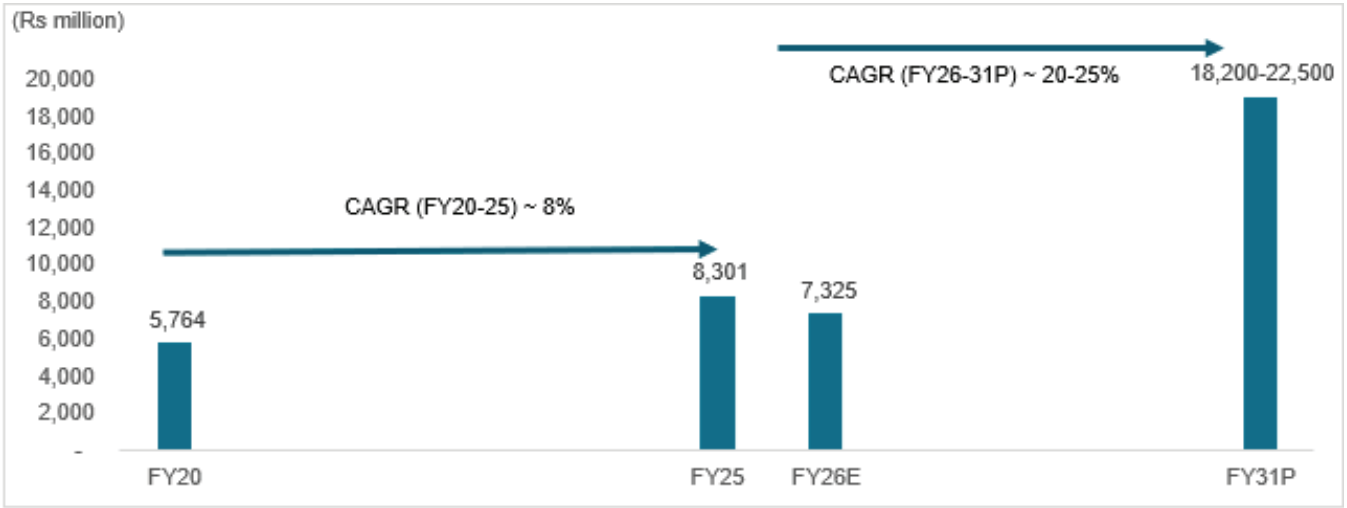
Introduce new cruise vessels to meet growing demand

We are currently operating one cruise vessel with a passenger capacity of 2,005 guests. In medium term, the market is projected to grow from ₹ 18,200 million to ₹ 22,500 million by Fiscal 2031, implying a CAGR of approximately 20% to 25% CAGR from Fiscal 2026 to Fiscal 2031 driven by increase in total number of itineraries, infrastructure investments, growing domestic cruise adoption, and increased awareness about cruise travels. *(Source: CRISIL Report*) The chart below sets forth the market size of the ocean and coastal cruise industry in India:



Note: Kindly note that the above growth projections are based on the expansion plans of Waterways Leisure Tourism Limited as well as government initiatives to boost cruise tourism in India.

**CRISIL has estimated the overnight ocean and coastal cruise industry in India considering domestic and international passengers embarking (onboarding) from India on cruise liners towards Indian and global destinations. The domestic passengers (traveling within India) have been estimated using data gathered from the industry and publicly reported by Ministry Of Ports, Shipping & Waterways. The current market definition considers (1) Estimated passengers who are embarking (onboarding) from India on either international cruise liners or domestic cruise liners, towards global destinations; and (2) Estimated passengers embarking (onboarding) from India on domestic cruise liners traveling within India. Kindly note Crisil has only considered passengers embarking (onboarding) on the cruise ships.*

This strategic move is part of our initiative to enhance operational efficiency through asset-light fleet expansion. It will also enable us to focus on vessel standardization across core areas, streamlining procurement, training, and maintenance processes. This will help us optimize costs and achieve better margins. Our Company proposes to invest a portion of the Net Proceeds in our Subsidiary, Baycruise Shipping and Leasing (IFSC) Private Limited for payment of lease rentals, post the delivery date of the new vessels. For further information, see "*Objects of the Issue - Payment towards deposit/ advanced lease rental and monthly lease payments to our step-down subsidiary, Baycruise Shipping and Leasing (IFSC) Private Limited ("Baycruise IFSC")*" on page 103.

By launching these new itineraries, we aim to reconnect with past guests by offering fresh and exciting travel options. We anticipate that these enhanced offerings will encourage higher guest retention, increase repeat bookings, and ultimately boost customer lifetime value. Our goal is to provide enriching experiences that inspire guests to return and explore more destinations with us. By expanding to include additional domestic and international destinations, we aim to meet the growing demand from Indian tourists seeking new vacation experiences. This will help position us as a choice for both domestic and international travelers looking for luxury sailing at sea.

With the Government of India's commitment to transforming India into a global hub for cruise tourism, the Cruise Bharat Mission, launched by the Ministry of Ports, Shipping, and Waterways, aims to double cruise passenger traffic by 2029. BUSINESS OPERATIONS

Our Cruise Vessel and Itineraries

As of March 31, 2026, we operate one cruise vessel, the "MV Empress", under the brand name '*Cordelia Cruises*'. Our Company operates as the vessel operating entity, while BCII, our wholly-owned Subsidiary, owns the vessel 'MV Empress'. BCII was earlier a subsidiary of our Corporate Promoter, Global Shipping and Leisure Limited. Our Company had a time charter arrangement with our Corporate Promoter for the operation of cruise vessel. Under this arrangement, our Company was required to pay the time charter charges that included the lease rental for 'MV Empress' and other expenses such as maintenance, insurance, and technical crew salaries. On February 12, 2025, our Company terminated the time charter arrangement with our Corporate Promoter and entered into a new time charter agreement with BCII ("**Time Charter Agreement**"). Subsequently, we entered into an addendum dated March 19, 2025 to the aforesaid Time Charter Agreement, pursuant to which our Company is required to pay the time charter charges amounting to USD 3,500 per day and is responsible for incurring and reimbursing BCII for expenses related to the maintenance of the cruise vessel. Further, by way of the addendum dated September 22, 2025, payments in relation to the charter hire and other charges are modified i.e., charter hire payments are to be made in full, without any deductions, set-offs, or withholding taxes, and where any withholding or tax deduction is mandated by an authority, the Company must gross up the payment so that the BCII receives the full net amount as if no deduction had been made. Subsequently, by way of the addendum dated December 15, 2025, effective from December 15, 2025, the Company is permitted to create liens, mortgages, or other security interests over the Vessel "MV Empress".

Typically, the cabin price includes accommodation, complimentary meals and beverages at the food court and 'Starlight' restaurant, access to the swimming pool and fitness center, access to all public areas and lounges, live band performances, and entertainment shows. We also offer 'Special Price' discounts on select sailings, revised early bird offers providing discounts of up to 25% for bookings made 90 days or more in advance, and promotional schemes such as 'Kids Sail Free'. In addition, we offer '1 or 2 Nights Off' on cabin fare for select itineraries, 'Best Price Guarantee', 'Risk-Free Cancellation' with flexibility up to 8 days prior to sailing, and 'No-Cost EMI' payment options. The Food Safety and Standards Act, 2006 (the "FSS Act") and regulations thereunder

The Food Safety and Standards Act, 2006, consolidates the laws relating to food and establishes the Food Safety and Standards Authority of India (the "**Food Authority**"), for setting out scientific standards for articles of food and to regulate their manufacture, storage, distribution, sale, and import, to ensure availability of safe and wholesome food for human consumption and for matters connected therewith or incidental thereto. The Food Authority is required to provide scientific advice and technical support to the Government of India and the state governments in framing the policy and rules relating to food safety and nutrition. The FSS Act also sets out requirements for licensing and registering food businesses, general principles for food safety, and responsibilities of a 'food business operator' and liability of manufacturers, packers, wholesalers, distributors and sellers, and adjudication process. The Food Safety and Standard Regulations, 2011 lay down duties of a food safety officer, which, among others, include ensuring that food business operators are complying with the requirements pertaining to manufacture, handling, and packaging of food articles, along with the conditions of the license granted to them for various food products.

In exercise of powers under the FSS Act, the Food Authority has framed, inter alia, the Food Safety and Standard Rules, 2011 ("**FSSR**"). The FSSR sets out the enforcement structure of 'commissioner of food safety', 'food safety officer' and 'food analyst' and procedures of taking extracts of books of accounts and other relevant documents, seizure of food articles, sampling of food articles and analysis.

According to the Food Safety and Standards (Licensing and Registration of Food Business) Amendment Regulations, 2018, an ecommerce FBO (which includes sellers and brand owner who display or offer their food products, through ecommerce, and providers of transportation services for the food products and/or providing last mile delivery transportation to the end consumers), is required to obtain central license from the concerned central licensing authority.

Maritime laws

India's maritime jurisdiction and rights are also governed by the provisions of the (i) Territorial waters, continental shelf, exclusive economic zone and other maritime zones Act, 1976, as amended from time to time. It establishes the limits of India's territorial waters continental shelf and exclusive economic zones and grants the central government sovereignty over these zones for exploration and exploitation of natural resources; and (ii) Admiralty (Jurisdiction and Settlement of Maritime Claims) Act, 2017, has been enacted to consolidate the laws relating to admiralty jurisdiction, legal proceeding and connection with the vessel, their arrest, detention, sale and other matters connected therewith or incidental thereto.

Under statute, India provides for trademark protection under the Trade Marks Act, 1999, copyright protection under the Copyright Act, 1957, and design protection under the Designs Act, 2000. The above enactments provide for protection of intellectual property by imposing civil and criminal liability for infringement.

The Trade Marks Act, 1999 (the "Trade Marks Act")

The Trade Marks Act governs the statutory protection of trademarks and prevention of the use of fraudulent marks in India. It provides for the application and registration of trademarks in India. It also provides for exclusive rights to marks such as brand,label, and heading and to obtain relief in case of infringement for commercial purposes as a trade description. Under the provisions of the Trade Marks Act, an application for trade mark registration may be made with the Controller General of Patents, Designs and Trademarks by any person or persons claiming to be the proprietor of a trade mark, whether individuallyor as joint applicants, and can be made on the basis of either actual use or intention to use a trade mark in the future. 2. Summary of material accounting policy information

(a) Basis of preparation

The restated financial information have been prepared on accrual basis under the historical cost basis except for certain financial instruments and defined benefit plan that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

- Level 3 inputs are unobservable inputs for the asset or liability.

(b) Basis of Consolidation

Subsidiary is the entity over which the holding Company has control. Control exists when the holding Company has power over the entity, is exposed, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. The financial statements of subsidiary is included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The financial statements of the holding Company and the subsidiary Company are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intragroup balances and intra-group transactions in accordance with Indian Accounting Standard (Ind AS) 110 -“Consolidated Financial Statements”.

As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements.

Consolidated financial statements include consolidated balance sheet, consolidated statement of profit and loss, consolidated cash flow statement, consolidated statement of changes in equity and the summary of material accounting policies and other explanatory information that form an integral part thereof.

Consolidated subsidiary is having consistent reporting date of 31 March 2026.

Following are the details of the subsidiaries consolidated in these financial statements.

Name of the entity	Country of incorporation	Interest (in %)		
		31 March 2026	31 March 2025	31 March 2024
Bay Cruise Investments Inc. (Wholly owned subsidiary)	British Virgin Island	100%	100%	None
Baycruise Shipping and Leasing (IFSC) Private Limited (Step down subsidiary)	India	100%	100%	None

Consolidation Procedure:

i. Combine like items of assets, liabilities, equity, income, expenses, and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.
ii. Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
iii. Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group. Profits or losses resulting from intragroup transactions that are recognized in assets, such as inventory and fixed assets, are eliminated in full. Intragroup losses may indicate an impairment that requires recognition in the consolidated financial Statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Holding Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses, and cash flow relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

• Derecognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost,
• Derecognises the carrying amount of any non-controlling interests,
• Recognises the fair value of the consideration received,
• Recognises the fair value of any investment retained,
• Recognises any surplus or deficit in profit or loss.

Appendix C of Ind AS 103 on Business Combination:

The acquisition accounting is being done based on Appendix C of Ind AS 103 on Business Combination among common control entities as the Holding Company and the acquired entity i.e., Bay Cruise Investments Inc. were part of the same group. Accordingly, the financial information in the consolidated financial statements in respect of prior period i.e., 31 March 2024 has been restated as if the acquisition had occured in the prior period from the date the entities are under common control i.e., 30 November 2023.

(c) Revenue recognition

Revenue is recognised upon completion of performance obligation. The following specific recognition criteria must also be met before revenue is recognised:

Sale of cruise tickets

Revenue from sales of tickets is recognised as cruise revenue, on the date of completion of sailing i.e., completion of performance obligation. Guest cancellation fees are recognised in cruise passenger ticket revenue at the time of cancellation and included in sales of tickets. The Group collects goods & services tax on behalf of the government and, therefore, these are not economic benefits flowing to the Group. Hence, they are excluded from revenue.

Income from onboard services

Revenue from other onboard activities is recognised as and when such services are rendered.

Commission Income

Revenue from management consultancy services / commission income is recognised as per the terms of the agreement.

Interest Income

Interest income is recognised on a time proportion basis taking into account the outstanding amount and the applicable interest rate. Interest income is included under the head “other income” in the statement of profit and loss.

Trade receivables, advance received from customers and unbilled revenue (“Contract Assets”)

Receivables are generally carried at the original invoiced amount, less an allowance for doubtful receivables where there is objective evidence that balances will not be recovered in full. Unbilled receivables are recognised to the extent of the services not billed at the year end. Amounts billed and received against which services are not completed at year end are treated and shown as advance received from customers.

(d) Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee.

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less). For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic

basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

• Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable; and

• Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date.

The lease liability is presented as a separate line in the statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

• The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

• The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).

• A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the statement of financial position.

The Group applies Ind AS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Impairment' policy.

(e) Foreign currency transactions and translations

Initial recognition
Transactions denominated in foreign currencies are accounted at the exchange rates prevailing on the date of the transaction.

Measurement of foreign currency monetary items at the Balance Sheet date
Monetary items denominated in foreign currencies at the year-end are restated at the exchange rates prevailing on the date of the Balance Sheet. Non-monetary items denominated in foreign currencies are carried at cost.

Treatment of exchange differences
Exchange differences arising on settlement / restatement of monetary assets and liabilities of the Group are recognized as income or expense in the Statement of Profit and Loss.

For the purposes of presenting these restated consolidated financial information, the assets and liabilities of the Group's foreign operations are translated into Indian Rupees using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity.

(f) Employee benefits

Employee benefits include provident fund and gratuity.

Defined contribution plan
In accordance with the provisions of the Labour Codes, eligible employees of the Group are entitled to receive benefits with respect to provident fund, a defined contribution plan in which both the Group and the employee contribute monthly at a determined rate. Group's contribution to Provident Fund is charged as an expense in the Statement of Profit and Loss.

Defined benefit Plan
Benefits payable to eligible employees of the Group with respect to gratuity, a defined benefit plan is accounted for on the basis of an actuarial valuation as at the balance sheet date. In accordance with the Labour Codes, the plan provides for lump sum payments to vested employees on retirement, death while in service or on termination of employment in an amount equivalent to 15 days wages for each completed year of service. Vesting occurs upon completion of five years of service. The Group contributes all the ascertained liabilities to a fund set up by the Group and administered by a board of trustees. The present value of such obligation is determined by the projected unit credit method and adjusted for past service cost. The resultant actuarial gain or loss on change in present value of the defined benefit obligation is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur.

Compensated absences
Accumulated leaves, which are expected to be utilized within the next 12 months, are treated as short-term employee benefit. The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefits it for measurement purposes. Such long-term compensated absences are provided for, based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains / losses are immediately taken to the statement of profit and loss and are not deferred.

(g) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

(i) Current Tax:
The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The

Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

(ii) Deferred Tax:
Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the restated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

(iii)Current and deferred tax for the year:
Current and deferred tax are recognised in statement of profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(h) Property, plant and equipment

Recognition and measurement
(i) Property, plant and equipment is stated at cost, less accumulated depreciation and accumulated impairment losses. The initial cost of an asset comprises its purchase price or construction cost, any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation, if any, and, for assets that necessarily take a substantial period of time to get ready for their intended use, finance costs. Cost includes import duties and any non-refundable taxes on such purchase, after deducting rebates and trade discounts and is inclusive of freight, duties, taxes and other incidental expenses. All cost are capitalized which are directly attributable to bringing assets to the condition and location essential for it to operate in a manner as intended by the management. In respect of assets due for capitalization, where final bills/claims are to be received/passed, the capitalisation is based on the engineering estimates. Final adjustments, for costs and depreciation are made retrospectively in the year of ascertainment of actual cost and finalisation of claim.

(ii) Dry-docking and major overhauling costs are capitalised as a separate component of the vessel. These costs include the expenses directly associated with the dry-docking process, as well as other necessary costs incurred to maintain the vessel's Class certification.

The costs capitalised are deferred and amortised on a straight-line basis over the estimated period to the next scheduled dry-docking, which is typically between thirty to sixty months, depending on the vessel's age and the requirements set by the vessel's classification society.

(iii) Capital work in progress includes the cost of property plant and equipment that are not yet ready for their intended use and the cost of assets not put to use before the Balance Sheet date.

(iv) If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate component of property, plant and equipment.

Depreciation/Amortisation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values and is charged to Statement of Profit and Loss. Depreciation on all tangible fixed assets is provided on the straight-line method over the estimated useful life of the assets at the rates specified below which corresponds with Schedule II to the Companies Act, 2013.

Asset	**Useful life**
Plant & Machinery	10 years
Vehicle	5 years
Equipment	5 years
Furniture & Fixtures	10 years
Computers	3 years
Vessel	5 years

Depreciation on addition to property, plant and equipment is provided on pro-rata basis from the date of acquisition of the assets. Depreciation on sale/deduction from property, plant and equipment is provided for upto the date of sale, deduction, discardment as the case may be.

The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. In respect of assets whose useful lives has been revised, the unamortized depreciable amount is charged over the revised remaining useful lives of the assets.

(v) An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of property, plant and equipment (calculated as the difference between the net disposal proceeds and the carrying amount of property, plant and equipment) is included in the Statement of Profit and Loss when property, plant and equipment is derecognized. The carrying amount of any component accounted as a separate component is derecognized, when replaced or when the property, plant and equipment to which the component relates gets derecognized.

(i) Intangible assets

Recognition and measurement
Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Asset	**Useful life**
Website	3 years

Derecognition of Intangible assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset,

measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss when the asset is derecognized.

(j) Impairment of property, plant and equipment and intangible assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss.

An assessment is made annually as to see if there are any indications that impairment losses recognized earlier may no longer exist or may have come down. The impairment loss is reversed, if there has been a change in the estimates used to determine the asset's recoverable amount since the previous impairment loss was recognized. If it is so, the carrying amount of the asset is increased to the lower of its recoverable amount and the carrying amount that have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. After a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. Reversals of Impairment loss are recognized in the Statement of Profit and Loss.

(k) Inventories

Inventories of consumables are valued at cost (on weighted average basis) after providing for obsolescence and other losses, where considered necessary. Cost includes all expenses incurred in bringing the goods to their present location and condition, including octroi and other levies, transit insurance and receiving charges.

(l) Provisions, contingent liabilities and contingent assets

(i) Provisions:
Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(ii) Contingent liabilities:
Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non- occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

(iii) Contingent assets:
Contingent assets are not recognized in the accounts. However they are disclosed when the possible right to receive exists.

(m) Segment reporting

The Group's segmental reporting is in accordance with Ind AS 108 Operating Segments. Operating segments are reported in a manner consistent with the internal reporting provided to the board of directors, which is responsible for allocating resources and assessing performance of the operating segments, and has been identified as the chief operating decision maker.

(n) Earnings per share

Basic earnings per share ('EPS') is computed by dividing the net profit or loss (excluding OCI) for the year attributable to equity shareholders by the weighted average number of shares outstanding during the year.

Diluted earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of shares outstanding during the period as adjusted for the effects of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

(o) Cash and cash equivalents

In the cash flow statement, cash and cash equivalents include cash in hand, demand deposits with banks, other short term highly liquid investments with original maturities of three months or less, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(p) Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value and transaction cost that is attributable to the acquisition of the financial asset is also adjusted.

Subsequent measurement

For the purpose of Subsequent measurement, the Group classifies financial assets in following categories:

(i) Financial assets at amortized cost
(ii) Financial assets at fair value through other comprehensive income (FVTOCI)
(iii) Financial assets at fair value through profit or loss (FVTPL)

Financial assets are measured at amortized cost if both of the following conditions are met:

(i) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

(ii) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial assets are measured at fair value through other comprehensive income if both of the following conditions are met:

(i) The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and

(ii) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

All financial assets not classified as measured at amortized cost or FVTOCI as described above are measured at FVTPL.

Financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method.

Financial assets are subsequently measured at FVTOCI with gains and losses arising from changes in fair value recognized in other comprehensive income.

Financial assets are subsequently measured at FVTPL with gains and losses arising from changes in fair value recognized in profit or loss.

All equity instruments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Group decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL).

De-recognition of financial assets

A financial asset is primarily de-recognized when the rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive cash flows from the asset.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. These liabilities are classified at amortized cost.

Subsequent to initial recognition, these liabilities are measured at amortized cost using the effective interest method. This category generally applies to long-term payables and deposits.

De-recognition of financial liabilities

A financial liabilities is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(q) Impairment of financial instruments

In accordance with Ind-AS 109, the Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. When estimating the cash flows, the Group is required to consider:

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

Trade receivables
As a practical expedient the Group has adopted 'simplified approach' using the provision matrix method for recognition of expected loss on trade receivables. The provision matrix is based on historical default rate observed over the expected life of the trade receivable and is adjusted for forward-looking estimates. At every reporting date, the historical default rates are updated and changes in the forward-looking estimates are analysed. Further receivables are segmented for this analysis where the credit risk characteristics of the receivables are similar.

Other financial assets
For recognition of impairment loss on other financial assets and risk exposure, the Group determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

(r) Functional and presentation currency

These restated financial statements are presented in Indian Rupees, the functional currency of the Group. All amounts have been rounded to the nearest million, upto two decimal places, unless otherwise stated.

(s) Operating cycle

Based on the nature of products / activities of the Group and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

(iii) Fair value hierarchy
The fair value of financial instruments have been classified into three categories depending on the inputs used in the valuation techniques. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (Level 1 measurement) and lowest priority to unobservable inputs (Level 3 instruments). The categories used are as follows:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. There are no items falling under Level 1.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. There are no items falling under Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

35. Finanical Risk management

(A) Market Risk
Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates and other market changes.

(B) Interest risk
The Group is exposed to interest rate risk arising mainly from non-current and current borrowings with floating interest rates. The Group is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates.

At the reporting date the interest rate profile of the Group's interest-bearing financial liabilities is as follows:

Particulars	As at 31 March 2026	As at 31 March 2025	As at 31 March 2024
Term loan from bank	550.00	-	-
Loan repayable on demand from bank	68.74	2.06	-

The following table demonstrates the sensitivity in the interest rate with all other variables held constant. The impact on the Group's profit before tax and other comprehensive income due to changes in the interest rates is given below :

Change in interest rate	As at 31 March 2026	As at 31 March 2025	As at 31 March 2024
Increase by 0.50% in interest rate	3.09	-	-
Decrease by 0.50% in interest rate	(3.09)	-	-

(C) Foreign currency risk

The Group undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Group's foreign currency risks are identified, measured and managed at periodic intervals in accordance with the Group's policies.

Increase by 5% in USD	23.66	21.40	11.76
Decrease by 5% in USD	23.66	21.40	11.76

(D) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments. It is managed by the Chief Financial Officer.

Credit risk due to failure on part of customer to meet its contractual obligation

Risk:
There is a risk that the counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

Measures to mitigate risk:
Outstanding customer receivables are regularly monitored.

Also, trade receivables are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or failing to engage in a repayment plan with the Group. The Group categorises the receivable for write off when a debtor fails to make contractual payments greater than 6 months; the Group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

However, the past trends of the Group suggests that there are negligible/ very low cases of doubtful debts. Accordingly, the risk exposure of the Group in relation to credit risk is low.

(E) Liquidity risk

Liquidity risk is the risk that the Group will face in meeting its obligations associated with its financial liabilities. The Groups approach to managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions.

Prudent liquidity risk management implies maintaining sufficient cash and liquid funds to meet obligations. The Group has sufficient funds available for working capital management due to adequate monitoring of receivables position and its keeps it idle funds in fixed deposits. If funds are needed for expansion the first source is the internal accrual. Hence, the Group evaluates the associated liquidity risk to be very low.

Maturity of financial liabilities

The tables below analyse the Group's financial liabilities into relevant maturity groupings based on their contractual maturities for all non-derivative financial liabilities. The Group does not have any derivative liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

C. Notes to first-time adoption

1. Right of use assets and lease liabilities:
The Group has recognised and measured the right-of-use (ROU) asset and the lease liability over the remaining lease period and payments discounted using the incremental borrowing rate as at the date of initial application. This has resulted in recognising ROU asset and lease liability in the respective period. As a result, the expenses in respect of time charter and rent expense has changed from operating & other expense respectively in previous GAAP to depreciation on the ROU and finance costs on lease liability. The impact of changes in the lease payments has been considered as modification in the lease arrangements and the appropriate adjustments being made in the balance of ROU and lease liabilities with recognised gain/loss in the statement of profit and loss. Since, the lease payments are in foreign currency, the resulting exchange gain / loss on reinstatement of lease liabilities has been recognised in statement of profit and loss under Ind AS.

2. Security Deposit
Security deposit given by the Group has been accounted under the amortised cost (i.e., at present value) as per Ind AS 109 and classified as current / non-current financial asset from other current / non-current assets in the previous GAAP. The present value impact has been capitalised as a part of ROU and amortised over the period of lease. The implicit interest on security deposit is recognised on periodic basis using the increment cost of borrowing at the date of initial application. Further, since the deposit is given in foreign currency the resulting reinstatement gain / loss has been recognised in the statement of profit and loss under Ind AS.

Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, or IFRS and should not be considered in isolation or construed as an alternative to cash flows, profit/(loss) for the year or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance

with Ind AS, Indian GAAP, or IFRS. OVERVIEW

For information in relation to our business, see "*Our Business*" on page 185.

SIGNIFICANT FACTORS AFFECTING OUR FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our financial condition and results of operations are affected by a number of important factors including those discussed in the section titled "*Risk Factors*" on page 20. The following is a discussion of certain factors that have had, and we expect will continue to have, a significant effect on our financial condition and results of operations.

Our ability to introduce new cruise vessels to meet growing demand

Our revenue from operations will depend on our ability to introduce new cruise vessels to accommodate to the growing demand. We currently conduct our operations through a single cruise vessel.

The global cruise industry is in a mature and highly consolidated phase, with dominant players like Carnival Corporation & Plc, MSC Cruises SA, Norwegian Cruise Line Holdings Ltd., and Royal Caribbean Cruises Ltd. operating vast fleets across multiple markets. Overall, these players hold the dominant share of more than 70% to 80% in the global cruise industry.

The overnight ocean and coastal cruise industry in India is estimated to be valued at ₹ 8,301 million in Fiscal 2025, compared to ₹ 5,764 million in Fiscal 2020, reflecting a CAGR of approximately 8% between Fiscal 2020 to Fiscal 2025. However, in Fiscal 2026 the market is estimated have declined to ₹ 7,325 million (approximately 12% year on year decline), due to several headwinds including international macroeconomic uncertainties affecting global travel demand, fuel price volatility impacting cruise operating costs and ticket pricing, and broader

geopolitical tensions disrupting international tourism flows. Moving forward, in medium term the market is projected to increase to ₹ 18,200 million to ₹ 22,500 million by Fiscal 2031, thereby registering a CAGR of approximately 20% to 25% from Fiscal 2026 to Fiscal 2031, driven by increase in total number of itineraries, infrastructure investments, growing domestic cruise adoption, and increased awareness about cruise travels. *(Source: CRISIL Report*) To respond to this demand, we have entered into time charter agreements to lease two new cruise vessels, i.e. 'Norwegian Sky' and 'Norwegian Sun', from Baycruise Shipping and Leasing (IFSC) Private Limited, each with a capacity of up to 2,004 and 1,936 guests respectively, and intend to introduce 'Norwegian Sky' by Fiscal 2027 and 'Norwegian Sun' by Fiscal 2028 to tap the growing demand.

Acquiring new vessels on lease necessitates a substantial capital investment, which we may source from internal accruals or external financing. We propose to utilize the Net Proceeds towards payment of deposit/ advanced lease rental and monthly lease payments to our step-down subsidiary, Baycruise Shipping and Leasing (IFSC) Private Limited and general corporate purposes in the manner specified in "*Objects of the Issue - Payment towards deposit/ advanced lease rental and monthly lease payments to our step-down subsidiary, Baycruise Shipping and Leasing (IFSC) Private Limited ("Baycruise IFSC")*" on page 103. Further, if we rely on external financing for the monthly lease payments in the future, it could increase our debt burden and interest expenses, affecting our profitability. Securing financing on favorable terms is crucial. If we face difficulties in obtaining financing or if the terms are unfavorable, it could negatively impact our business, results of operations, financial condition and cash flows. Obtaining the necessary approvals to introduce new vessels is a complex process, as compliance with safety, environmental, and health regulations could be both time-consuming and costly. Delays in approvals can push back the introduction of new vessels, affecting our business, results of operations, financial condition and cash flows. Adequate port facilities and infrastructure are necessary to accommodate larger vessels, and limited port capacity and the need for infrastructure improvements in Indian ports can impede our ability to introduce and operate new vessels. We will need to recruit and train additional skilled workforce to operate and manage our new vessels, and shortages in qualified personnel can affect operational readiness. Further, economic downturns or shifts in consumer preferences can impact demand for cruise vacations, affecting the financial viability of introducing new cruise vessels. Also, see "*Risk Factors – 4. Our growth strategy relies on the acquisition of new vessels to expand our operations. Our inability to expand our operations by acquiring new vessels could significantly impact our business, financial condition, and results of operations*" on page 22.

Further, the lease rentals required to be paid for the new vessels as per the Time Charter Agreements are as follows:

Name of the Vessel	Date of agreement	Date of delivery	Charter hire for the first two years*	Charter hire for the remaining years**
Norwegian Sky	April 11, 2025[#]	September 30, 2026	USD 16,160,000 (approximately ₹ 1,539.08 million) per year from the date of delivery (24 monthly payments of USD 1,346,666.67 (approximately ₹ 128.27 million) each month)	USD 14,160,000 (approximately ₹ 1,348.89 million) per year 96 monthly payments of USD 1,180,000 (approximately ₹ 112.38 million) each)
Norwegian Sun	April 11, 2025[#]	November 2027	USD 16,160,000 (approximately ₹ 1, 539.08 million) per year from the date of delivery (24 monthly payments of USD 1,346,666.67 (approximately ₹ 128.27 million) each month)	USD 14,160,000 (approximately ₹ 1,348.89 million) per year (96 monthly payments of USD 1,180,000 (approximately ₹ 112.38 million) each)

** First monthly charter hire shall be paid in advance 30 days prior to the date of delivery. All subsequent charter hires to be paid in advance on 30th of each month for the following month.*

***The advanced lease rentals shall be adjusted from third year onwards till tenth year of the Charter (in ninety-six equal instalments) as per the Time Charter Agreements.*

** Foreign exchange reference rate as on April 30, 2026 as available on www.fbil.org.in. is ₹ 95.54.*

[#]Amended by way of an amendment agreements each dated July 17, 2025. For more details please see "History and certain Corporate Matters - Shareholders' agreement and other material agreements" on page 215 of the Red Herring Prospectus.

The monthly lease rentals required under the Time Charter Agreements will introduce a substantial fixed cost. Given the nature of these fixed costs, we may face challenges if the revenue generated from the new vessels does not proportionally increase to cover these lease rentals. We will need to ensure that the additional capacity and services provided by these vessels generate sufficient revenue to offset the increased expenses. Failure to achieve this could lead to financial strain, potentially impacting profitability and cash flow. Also, see "*Risk Factors – 12. We have acquired two new cruise vessels on lease and our inability to adhere to the terms of the lease agreements (including our inability to pay the lease rentals) could lead to the termination of agreements which could have an adverse impact on our business, results of operations, financial condition and cash flows.*" on page 38.

Ability to maintain our relationship with our third-party service providers

Our revenue from operations is significantly dependent on our ability to maintain our relationship with our third-party service providers. We have entered into agreements with third-party service providers such as SA Cruise Services Limited, Apollo Export Warehouse LLC, Campbell Cruise & Yacht Management Limited, and Wizcraft Entertainment Agency Private Limited to manage our critical operations. These operations include food and beverages, housekeeping, crewing, technical management, deck and engine crew management, and entertainment. Any disruptions or inefficiencies in the services offered by our third party service providers could negatively impact our business, results of operations, financial condition and cash flows. For example, a decline in the quality of hospitality services could lead to customer dissatisfaction as well as damage our brand reputation and disruptions to entertainment services could diminish the overall passenger experience. Further, if any third party that is currently providing services to us is unable to provide its services to us for any reason during the course of our contract with it, our business and results of operations may be adversely affected.

Also, see "*Risk Factors – 7. Our cruise operations depend on third-party service providers for critical services and amenities, including technical and crew management, hospitality management, general purchasing and logistics management and entertainment. Any disruption in the services offered by these third-party service providers may adversely impact our business, results of operations, financial condition and cash flows.*" on page 35.

Ability to broaden itineraries to cover domestic and international destinations

Our revenue from operations depends on the expansion of our itineraries to cover destinations domestically and internationally. Our cruise vessel primarily sails to domestic destinations such as Mumbai (Maharashtra), Goa, Kochi (Kerala), Chennai (Tamil Nadu), Lakshadweep, Visakhapatnam (Andhra Pradesh), and Puducherry. We also offer international itineraries, including Hambantota, Trincomalee, Jaffna (Sri Lanka), Phuket (Thailand), Singapore, Kuala Lumpur and Langkawi (Malaysia). These itineraries range from short 2-night trips to longer 10-night voyages. We intend to expanding our itineraries to include domestic destinations such as Diu, Porbandar, Port Blair, Kolkata, and New Mangalore, and international destinations such as Maldives, Indonesia, Australia, UAE, Oman, Kuwait, and Mauritius. While the expansion of our itineraries presents substantial opportunities for growth and revenue enhancement, it also introduces significant logistical and operational challenges that could impact our financial performance. Successfully managing these challenges, particularly in securing port of call and ensuring high passenger demand, will be crucial to realizing the full potential of our expansion strategy and ensuring sustained growth and profitability.

Currently, we source shipboard consumables from India for both our domestic and international destinations. However, as we expand our operations and increase the number of international itineraries, we may need to purchase shipboard consumables while overseas. When we return, any unconsumed items will be subject to customs duty based on the applicable tariff. This can lead to an increase in our operating expenses.

Our ability to optimise our operating expenses

Our profitability is significantly influenced by our ability to optimize our operating costs, which primarily include fuel expenses, port-related expenses, crew-related expenses, and shipboard cost of sales. The table below sets forth our operating expenses for the years/period indicated:

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Fuel (in ₹ million)	838.98	933.32	924.93
Port related expenses (in ₹ million) [(1)]	455.08	363.89	346.51
Crew related expenses (in ₹ million) [(2)]	536.79	488.97	476.24
Shipboard cost of sales (in ₹ million) [(3)]	1,362.27	881.34	840.96
On Board Expenses (₹ million) [(4)]	-	-	2.38
Total	**3,193.12**	**2,667.52**	**2,591.02**
Percentage of total expenses (%)	**62.76%**	**55.15%**	**46.24%**

[(1)] *Port related expenses include various expenses incurred at port, including berth hire charges, ground handling fees, electricity, garbage removal, dock permit and gangway charges.*

[(2)] *Crew related expenses primarily include fees towards hospitality services provided by crew onboard as well as documentation related expenses for crew sign in and sign off.*

[(3)] *Shipboard cost of sales includes various expenses incurred towards providing onboard services, including the cost of food, production and operational expenses for onboard entertainment activities, expenses related to operating shore excursions, and revenue sharing with business partners for services such as shops, photography, and spa and salon services.*

Efficient management of these costs can lead to substantial cost savings and improved profitability. For example, fluctuations in global oil prices, driven by geopolitical tensions, supply chain disruptions, and changes in demand, can lead to unpredictable fuel costs. Additionally, regulatory changes, such as stricter emissions standards, require us to invest in cleaner and often more expensive fuel options. Furthermore, the availability of fuel at various ports can influence our itinerary planning and operational efficiency. We will be required to ensure a consistent supply of fuel at competitive prices to maintain our schedules and delivering a seamless experience to our passengers. Any disruptions in fuel supply can lead to delays, increased costs, and potential loss of revenue. Further, reducing fuel consumption through optimized routes and advanced technologies can lower fuel expenses, directly enhancing our profit margins. Similarly, streamlining port operations, negotiating better terms with port authorities, and implementing efficient crew scheduling practices can reduce port and crew-related expenses, improving operational efficiency and reducing labour costs. Efficient procurement and inventory management can also lower shipboard costs, contributing to overall cost savings. Conversely, inefficiencies in managing these operating costs can have a negative impact on our financial performance. Higher fuel consumption due to inefficient operations or suboptimal routes can increase fuel expenses, reducing profit margins. Inefficient port operations can lead to higher port fees and operational delays, increasing costs and potentially resulting in penalties for late deliveries. Poor crew scheduling and high turnover rates can drive up labour costs and disrupt operational continuity. Inefficient procurement and inventory management can lead to increased shipboard costs, stockouts, or overstocking, negatively affecting both costs and customer satisfaction.

Further, recent geopolitical tensions in the Middle East, including disruptions to shipping through the Strait of Hormuz, have resulted in heightened volatility and upward pressure on global crude oil prices. Any significant increase in fuel prices or any disruption in the timely availability of fuel may adversely impact our operating costs and may lead to disruptions in our operations, which could have an adverse effect on our business, results of operations, financial condition and cash flows.

MATERIAL ACCOUNTING POLICIES

Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

Sale of cruise tickets

Revenue from sales of tickets is recognised as cruise revenue, on the date of completion of sailing. Guest cancellation fees are recognised in cruise passenger ticket revenue at the time of cancellation and included in sales of tickets. Our Company collects goods & services tax on behalf of the government and, therefore, these are not economic benefits flowing to our Company. Hence, they are excluded from revenue.

Income from onboard services

Revenue from other onboard activities is recognised as and when such services are rendered.

Commission Income

Revenue from management consultancy services / commission income is recognised as per the terms of the agreement.

Interest Income

Interest income is recognised on a time proportion basis taking into account the outstanding amount and the applicable interest rate. Interest income is included under the head “other income” in the statement of profit and loss.

Trade receivables, advance received from customers and unbilled revenue

Receivables are generally carried at the original invoiced amount, less an allowance for doubtful receivables where there is objective evidence that balances will not be recovered in full. Unbilled receivables are recognised to the

extent of the services not billed at the year end. Amounts billed and received against which services are not completed at year end are treated and shown as advance received from customers.

Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee.

Our Company assesses whether a contract is or contains a lease, at inception of the contract. Our Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less). For these leases, our Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable; and
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date.

The lease liability is presented as a separate line in the statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Our Company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the statement of financial position.

Our Company applies International Accounting Standard 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Impairment' policy.

Foreign currency transactions and translations

Initial recognition

Transactions denominated in foreign currencies are accounted at the exchange rates prevailing on the date of the transaction.

Measurement of foreign currency monetary items at the Balance Sheet date

Monetary items denominated in foreign currencies at the year-end are restated at the exchange rates prevailing on the date of the Balance Sheet. Non-monetary items denominated in foreign currencies are carried at cost.

Treatment of exchange differences

Exchange differences arising on settlement/restatement of monetary assets and liabilities of our Company are recognized as income or expense in the Statement of Profit and Loss.

For the purposes of presenting these restated consolidated financial information, the assets and liabilities of our Company's foreign operations are translated into Indian Rupees using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity.

Employee benefits

Employee benefits include provident fund and gratuity.

Defined contribution plan

In accordance with the provisions of the Employees Provident Funds and Miscellaneous Provisions Act, 1952, eligible employees of our Company are entitled to receive benefits with respect to provident fund, a defined contribution plan in which both our Company and the employee contribute monthly at a determined rate. Our Company's contribution to Provident Fund is charged as an expense in the Statement of Profit and Loss.

Defined benefit plan

Benefits payable to eligible employees of our Company with respect to gratuity, a defined benefit plan is accounted for on the basis of an actuarial valuation as at the balance sheet date. In accordance with the Payment of Gratuity Act, 1972, the plan provides for lump sum payments to vested employees on retirement, death while in service or on termination of employment in an amount equivalent to 15 days basic salary for each completed year of service. Vesting occurs upon completion of five years of service. Our Company contributes all the ascertained liabilities to a fund set up by our Company and administered by a board of trustees. The present value of such obligation is determined by the projected unit credit method and adjusted for past service cost. The resultant actuarial gain or loss on change in present value of the defined benefit obligation is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur.

Compensated absences

Accumulated leaves, which are expected to be utilized within the next 12 months, are treated as short-term employee benefit. Our Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefits it for measurement purposes. Such long-term compensated absences are provided for, based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains / losses are immediately taken to the statement of profit and loss and are not deferred.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current Tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible

in other years and items that are never taxable or deductible. Our Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred Tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the restated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which our Company expects, at the end of the reporting period, to recover or settle the carrying amount of our assets and liabilities.

Current and deferred tax for the year:

Current and deferred tax are recognised in statement of profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Property, plant and equipment

Recognition and measurement

Property, plant and equipment is stated at cost, less accumulated depreciation and accumulated impairment losses. The initial cost of an asset comprises its purchase price or construction cost, any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation, if any, and, for assets that necessarily take a substantial period of time to get ready for their intended use, finance costs. Cost includes import duties and any non-refundable taxes on such purchase, after deducting rebates and trade discounts and is inclusive of freight, duties, taxes and other incidental expenses. All cost are capitalized which are directly attributable to bringing assets to the condition and location essential for it to operate in a manner as intended by the management. In respect of assets due for capitalization, where final bills/claims are to be received/passed, the capitalisation is based on the engineering estimates. Final adjustments, for costs and depreciation are made retrospectively in the year of ascertainment of actual cost and finalisation of claim.

Capital work in progress includes the cost of property plant and equipment that are not yet ready for their intended use and the cost of assets not put to use before the Balance Sheet date.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate component of property, plant and equipment.

Depreciation/Amortisation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values and is charged to Statement of Profit and Loss. Depreciation on all tangible fixed assets is provided on the straight-

line method over the estimated useful life of the assets at the rates specified below which corresponds with Schedule II to the Companies Act, 2013.

Asset	Useful life
Plant and Machinery	10 years
Vehicle	5 years
Equipment	5 years
Furniture and Fixtures	10 years
Computers	3 years

Depreciation on addition to property, plant and equipment is provided on pro-rata basis from the date of acquisition of the assets. Depreciation on sale/deduction from property, plant and equipment is provided for up to the date of sale, deduction, discardment as the case may be.

The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. In respect of assets whose useful lives has been revised, the unamortized depreciable amount is charged over the revised remaining useful lives of the assets.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of property, plant and equipment (calculated as the difference between the net disposal proceeds and the carrying amount of property, plant and equipment) is included in the Statement of Profit and Loss when property, plant and equipment is derecognized. The carrying amount of any component accounted as a separate component is derecognized, when replaced or when the property, plant and equipment to which the component relates gets derecognized.

Intangible assets

Recognition and measurement

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Derecognition of intangible assets

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss when the asset is derecognized.

Impairment of tangible and intangible assets

At the end of each reporting period, we review the carrying amounts of our tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, our Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss.

An assessment is made annually as to see if there are any indications that impairment losses recognized earlier may no longer exist or may have come down. The impairment loss is reversed, if there has been a change in the estimates used to determine the asset's recoverable amount since the previous impairment loss was recognized. If it is so, the carrying amount of the asset is increased to the lower of its recoverable amount and the carrying amount that have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. After a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. Reversals of Impairment loss are recognized in the Statement of Profit and Loss.

Inventories

Inventories of consumables are valued at cost (on weighted average basis) after providing for obsolescence and other losses, where considered necessary. Cost includes all expenses incurred in bringing the goods to their present location and condition, including octroi and other levies, transit insurance and receiving charges.

Provisions, contingent liabilities and contingent assets

Provisions:

Provisions are recognized when our Company has a present obligation (legal or constructive) as a result of a past event, it is probable that our Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent liabilities:

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non- occurrence of one or more uncertain future events not wholly within the control of our Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent assets:

Contingent assets are not recognized in the accounts. However they are disclosed when the possible right to receive exists.

Segment reporting

Our Company's segmental reporting is in accordance with Ind AS 108 Operating Segments. Operating segments are reported in a manner consistent with the internal reporting provided to the Board of Directors, which is responsible for allocating resources and assessing performance of the operating segments, and has been identified as the chief operating decision maker.

Earnings per share

Basic earnings per share ("**EPS**") is computed by dividing the net profit or loss (excluding OCI) for the year attributable to equity shareholders by the weighted average number of shares outstanding during the year.

Diluted earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of shares outstanding during the period as adjusted for the effects of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

Cash and cash equivalents

In the cash flow statement, cash and cash equivalents include cash in hand, demand deposits with banks, other short term highly liquid investments with original maturities of three months or less, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Financial instruments

Financial assets and financial liabilities are recognized when our Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value and transaction cost that is attributable to the acquisition of the financial asset is also adjusted.

Subsequent measurement

For the purpose of Subsequent measurement, our Company classifies financial assets in following categories:

- Financial assets at amortized cost;
- Financial assets at fair value through other comprehensive income ("**FVTOCI**"); and
- Financial assets at fair value through profit or loss ("**FVTPL**").

Financial assets are measured at amortized cost if both of the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest ("**SPPI**") on the principal amount outstanding.

Financial assets are measured at fair value through other comprehensive income if both of the following conditions are met:

- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest ("**SPPI**") on the principal amount outstanding.

All financial assets not classified as measured at amortized cost or FVTOCI as described above are measured at FVTPL.

Financial assets are subsequently measured at amortized cost using the effective interest rate ("**EIR**") method.

Financial assets are subsequently measured at FVTOCI with gains and losses arising from changes in fair value recognized in other comprehensive income.

Financial assets are subsequently measured at FVTPL with gains and losses arising from changes in fair value recognized in profit or loss.

All equity instruments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at fair value through profit and loss ("**FVTPL**"). For all other equity instruments, our Company decides to classify the same either as at fair value through other comprehensive income ("**FVOCI**") or fair value through profit and loss ("**FVTPL**")

De-recognition of financial assets

A financial asset is primarily de-recognized when the rights to receive cash flows from the asset have expired or our Company has transferred our rights to receive cash flows from the asset.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. These liabilities are classified at amortized cost.

Subsequent to initial recognition, these liabilities are measured at amortized cost using the effective interest method. This category generally applies to long-term payables and deposits.

De-recognition of financial liabilities

A financial liabilities is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Impairment of financial instruments

In accordance with Ind-AS 109, our Company applies Expected Credit Loss ("**ECL**") model for measurement and recognition of impairment loss for financial assets.

ECL is the difference between all contractual cash flows that are due to our Company in accordance with the contract and all the cash flows that our Company expects to receive. When estimating the cash flows, our Company is required to consider:

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets; and
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

As a practical expedient our Company has adopted 'simplified approach' using the provision matrix method for recognition of expected loss on trade receivables. The provision matrix is based on historical default rate observed

over the expected life of the trade receivable and is adjusted for forward-looking estimates. At every reporting date, the historical default rates are updated and changes in the forward-looking estimates are analysed. Further receivables are segmented for this analysis where the credit risk characteristics of the receivables are similar.

Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, our Company determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

Functional and presentation currency

These restated financial statements are presented in Indian Rupees, the functional currency of our Company. All amounts have been rounded to the nearest million, up to two decimal places, unless otherwise stated.

Operating cycle

Based on the nature of products / activities of our Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, our Company has determined our operating cycle as 12 months for the purpose of classification of our assets and liabilities as current and non-current.

CHANGES IN ACCOUNTING POLICIES

There have been no changes in the accounting policies other than as disclosed under Note 44 in the Restated Consolidated Financial Information in respect of changes in accounting policies, as defined in Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors (Ind AS 8), followed by the Company in the preparation and presentation of the Restated Consolidated Financial Information as at and for the years ended March 31, 2026, March 31, 2025 and March 31, 2024.

FISCAL 2026 COMPARED TO FISCAL 2025

Total Income

Total income decreased by 1.79% from ₹ 5,976.83 million in Fiscal 2025 to ₹ 5,869.94million in Fiscal 2026 on account of a decrease in revenue from operations and an increase in other income as discussed below.

Revenue from Operations

Revenue from operations decreased by 1.84% from ₹ 5,906.05 million in Fiscal 2025 to ₹ 5,797.45 million in Fiscal 2026, due to a decrease in income from lease of vessel from ₹ 75.06 million in Fiscal 2025 to nil in Fiscal 2026 on account of a change in the time charter arrangement (earlier between Bay Cruise Investment Inc ("**Bay Cruise**"), Global Shipping and Leisure Limited ("**GSLL**") and our Company and now directly between Bay Cruise and our Company) and a decrease in onboard revenue from ₹ 533.73 million in Fiscal 2025 to ₹ 505.76 million in Fiscal 2026 on account of variations in passenger cruise days and onboard spending behaviour.

Other Income

Other income has increased from ₹ 70.78 million in Fiscal 2025 to ₹ 72.49 million in Fiscal 2026, primarily due to an increase in exchange gain from nil in Fiscal 2025 to ₹ 20.44 million in Fiscal 2026 on account of higher rate of USD–INR exchange rate on advances and security deposits given, and an increase in interest on loan given from ₹ 4.81 million in Fiscal 2025 to ₹ 18.27 million in Fiscal 2026 on account of an increase in the interest rate from 7.8% to 12% per annum, compounded monthly, on the outstanding principal.

Expenses

Total expenses increased by 5.18% from ₹ 4,836.97 million in Fiscal 2025 to ₹ 5,087.43 million in Fiscal 2026, primarily on account of an increase in operating expenses, employee benefits expense and other expenses, which is partially offset by a decrease in depreciation and amortisation expense and finance costs as discussed below.

Operating Expenses

Operating expenses increased by 19.70% from ₹ 2,667.52 million in Fiscal 2025 to ₹ 3,193.12 million in Fiscal 2026, primarily due to an increase in shipboard cost of sales from ₹ 881.34 million in Fiscal 2025 to ₹ 1,362.27 million in Fiscal 2026 on account of campbell crew wages that were earlier borne by GSLL in Fiscal 2025 and, pursuant to a change in arrangements, are now accounted for as reimbursements of expenses to Bay Cruise and are consolidated with our Company, and an increase in port related expenses from ₹ 363.89 million in Fiscal 2025 to ₹ 455.08 million in Fiscal 2026 on account of higher costs associated with international port calls, including Singapore, Malaysia and Thailand, undertaken during the year.

Employee Benefits Expense

Employee benefits expense increased by 33.22% from ₹ 290.72 million in Fiscal 2025 to ₹ 387.29 million in Fiscal 2026, primarily due to the full-year impact of the chief people officer and Chief Financial Officer, who were on the payroll for only part of Fiscal 2025, as well as salary increments for the chief business Officer and Chief Executive Officer, and an increase in staff welfare expenses from ₹ 6.18 million in Fiscal 2025 to ₹ 10.13 million in Fiscal 2026 on account of certain employee welfare initiatives undertaken during the year.

Finance Costs

Finance costs decreased by 77.29% from ₹ 384.85 million in Fiscal 2025 to ₹ 87.40million in Fiscal 2026, primarily on account of a decrease in interest on lease liability from ₹ 349.48 million in Fiscal 2025 to ₹ 34.96 million in Fiscal 2026 on account of reduction in lease liability pursuant to changes in the operating model, including a lower time charter component and reimbursement of expenses, and corresponding interest costs, and an increase in interest on borrowings from ₹ 6.89 million in Fiscal 2025 to ₹ 25.90 million in Fiscal 2026 on account of increase in borrowings during the year and increase in related interest expense.

Depreciation and Amortisation Expense

Depreciation and amortisation expense decreased by 51.60% from ₹ 629.88 million in Fiscal 2025 to ₹ 304.89 million in Fiscal 2026, primarily on account of changes in the operating model, including a reduction in the time charter component and reimbursement of expenses, which resulted in reduction of lease liability and corresponding reduction in the carrying value of the right-of-use asset and related depreciation expense.

Other Expenses

Other expenses increased by 29.02% from ₹ 864.00 million in Fiscal 2025 to ₹ 1,114.73 million in Fiscal 2026. This increase was primarily on account of (i) an increase in legal and professional fees from ₹ 87.19 million in Fiscal 2025 to ₹ 212.90 million in Fiscal 2026 and an increase IT cost from ₹ 48.13 million in Fiscal 2025 to ₹ 133.66 million in Fiscal 2026 mainly due to a change in arrangements, pursuant to which expenses that were earlier incurred by GSLL are now being incurred by Bay Cruise and recorded as reimbursements, and accordingly consolidated with our Company; (ii) an increase in outsource personnel cost from ₹ 57.62 million in Fiscal 2025 to ₹ 75.99 million in Fiscal 2026 on account of increase in resources; and (iii) commission to agents from ₹ 48.96 million in Fiscal 2025 to ₹ 64.83 million in Fiscal 2026 on account of variations in commission payable on slab-based commission rates.

These were partially offset by exchange loss from ₹ 49.89 million in Fiscal 2025 to nil in Fiscal 2026, and sales and marketing expenses from ₹ 214.35 million in Fiscal 2025 to ₹ 198.81 million in Fiscal 2026.

Tax Expense

Current tax was ₹ 245.42 million in Fiscal 2026 compared ₹ 197.30 million in Fiscal 2025, primarily due to unavailability of brought-forward losses and unabsorbed depreciation eligible for set-off during the year. Prior year tax was ₹ (2.10) million in Fiscal 2026 and nil in Fiscal 2025. Deferred tax charge/(benefit) was ₹ 17.76 million in Fiscal 2026 and ₹ 16.60 million in Fiscal 2025. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates and other market changes.

Foreign Currency Risk

Our Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Our Company's foreign currency risks are identified, measured and managed at periodic intervals in accordance with our Company's policies.

Interest Rate Risk

Interest risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Our Company is not exposed to the risk of changes in market interest rates.

Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Our Company is exposed to credit risk from our operating activities (primarily trade receivables) and from our financing activities, including deposits with banks, foreign exchange transactions and other financial instruments. It is managed by the Chief Financial Officer.

There is a risk that the counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

Outstanding customer receivables are regularly monitored.

Also, trade receivables are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or failing to engage in a repayment plan with our Company. Our Company categorises the receivable for write off when a debtor fails to make contractual payments greater than 6 months; our Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

However, the past trends of our Company suggests that there are negligible/ very low cases of doubtful debts. Accordingly, the risk exposure of our Company in relation to credit risk is low.

Liquidity Risk

Liquidity risk is the risk that our Company will face in meeting our obligations associated with our financial liabilities. Our Company’s approach to managing liquidity is to ensure that it will have sufficient funds to meet our liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions.

Prudent liquidity risk management implies maintaining sufficient cash and liquid funds to meet obligations. Our Company has sufficient funds available for working capital management due to adequate monitoring of receivables position and our Company keeps its idle funds in fixed deposits. If funds are needed for expansion, the first source is the holding Company through capital infusion. Hence, our Company evaluates the associated liquidity risk to be very low.

SEBI, by way of the SEBI ICDR Master Circular and any subsequent circulars, as applicable has identified the need to put in place measures, in order to manage and handle investor issues arising out of the UPI Mechanism inter alia in relation to delay in receipt of mandates by Bidders for blocking of funds due to systemic issues faced by Designated Intermediaries/SCSBs and failure to unblock funds in cases of partial allotment/non allotment within prescribed timelines and procedures. Subsequently, SEBI vide the SEBI ICDR Master Circular, modified the process timelines and extended the implementation timelines for certain measures.

As per the SEBI ICDR Master Circular, for initial public offerings opening for subscription on or after May 1, 2021, SEBI has prescribed certain mechanisms to ensure proper management of investor issues arising out of the UPI Mechanism, including (i) identification of a nodal officer by SCSBs for the UPI Mechanism; (ii) delivery of SMS alerts by SCSBs for blocking and unblocking of UPI Mandate Requests; (iii) periodic sharing of statistical details of mandate blocks/unblocks, performance of apps and UPI handles, network latency or downtime, etc., by the Sponsor Banks to the intermediaries forming part of the closed user group vide email; (iv) limiting the facility of reinitiating UPI Bids to Syndicate Member to once per Bid; and (v) mandating SCSBs to ensure that the unblock process for nonallotted/ partially allotted applications is completed by the closing hours of one Working Day subsequent to the finalisation of the Basis of Allotment.

Further, the investors shall be compensated by the SCSBs in accordance with SEBI ICDR Master Circular in the events of delayed unblock for cancelled/withdrawn/deleted applications, blocking of multiple amounts for the same UPI application, blocking of more amount than the application amount, delayed unblocking of amounts for non-allotted/partially-allotted applications, for the stipulated period.

The processing fees for applications made by UPI Bidders may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with the SEBI ICDR Master Circular.

Separately, pursuant to the SEBI ICDR Master Circular, the following compensation mechanism shall be applicable for investor grievances in relation to Bids made through the UPI Mechanism for public issues, for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensation period
Delayed unblock for cancelled / withdrawn / deleted applications	₹100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	1. Instantly revoke the blocked funds other than the original application amount; and 2. ₹100 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher	From the date on which multiple amounts were blocked till the date of actual unblock

Further, in terms of the SEBI ICDR Master Circular, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLM, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Foreign investment is permitted (except in the prohibited sectors) in Indian companies, either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. The Government of India makes policy announcements on FDI through press notes and press releases. The regulatory framework, over a period of time, thus, consists of acts, regulations, press notes, press releases, and clarifications among other amendments. The DPIIT (formerly Department of Industrial Policy & Promotion) issued the Consolidated FDI Policy Circular dated October 15, 2020, with effect from October 15, 2020 (the "**FDI Policy**"), which consolidates and supersedes all previous press note, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020.

In terms of Press Note 3 of 2020, dated April 17, 2020 ("**Press Note**"), issued by the DPIIT, the FDI Policy and the FEMA (Non-debt Instruments) Rules has been amended to state that all investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India. Further, in accordance with the amendment to the Companies (Share Capital and Debentures) Rules, 2014 vide notification dated May 4, 2022 issued by Ministry of Corporate Affairs, a declaration shall be inserted in the share transfer form stipulating whether government approval shall be required to be obtained under Foreign Exchange Management (Non-debt Instruments) Rules, 2019 prior to transfer of shares, as applicable. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Issue Period.

As per the FDI Policy and FEMA Rules, FDI in companies engaged in cruise tourism, which is the sector in which our Company operates, is permitted up to 100% of the paid-up share capital of such company under the automatic route.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and such transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI. For details of the aggregate limit for investments by NRIs and FPIs in our Company, see "*Issue Procedure – Bids by Eligible NRIs*" and "*Issue Procedure – Bids by FPIs*" each on page 375.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue. For further details, see "*Issue Procedure*" beginning on page 368.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Bidders. Bidders are advised to make their independent investigations, seek independent legal advice about their ability to participate in the Issue and ensure that the number of Equity Shares Bid for do not exceed the applicable limits under laws or regulations.
